

Palgrave Studies in Impact Finance

Series Editor

Mario La Torre

University of Rome "La Sapienza"

Rome, Italy

The *Palgrave Studies in Impact Finance* series provides a valuable scientific 'hub' for researchers, professionals and policy makers involved in Impact finance and related topics. It includes studies in the social, political, environmental and ethical impact of finance, exploring all aspects of impact finance and socially responsible investment, including policy issues, financial instruments, markets and clients, standards, regulations and financial management, with a particular focus on impact investments and microfinance.

Titles feature the most recent empirical analysis with a theoretical approach, including up to date and innovative studies that cover issues which impact finance and society globally.

Acknowledgements

First and foremost we would like to thank all contributors, whose biographies are provided in this volume, without whom this edited book would not have been possible, and two anonymous referees for their useful comments and suggestions.

Also, we want to express our gratitude to all participants of the 2017 Social Impact Investment International Conference organized by Sapienza University of Rome with its partners: Tiresia of Politecnico di Milano and Casmef Centro Arcelli of Luiss Guido Carli University. We received a great help from the Conference Scientific Committee.

Finally, we show our gratitude to the Palgrave Macmillan team, Tula Weis and Ruth Noble for their support during the publishing process.

Notes on Contributors

Filippo Addarii is co-founding partner and CEO of PlusValue, research and consultancy company to align public and private interests for public goods. Over the last 15 years, he has advised national and international public institutions, corporations, and not-for-profit organizations on innovation strategies for socio-economic development, including the European Commission, British Foreign Office, and UN Fund for Democracy. Since 2014, his efforts have focused on the scale-up of impact investing as embedded into urban regeneration projects, advising the international developer Lendlease.

Addarii holds a MRes in Urban Studies and Affairs from University College London (UCL) and a MSc in Non-Profit Management from Università degli Studi di Urbino. He has successfully completed executive courses at Harvard Kennedy School (Civil Society Leadership Management), INSEAD (Social Entrepreneurship Programme), and CASS Business School (Centre for Charity Effectiveness, London, UK).

Mario Calderini is Full Professor in Social Innovation at the School of Management of Politecnico di Milano and he is Director of Tiresia, Centre of Research on Social Innovation and Social Impact Investments. He is President of the Scientific Committee of the Social Impact Agenda per l'Italia and he was previously member of the Social Impact Investment Taskforce. His main research areas are social impact investments and social innovation.

Rosella Carè is a postdoctoral research fellow in banking and finance at University Magna Graecia (UMG) of Catanzaro, Italy. She received a PhD in Healthcare Management and Economics from UMG and a Ph.D. in 'Sciences de Gestion' from the Conservatoire National des Arts et Métiers (CNAM), France. During 2012 and 2013, she was a visiting PhD student at ESCP Europe, Paris, and in 2016 she was an invited visiting researcher at Waterloo University, Canada. As temporary professor at UMG she teaches banking and finance disciplines. She is author or co-author of works published by Springer, Routledge and Palgrave Macmillan. Her research interests include social and sustainable finance, alternative finance and sustainability, and reputational risk and reputational crisis in the banking sector.

Rossana Caridà has been a researcher of Italian Public Law at University Magna Graecia (UMG) of Catanzaro, Italy since 2012. She holds a PhD in Administrative Law from the University of Catania (Italy). From 2013 to 2016, she served as Aggregate Professor of Italian Public Law for the degree courses in Business Administration and in Sociology and taught Administrative Law in the degree course in Organization of Public and Private Administrations at UMG. Currently, she is Aggregate Professor of Italian Public Law for the degree course in Business Administration at UMG. She teaches also in many High Training Courses (Postgraduate Schools of Law, Masters, etc.) and she was responsible for various research projects relating to Public and Administrative Law, with a structural link with Constitutional Principles. Caridà has authored more than 30 scientific publications and a book. Her main areas of research concern fundamental rights, citizenship and public administrators' liability.

