It is easy to fall in love with the idea of people making something for the greater good, but how much of that is just a naive view of reality? How much are we living in denial, blind to the fact that things might work differently? Some lovers might show a face to you and lie, but most of the times you aren't ready to ask the right questions, mostly because you might not be willing to hear the truth. (David Cuartielles 2014)

Acknowledgements

This book originates from the research I conducted during my PhD project at Technische Universität Berlin. It would not have been possible without the financial support of the German Research Foundation (DFG) and its funds for the Graduate School “Innovation Society Today—The reflexive creation of novelty,” which provided the best of all possible environments to get this work done. In addition, the scholarship granted by the German Academic Exchange Service (DAAD) enabled my studies abroad in Berkeley that influenced the story of this book a lot.

Talking about persons, first I want to thank the 3D printing entrepreneurs, RepRap community members, and advocates of Open Source Hardware, who participated in my empirical research, for their openness and kind support. Furthermore, I am especially indebted to Prof. Arnold Windeler, chair for the Sociology of Organizations at Technische Universität Berlin, who was always willing to share his scarce time and rich knowledge to encourage me and my work. I am also very grateful for the essential advice of Prof. Leonhard Dobusch, Department of Organization and Learning at Universität Innsbruck, who was the smartest second supervisor I can imagine. Another big “Thank you!” goes to my fellow colleagues, especially Uli Meyer, Julian Stubbe, Fabian Schroth, Uli Petschow, Robert Jungmann, Valentin Janda, and Robin Tech for their feedback, cooperation, and friendship.

Nobody has been more important to me and the success of this endeavor than the members of my family. My loving wife Sonja and our adorable children Clara and Ellen are the infinite source of my inspiration and motivation. Last but not least, I want to thank my parents Ingelore and Hans, whose love and encouragement are with me in whatever I pursue.

Contents

1	Believe Me, Don't Believe the Hype	1
1.1	Scope of Perspectives	3
1.1.1	Conceptual Perspective	3
1.1.2	Theoretical Perspective	4
1.1.3	Practical Perspective	5
1.2	Setting the Scene: Open Source Hardware, 3D Printing, and Entrepreneurship	6
1.3	Agenda of the Book	9
2	Linking Commons, Communities, and Innovation	13
2.1	The Actually Not-So-Tragic Tragedy of the Commons	14
2.2	The Promise of Commons-Based Peer Production	17
2.2.1	The Ideological Foundation of Free Software	19
2.2.2	The Practical Transformation of Open Source Software	20
2.3	Idiosyncrasies of Innovation Communities	23
2.3.1	Communities as Organizational Contexts for Innovation	24
2.3.2	“Doing Innovation” in Community Contexts	28
2.3.3	Exploration and Exploitation in Innovation Communities	32
3	Theorizing Innovation Communities	35
3.1	Institutional Foundations	36
3.1.1	Capturing the Conflicts Between Logics	39
3.1.2	Institutional Logics and Innovation	43
3.2	Innovation Communities and Fields	47
3.2.1	Theories of Fields	48
3.2.2	Coherence and Conflict	52
3.2.3	Communities as Meso-Level Order	54
3.2.4	CBI in Ambiguous Fields: Insights from OSS	57

3.3	Agency and Entrepreneurship	60
3.3.1	Institutional and Economic Takes on Entrepreneurship . . .	62
3.3.2	CBI and Entrepreneurship	65
4	Analytical Framework and Methodology	69
4.1	Applying the Field Perspective	70
4.2	Re-framing the Dilemma of Entrepreneurship	72
4.3	Methodological Foundation and Sources of Empirical Data	75
4.3.1	Descriptive Representation of the 3D Printing Field	76
4.3.2	Tracing Shared Understandings on Legitimacy	77
4.3.3	Elaborating Collective Rationalities and the Actors' Scope of Agency	80
5	Innovation Communities and the Dilemma of Entrepreneurship in the 3D Printing Field	83
5.1	Emergence and Change of the 3D Printing Field	85
5.1.1	Inception	85
5.1.2	Proliferation	90
5.1.3	Diversification	96
5.2	Institutional Friction: Community Gain Versus Community Drain	99
5.2.1	Connotative Conflicts and Divergent Understandings on Entrepreneurship	101
5.2.2	Denotative Contrasts in Appropriate Entrepreneurial Practices	105
5.3	Facing the Tensions: Insights from Second Generation 3D Printing Startups	114
5.3.1	Community Backgrounds and Entrepreneurial Transitions	115
5.3.2	Starting the Venture, Approaching the Tensions	118
5.3.3	Balancing Community and Business Needs	128
6	Field-Level Dynamics and the Gradual Disruption of the 3D Printing Community	133
6.1	Field Transitions	134
6.1.1	Macro <> Meso Nexus	135
6.1.2	Meso <> Micro Nexus	138
6.2	The Entrepreneurial Dilemma Revisited	142
6.3	Materiality and the Tragedy of Open Hardware	144
7	The Perils of Innovation Communities	149
7.1	Summary	150
7.2	Key Insights and Contributions	152
7.2.1	Conceptual Contributions	152
7.2.2	Theoretical Contributions	153
7.2.3	Practical Contributions	156
7.3	The Utopia of Community-Based Innovation	157
	References	161
