

SpringerBriefs in Molecular Science

Chemistry of Foods

Series editor

Salvatore Parisi, Industrial Consultant, Palermo, Italy

The series Springer Briefs in Molecular Science: Chemistry of Foods presents compact topical volumes in the area of food chemistry. The series has a clear focus on the chemistry and chemical aspects of foods, topics such as the physics or biology of foods are not part of its scope. The Briefs volumes in the series aim at presenting chemical background information or an introduction and clear-cut overview on the chemistry related to specific topics in this area. Typical topics thus include: - Compound classes in foods - their chemistry and properties with respect to the foods (e.g. sugars, proteins, fats, minerals, ...) - Contaminants and additives in foods - their chemistry and chemical transformations - Chemical analysis and monitoring of foods - Chemical transformations in foods, evolution and alterations of chemicals in foods, interactions between food and its packaging materials, chemical aspects of the food production processes - Chemistry and the food industry - from safety protocols to modern food production The treated subjects will particularly appeal to professionals and researchers concerned with food chemistry. Many volume topics address professionals and current problems in the food industry, but will also be interesting for readers generally concerned with the chemistry of foods. With the unique format and character of Springer Briefs (50 to 125 pages), the volumes are compact and easily digestible. Briefs allow authors to present their ideas and readers to absorb them with minimal time investment. Briefs will be published as part of Springer's eBook collection, with millions of users worldwide. In addition, Briefs will be available for individual print and electronic purchase. Briefs are characterized by fast, global electronic dissemination, standard publishing contracts, easy-to-use manuscript preparation and formatting guidelines, and expedited production schedules. Both solicited and unsolicited manuscripts focusing on food chemistry are considered for publication in this series.

Contents

| | |
|---|----|
| 1 Analytical Methods for the Determination of Maillard Reaction Products in Foods. An Introduction | 1 |
| Rajeev K. Singla, Ashok K. Dubey, Sara M. Ameen, Shana Montalto and Salvatore Parisi | |
| 1.1 The Maillard Reaction in Foods | 1 |
| 1.2 Proposed Maillard Reaction Pathways in Foods | 3 |
| 1.2.1 Maillard Mechanisms at $\text{pH} \leq 7$ | 6 |
| 1.2.2 Maillard Mechanisms at $\text{pH} > 7$ | 7 |
| 1.2.3 Another Maillard Possibility. Acrylamide Production | 8 |
| 1.3 Analytical Target Compounds for Maillard Reaction. | 9 |
| References | 10 |
| 2 The Control of Maillard Reaction in Processed Foods. Analytical Testing Methods for the Determination of 5-Hydroxymethylfurfural | 15 |
| Rajeev K. Singla, Ashok K. Dubey, Sara M. Ameen, Shana Montalto and Salvatore Parisi | |
| 2.1 Maillard Reaction and 5-Hydroxymethylfurfural | 15 |
| 2.2 Chemistry and Toxicology of 5-Hydroxymethylfurfural | 17 |
| 2.3 Analytical Approaches to the Problem of 5-Hydroxymethylfurfural in Foods and Beverages | 19 |
| References | 20 |
| 3 Analytical Methods for the Determination of Furosine in Food Products | 27 |
| Rajeev K. Singla, Ashok K. Dubey, Sara M. Ameen, Shana Montalto and Salvatore Parisi | |
| 3.1 The Maillard Reaction in Foods. The Role of Furosine. | 28 |

| | | |
|----------|---|-----------|
| 3.2 | Chemistry and Toxicology of Furosine | 29 |
| 3.3 | Analytical Approaches to the Problem of Furosine | 31 |
| | References | 32 |
| 4 | The Analytical Evaluation of Acrylamide in Foods as a Maillard Reaction Product | 37 |
| | Rajeev K. Singla, Ashok K. Dubey, Sara M. Ameen, Shana Montalto and Salvatore Parisi | |
| 4.1 | The Maillard Reaction in Foods. The Importance of Acrylamide | 38 |
| 4.2 | Chemistry and Toxicology of Acrylamide | 39 |
| 4.3 | Analytical Approaches to the Problem of Acrylamide | 41 |
| | References | 43 |
| 5 | Melanoidins and Browning Reactions in Processed Foods. Quantitative Determinations, Colour Measurement, and Sensorial Assessment | 47 |
| | Rajeev K. Singla, Ashok K. Dubey, Sara M. Ameen, Shana Montalto and Salvatore Parisi | |
| 5.1 | The Maillard Reaction in Foods. The Importance of Melanoidins | 47 |
| 5.2 | Toxicology of Melanoidins | 49 |
| 5.3 | Analytical Approaches to the Problem of Melanoidins | 50 |
| | References | 51 |