Helen Chiappini is a postdoctoral research fellow at G. d'Annunzio University of Chieti and Pescara and a teacher assistant in Corporate Finance at Luiss Guido Carli University. She taught in a MBA course and in a MSc course at Link Campus University of Rome and at Pontificia Lateran University of Vatican City. She was Visiting Research Fellow at Centre of Banking and Finance of Regent's University London and she received a Ph.D. *cum laude* in Banking and Finance at Sapienza University of Rome. Her areas of research include social impact investments, socially responsible investments and non-performing loans management strategies. She recently published a book titled *Social Impact Funds. Definition Assessment and Performance* with Palgrave Macmillan (2017).

Giuseppe Ferraro graduated in Law from the University of Calabria with a 110/110 vote with honors. He specialized in legal professions at the LUISS Guido Carli law school in Rome and received a second-level master's degree in Management of Innovation and Information Technologies. Currently, he is a second year Ph.D. student in the School of Theory of Law and European Legal and Economic Systems at the University Magna Graecia of Catanzaro, Italy. His research interests are public private partnerships for innovation and alternative finance for Italian public entities.

Carmen Gallucci is Associate Professor of Corporate Finance at University of Salerno, Italy where she holds courses in Corporate Finance and Business Evaluation. Her research activity focuses on corporate finance, the bank-firm relationship and the interaction between corporate governance models and economic and financial performance.

Lars Hultkrantz is Professor of Economics at Örebro University. He has been doing research in public economics, transportation economics, environmental and resource economics and economics of tourism. He is a member of the Expert Group on Public Economics at the Swedish Ministry of Finance. He has been an advisor to the development of guidelines for benefit-cost analysis in Sweden and Norway.

Mario La Torre is Full Professor in Banking and Finance at the University of Rome "La Sapienza", Rome, Italy. His main research areas are banking and financial intermediaries, financial markets and financial innovation. He is an expert in ethical finance, impact finance and microfinance, as well as audiovisual and art financing. He is editor of the book series Palgrave Studies in Impact Finance published by Palgrave Macmillan. He has been a member of the G8 Social Impact Investment Taskforce.

Fiorenza Lipparini is a Founding Partner and Director of Research at PlusValue. She leads on research activities and focuses on social entrepreneurship, socio-economic impact assessment tools and techniques, digital social innovation and funding, governance and evaluation of multi-stakeholder partnerships for the delivery of societal goods. Before founding PlusValue, Lipparini was EU Policy Senior Analyst at the Young Foundation, and earlier a policy analyst for Intesa Sanpaolo, in Brussels.

She is co-author with Filippo Addarii of *Vision and Trends of Social Innovation for Europe*, and a co-author on a European Commission report titled 'ICT-Enabled Social Innovation to support the Implementation of the Social

Investment Package – Mapping and Analysis of ICT-enabled Social Innovation initiatives promoting social investment in integrated approaches to the provision of social services: IESI Knowledge Map 2015’.

She holds a Ph.D. in Comparative Literature and Linguistics.

Francesca Medda is Professor of Applied Economics and Finance at the University College London (UCL). Since 2010, she has served as Director of the UCL QASER (Quantitative and Applied Spatial Economics Research) Laboratory. Since 2012, she has served as economic adviser to the UK Ministry of Environment and Agriculture (Defra) and in 2014 at the Ministry of Finance (HM Treasury). She is Vice-President of the Parliamentary and Scientific Committee. Her research focuses on project finance, innovative financial mechanisms and risk evaluation in different infrastructure sectors such as transport industry, energy innovation and new technologies, urban investments (smart cities), supply chain provision and optimization, and efficiency. She works actively with the private and public sector including the European Investment Bank, the World Bank, UNESCO, UN-Habitat, WILLIS Re, HALCROW and UITP.

Antonio Minguzzi is Associate Professor of Management at the University of Molise, Italy. His research interests include social finance and small business development. He has published national and international articles on management and small business. Since 2015, he has been General Manager of the Banco di Napoli Foundation, which is a private foundation engaging in philanthropy in the social sector in Southern Italy.

Michele Modina is Associate Professor of Economics and Business Management at the University of Molise, Italy where he holds courses in Corporate Finance and Start-up and Business Planning. His research activity focuses on value creation, the bank-firm relationship and the role of corporate finance, the management of investment and financing techniques, including new methods of the provision of financial resources.

