Acknowledgements

I thank the Trustees of the British Museum for permission to study and publish tablets in their collection, Mathieu Ossendrijver for sharing photographs of A 3414 and A 3427, and Christine Proust for information on the tablets in Istanbul. My work on the rising time tablets was made possible by a Franklin research grant from the American Philosophical Society and the final manuscript was prepared during my time as a fellow of the Institute of Advanced Study at Durham University.
