

The Urban Book Series

Aims and Scope

The Urban Book Series is a resource for urban studies and geography research worldwide. It provides a unique and innovative resource for the latest developments in the field, nurturing a comprehensive and encompassing publication venue for urban studies, urban geography, planning and regional development.

The series publishes peer-reviewed volumes related to urbanization, sustainability, urban environments, sustainable urbanism, governance, globalization, urban and sustainable development, spatial and area studies, urban management, urban infrastructure, urban dynamics, green cities and urban landscapes. It also invites research which documents urbanization processes and urban dynamics on a national, regional and local level, welcoming case studies, as well as comparative and applied research.

The series will appeal to urbanists, geographers, planners, engineers, architects, policy makers, and to all of those interested in a wide-ranging overview of contemporary urban studies and innovations in the field. It accepts monographs, edited volumes and textbooks.

	Ján Buček	
4	Local Self-Government in Hungary: The Impact of Crisis	71
	Adrián Fábíán	
5	Local Government Innovation in Italy and its Impact on Urban and Regional Planning with a Focus on the Milanese Context	89
	Renzo Riboldazzi	
Part II Eu Policies, The Urban Agenda and Local Governance		
6	Urban Dimension of the European Policies and the New EU Urban Agenda in Croatia	113
	Dana Dobrić	
7	The Relationship Between the European Commission and Local Government Through European Urban Initiatives: Constraints and Solidarities	133
	Oussama Kharchi	

8	Mega-Events and New Patterns of Cooperation: The European Capitals of Culture.	149
	Ágnes Németh	
9	Urban Regeneration and Local Governance in Italy: Three Emblematic Cases.	171
	Anna Trono, Maria Chiara Zerbi and Valentina Castronuovo	
10	Involving Citizens in the Reuse and Regeneration of Urban Peripheral Spaces	193
	Gerardo Sassano, Antonio Graziadei, Federico Amato and Beniamino Murgante	
Part III Citizen Participation in Local Self-Government		
11	Assessment of Socio-Economic Status Relevance for Latvian Electoral Participation	209
	Lilita Seimuskane, Inga Vilka and Edgars Brekis	
12	Making Informed Citizens in Local Direct Democracy. What Part Does Their Government Perform?	233
	Werner Pleschberger	
Index	261

List of Figures

Figure 2.1	The structure of local government in Portugal 2015	11
Figure 3.1	GDP per capita development 1992–2014 in Slovakia (in USD). <i>Source</i> OECD 2015 (1992–1994, 2014—estimation)	52
Figure 3.2	GDP growth in Slovakia 1994–2014 (year to year change in %). <i>Source</i> OECD (2016) (1994–1996, 2014 estimated)	52
Figure 3.3	Unemployment rate in Slovakia 1991–2014 (in %). <i>Source</i> OECD	53
Figure 3.4	Exchange rate SKK (Slovak Crown) to USD. <i>Source</i> NBS 2015	53
Figure 3.5	General government debt to GDP development in Slovakia (in %). <i>Source</i> OECD (2016)	55
Figure 3.6	Total revenues of local self-governments in Slovakia (th. EUR). <i>Sources</i> Ministry of Finance of the Slovak Republic (2016)	56
Figure 3.7	Policy priorities in Slovakia after 1989 (own elaboration)	60
Figure 4.1	Changes of EUR/HUF and CHF/HUF exchange rates (yearly average). <i>Source</i> Hungarian National Bank	82
Figure 4.2	Changes of Hungarian local self-government debts, billion EUR, 2007–2010. <i>Source</i> Mohl (2012)	83
Figure 8.1	Aggregate networks of the Pécs 2010 and Turku 2011 projects showing the ‘regional’ dimension. <i>Note</i> : the size of nodes indicates the number of links of a node on the aggregated level variety of links (i.e. the larger the node, the more different links it has with other groups), while the <i>thickness</i> of the links shows the number of connections on the level of organisations summated under the nodes. <i>Source</i> : Survey data (2014–2015) processed and visualised by NetMiner 4 software.	157

