

Logic, Argumentation & Reasoning

Interdisciplinary Perspectives from the Humanities
and Social Sciences

Volume 14

Series editor
Shahid Rahman

Logic, Argumentation & Reasoning explores the links between Humanities and the Social Sciences, with theories including, decision and action theory as well as cognitive sciences, economy, sociology, law, logic, and philosophy of sciences. It's two main ambitions are to develop a theoretical framework that will encourage and enable interaction between disciplines as well as to federate the Humanities and Social Sciences around their main contributions to public life: using informed debate, lucid decision-making and action based on reflection.

The series welcomes research from the analytic and continental traditions, putting emphasis on four main focus areas:

- Argumentation models and studies
- Communication, language and techniques of argumentation
- Reception of arguments, persuasion and the impact of power
- Diachronic transformations of argumentative practices

The Series is developed in partnership with the Maison Européenne des Sciences de l'Homme et de la Société (MESHS) at Nord - Pas de Calais and the UMR-STL: 8163 (CNRS).

Proposals should include:

- A short synopsis of the work or the introduction chapter
- The proposed Table of Contents
- The CV of the lead author(s)
- If available: one sample chapter

We aim to make a first decision within 1 month of submission. In case of a positive first decision the work will be provisionally contracted: the final decision about publication will depend upon the result of the anonymous peer review of the complete manuscript. We aim to have the complete work peer-reviewed within 3 months of submission.

The series discourages the submission of manuscripts that contain reprints of previous published material and/or manuscripts that are below 150 pages / 85,000 words.

For inquiries and submission of proposals authors can contact the editor-in-chief Shahid Rahman via: shahid.rahman@univ-lille3.fr or managing editor, Laurent Keiff at laurent.keiff@gmail.com.

Contents

1	Applied Formal Philosophy: Some Reflections on the Program. . . .	1
	Gillman Payette and Rafal Urbaniak	
Part I Human Affairs		
2	The Logic of Guilt, Innocence and Legal Discourse	7
	Andreas Kapsner	
3	Counterfactuals, Logic Programming and Agent Morality	25
	Luís Moniz Pereira and Ari Saptawijaya	
4	The Wisdom of the Multitude: Diversity Versus Size	55
	Peter C. Stone and Koji Kagotani	
5	A Logic for Human Actions	73
	Clayton Peterson	
6	Reasoning with Comparative Moral Judgements: An Argument for Moral Bayesianism	113
	Ittay Nissan-Rozen	
Part II Epistemology		
7	Is Theory Choice Using Epistemic Virtues Possible?	139
	Kit Patrick and Kate Hodesdon	
8	Abduction Logics: Illustrating Pitfalls of Defeasible Methods	169
	Diderik Batens	
9	A Multimodal Pragmatic Analysis of the Knowability Paradox. . . .	195
	Massimiliano Carrara, Daniele Chiffi and Davide Sergio	

Part III Closer to the Core

- 10 Philosophical Aspects of an Alleged Connection
Between the Axiom of Choice and Predicting the Future** 213
Pawel Pawlowski
- 11 Counterpossibles, Impossible Worlds, and the Notion
of Similarity** 221
Maciej Sendlak
- 12 Grzegorzczyk’s Non-Fregean Logics
and Their Formal Properties** 243
Joanna Golińska-Pilarek and Taneli Huuskonen