Julio Navío-Marco is a top corporate Spanish executive with more than 20 years experience in the digital & Information & Communication Technologies sector with a thorough understanding of the information technologies industry. Marco holds an MSc. degree in Telecommunications Engineering (UPM), a BA and Ph.D. in Business Administration (UNED), and a Program for Development of Directors from IESE Business School. Marco is also Lecturer in Business Organization and Entrepreneurship (UNED).

Alessandro Rizzello received his Ph.D. in Health Care Management and Economics from the University Magna Graecia (UMG) of Catanzaro, Italy with a dissertation that focused on social impact investing and social impact bonds in healthcare. Currently, he teaches Social and Sustainable Finance at UMG. His research interests are social impact investing, social impact bonds, social and sustainable finance and crowdfunding of social ventures. Previously, he worked as a head of a financial office in the Italian public administration. He received his master's degree in Economics from the LUISS University in Rome.

Elisabetta Scognamiglio has a Ph.D. in Economics from the Federico II University of Naples. She discussed a Ph.D. thesis on social risk in impact investing with specific focus on social impact bonds. Research interests concern the risks and returns in social impact investment. Previously, she worked as a project manager for an Italian microfinance institution and currently works as an impact analyst for an Italian company.

Marta Solórzano-García is Senior Lecturer in Business Administration in the Organisation Studies Department at The National University of Distance Education (UNED) Business School (Spanish Distance Teaching University). She is the director of the Social Entrepreneurship and Social Innovation Postgraduate Program. She also teaches in the doctoral program and in executive education offerings. Her research focuses on organizational design and change, social entrepreneurship, social enterprise, and social impact. García has participated in several research projects with the Chamber of Commerce of Madrid, the Ministry of Employment and Immigration, the Department of Finance and Public Administration, and several European projects.

Annarita Trotta is Full Professor of Banking and Finance at University Magna Graecia (UMG) of Catanzaro, Italy. She holds a Ph.D. in Business Administration from the University of Naples Federico II, where she was an assistant professor of Banking on the Faculty of Economics from 1995 to 2001. From 2001 to 2006, she was an associate professor at the University of Catanzaro. Since 2006, she has been a professor of Economics and Management of Financial Institutions and Markets at UMG, where she teaches Banking, Financial Markets, and Corporate Finance. Over her 20-year academic career, Trotta has authored (or co-authored) more than 50 scientific publications and four books. Her primary areas of research are social and sustainable finance; impact investing; alternative finance and sustainability; reputational risk and reputational crisis in the banking sector; corporate social responsibility in the banking sector; subprime crisis and credit rating agencies; local banking and information asymmetries; credit

risk; small business, venture capital and informal venture capital; bank-small business relationships; and finance and medicine.

Mercedes Valcárcel-Dueñas is the managing director at Fundación Tomillo, advisor, and board member in various social entities and foundations; she also has extensive experience in multinational projects with abilities to lead multidisciplinary teams. Valcárcel-Dueñas is a lecturer in Finance for social businesses, social innovation, and social impact measurement. She has authored several publications on social entrepreneurship and social finance, impact investments, social economy, and social impact assessment. She has recently been appointed to the European Commission Advisory group on innovation for Small and Medium Enterprises for Horizon 2020 as expert in social innovation, and to the Advisory Group on Gender.

Karen Wendt is external lecturer at Modul Vienna University. She has more than 20 years of experience in investment banking with UniCredit and has been sitting on the board of the Equator Principles Financial Institutions Association (EPFI Association) for more than seven years. She is also an investment banker and consultant on responsible investment banking and positive impact investment. Her anthology *Responsible Investment Banking* was published by Springer International in 2015 and she contributes to publications for Springer and Taylor and Francis (Routledge) on a permanent basis, including on topics such as organizational development, change management, rating, conflict resolution mechanisms and project management. Her new anthology *Positive Impact Investing and Organizational Culture* will be published in 2018 as well as *Creating Ecosystems of Ethical Culture in Business and Non Business Organizations* and *Sustainable Financial Innovation*.