Figure 8.2	Aggregate networks of the Pécs 2010 and Turku 2011 projects showing the ‘legal status’ (sectorial) dimension. <i>Note:</i> the size of nodes indicates the number of links of a node on the aggregated level variety of links (i.e. the larger the node, the more different links it has with other groups), while the <i>thickness</i> of the links shows the number of connections on the level of organisations summated under the nodes. <i>Source</i> Survey data (2014–2015) processed and visualised by NetMiner 4 software	157
Figure 8.3	Aggregate networks of the Pécs 2010 and Turku 2011 projects showing the ‘field of activity’ dimension. <i>Note:</i> the size of nodes indicates the number of links of a node on the aggregated level variety of links (i.e. the larger the node, the more different links it has with other groups), while the <i>thickness</i> of the links shows the number of connections on the level of organisations summated under the nodes. <i>Source:</i> Survey data (2014–2015) processed and visualised by NetMiner 4 software.	159
Figure 8.4	The dynamics of the cooperation networks related to the Pécs 2010 and Turku 2011 projects. <i>Source:</i> Survey data (2014–2015) processed and visualised by NetMiner 4 software	160
Figure 9.1	Conservatorio di Sant’Anna. <i>Source:</i> Euromed Agency.	176
Figure 9.2	Environmental degradation. <i>Source:</i> Valentina Castronuovo	180
Figure 10.1	The ‘Serpentone’: a A picture shortly after its completion when it was disconnected from the central part of Potenza (<i>left</i>), b the original project (<i>right-up</i>), c a recent picture which highlights how urban development has included the neighbourhood in the urban part of the city (<i>right-down</i>) (<i>Source</i> Municipality of Potenza)	199
Figure 10.2	a The realised project (<i>left</i>), b the original project (<i>right-up</i>), c the roof garden totally abandoned (<i>right-down</i>) (<i>Source</i> www.archea.it ; authors).	200
Figure 10.3	a Workshop participants guide students from school to the ‘ship’, b few games built by workshop participants were enough to bring the neighbourhood children on the ‘ship’, c a small boat on the roof garden of the ‘ship’, d children were encouraged to express, through the game of ‘it can’, all that was possible to do in the neighbourhood, e the Solarium, space created during the workshop, attracts children and local residents, f The ship cargo has become a site of painting exhibition (<i>Source</i> Salvatore Laurenzana, photographer, 14–21 September 2014)	202

Figure 11.1	Voter turnout in elections to the Parliament, European Parliament, and local governments in Latvia (1994, 2004, 2010). <i>Source</i> The Central Election Commission of Latvia 2015.	211
Figure 11.2	The administrative-territorial division and local governments in Latvia. <i>Source</i> Vilka and Seimuskane (2012)	214
Figure 11.3	The territories of statistical regions in Latvia (<i>Source</i> Picture from publication of Latvian Academy of Science, Vilka 2013).	214
Figure 11.4	Distribution of municipalities by voter turnout in the local elections of 2013 and elections to the European Parliament in 2014. <i>Source</i> A boxplot developed by the author using data of the CEC of Latvia on voter turnout.	216
Figure 11.5	Correlation between voter turnout in the local elections in 2013 and elections to the European Parliament in 2014. <i>Source</i> Calculations made by the authors, data of the CEC of Latvia	218
Figure 11.6	Distribution of municipalities by personal income tax revenues per capita in Latvia in 2013. <i>Source</i> The boxplot made by the authors using the calculation on revenue from the personal income tax in the budgets of local governments per capita available in the regulations of the Cabinet of Ministers of the Republic of Latvia (2013)	221
Figure 11.7	Distribution of municipalities by the number of population (log scale) in Latvia in 2013. <i>Source</i> A boxplot developed by the authors using the OCMA data about the number of population as of 1 January 2013	222
Figure 11.8	Distribution of municipalities in Latvia by individuals with higher education per 1000 inhabitants in Latvia. <i>Source</i> A boxplot developed by the authors using the CSB's data on higher education	223
Figure 11.9	Distribution of municipalities by old-age pension beneficiaries per 1000 inhabitants in Latvia in 2013. <i>Source</i> A boxplot developed by the authors using the SSIA data on the number of old-age pension beneficiaries	224
Figure 11.10	Distribution of municipalities by proportion of Latvian population in Latvia in 2013. <i>Source</i> A boxplot developed by the authors using the CSB data about the number of population at the beginning of 2013	225
Figure 11.11	Distribution of municipalities by live births per 1000 inhabitants in Latvia in 2013. <i>Source</i> A boxplot developed by the authors using the CSB data on the number of births.	226
