Acknowledgements

The initial idea to make this publication on cultural approaches to civic learning in urban spaces originated during the ECER 2015 conference in Budapest, after an inspiring talk with Natalie from Springer. We are thankful to Natalie and Anneke, and also to all members of Springer who believed in our ideas and guided us towards this publication. Different chapters of this book were written by inspiring colleagues from Germany, Denmark, U.K., Finland and Belgium. Thank you Silke, David, Peter, Keri, Helen, Noora, Ann and Luc, for making this such an interesting journey. We enjoyed our enthusiastic collaboration. The central framework in this edition has been inspired by the teaching experiment ‘storytelling in urban spaces’ at University College Ghent. We are grateful to the department of social work for allowing us to experiment in the student course ‘creative social work’, in particular Griet and Ann for all the support during and after the teaching experiment. We also appreciate the enthusiasm of the students who participated in this course and the experts who attended the live performance in Ghent. We would like to thank our colleagues from the research team ‘Urban Education’ and the multidisciplinary research group KIDS (Children In Urban Spaces) at University College Ghent for the interesting discussions about many topics in this publication. Thank you Pieter, Ruben, Liza, Greet, Griet and Jolijn for this challenging and enriching experience. This publication especially benefited from the discussions on child-friendly cities with our colleagues from landscape architecture and social work. We also thank the six reviewers for their constructive comments and enthusiasm, and Fien Steel for proofreading this manuscript.

Dr. Helen Manchester is a researcher and lecturer in educational and social futures at the University of Bristol, UK. Her collaborative, urban research explores key issues and concerns of the young and the old—designing research that increases their visibility and their chances to connect with each other. She works on the co-design of cutting edge creative digital technologies with groups who might generally feel themselves to be excluded from the digital environment. Contact: Graduate School of Education University of Bristol (UK). Email: helen.manchester@bristol.ac.uk

Dr. Noora Pyyry is a postdoc researcher at University of Helsinki and currently doing research on dwelling, everyday politics and ‘thinking with’ urban spaces. She uses posthuman, non-representational theorisation and multisensory participatory methods to study the affectual geographies of the city. Her aim is to experiment with the various forces that are at work in everyday encounters from which spatial-embodied politics and thinking may emerge. She is especially intrigued by the experience of enchantment in contemporary everyday life, and by its potential to provoke awareness of how things stand. Department of Teacher Education University of Helsinki, Finland. Email: npyyry@gmail.com

Dr. Silke Schreiber-Barsch is an Assistant Professor in Adult Education at the Unit of Lifelong Learning, University of Hamburg (Germany). Her main research areas are international and comparative adult education, theory and practices of lifelong learning, issues of participation and social inclusion/exclusion, and education and adults with learning difficulties through the analytical lens of relational spatial theory.
