

Advances in Intelligent Systems and Computing

Volume 773

Series editor

Janusz Kacprzyk, Polish Academy of Sciences, Warsaw, Poland
e-mail: kacprzyk@ibspan.waw.pl

The series “Advances in Intelligent Systems and Computing” contains publications on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Virtually all disciplines such as engineering, natural sciences, computer and information science, ICT, economics, business, e-commerce, environment, healthcare, life science are covered. The list of topics spans all the areas of modern intelligent systems and computing such as: computational intelligence, soft computing including neural networks, fuzzy systems, evolutionary computing and the fusion of these paradigms, social intelligence, ambient intelligence, computational neuroscience, artificial life, virtual worlds and society, cognitive science and systems, Perception and Vision, DNA and immune based systems, self-organizing and adaptive systems, e-Learning and teaching, human-centered and human-centric computing, recommender systems, intelligent control, robotics and mechatronics including human-machine teaming, knowledge-based paradigms, learning paradigms, machine ethics, intelligent data analysis, knowledge management, intelligent agents, intelligent decision making and support, intelligent network security, trust management, interactive entertainment, Web intelligence and multimedia.

The publications within “Advances in Intelligent Systems and Computing” are primarily proceedings of important conferences, symposia and congresses. They cover significant recent developments in the field, both of a foundational and applicable character. An important characteristic feature of the series is the short publication time and world-wide distribution. This permits a rapid and broad dissemination of research results.

Welcome Message of IMIS-2018 International Conference Organizers

Welcome to the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018), which will be held from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan, in conjunction with the 12th International Conference on Complex, Intelligent and Software Intensive Systems (CISIS-2018).

This International Conference focuses on the challenges and solutions for Ubiquitous and Pervasive Computing (UPC) with an emphasis on innovative, mobile, and Internet services. With the proliferation of wireless technologies and electronic devices, there is a fast-growing interest in UPC. UPC enables to create a human-oriented computing environment where computer chips are embedded in everyday objects and interact with physical world. Through UPC, people can get online even while moving around, thus having almost permanent access to their preferred services. With a great potential to revolutionize our lives, UPC also poses new research challenges. The conference provides an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of UPC.

For IMIS-2018, we received many paper submissions from all over the world. The papers included in the proceedings cover important aspects of UPC research domain. This year, we received 168 submissions and after a careful review process of 3 independent reviews per submission, 47 papers were accepted (about 28% acceptance rate).

It is impossible to organize such a successful program without the help of many individuals. We would like to express our great appreciation to the authors of the submitted papers, the program committee members, who provided timely and significant reviews, and special session chairs for their great efforts. We are grateful to Honorary Chair: Prof. Makoto Takizawa, Hosei University, Japan, for his advice and support.

This year in conjunction with IMIS-2018 we have 7 International Workshops that complemented IMIS-2018 program with contributions for specific topics. We would like to thank the Workshop Co-chairs and all workshop organizers for organizing these workshops.

We thank Donald Elmazi, Yi Liu, Miralda Cuka, and Kosuke Ozero, Fukuoka Institute of Technology, Japan, for their excellent work and support as Web Administrators.

Finally, we would like to thank: Matsue City, Shimane Prefecture, Support Center for Advanced Telecommunications Technology Research (SCAT), Foundation, Japan, for their support.

We hope that all of you enjoy IMIS-2018 and find this a productive opportunity to learn, exchange ideas, and make new contacts.

Welcome Message from IMIS-2018 Workshops Co-chairs

Welcome to the Workshops of the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018), which will be held from July 4th to July 6th, 2018 at Kunibiki Messe, Matsue, Japan.

This year we have 7 workshops, which will be held together with IMIS-2018. The objective was to complement as much as possible the main themes of IMIS-2018 with the specific topics of the different workshops to cover many topics of Ubiquitous and Pervasive Computing (UPC).

The list of workshops follows below:

1. The 12th International Workshop on Advances in Information Security (**WAIS-2018**)
2. The 8th International Workshop on Mobile Commerce, Cloud Computing, Network and Communication Security (**MCNCS-2018**)
3. The 8th International Workshop on Intelligent Techniques and Algorithms for Ubiquitous Computing (**ITAUC-2018**)
4. The 8th international workshop on Future Internet and Next Generation Networks (**FINGNet-2018**)
5. The 7th International Workshop on Frontiers in Innovative Mobile and Internet Services (**FIMIS-2018**)
6. The 7th International Workshop on Sustainability Management of e-Business and Ubiquitous Commerce Engineering (**SMEUCE-2018**)
7. The 4th International Workshop on Big Data and IoT Security (**BDITS-2018**)

We would like to thank IMIS-2018 International Conference Organizers for their help and support. We are grateful to the workshop organizers for their great efforts and hard work in proposing the workshops, selecting the papers, organizing interesting programs, and for the arrangements of the workshops during the conference days.

We are grateful to Donald Elmazi, Yi Liu, Miralda Cuka, and Kosuke Ozera, Fukuoka Institute of Technology, Japan, for their excellent work and support as Web Administrators.

We hope you enjoy the workshops programs and proceedings.

Welcome Message from WAIS-2018 International Workshop Organizers

It is our great pleasure to welcome you to the 12th International Workshop on Advances in Information Security (WAIS-2018). The workshop is held in conjunction with 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan.

As computing systems have begun to pervade every aspect of daily life, people need to be able to trust them—so much of their lives depend on them. Today, many of these systems are far too vulnerable to cyber attacks that can inhibit their operation, corrupt valuable data, or expose private information. Future systems will include sensors and computers everywhere, exacerbating the attainment of security and privacy. Current security practices largely address current and known threats, but there is a need for research to take account of future threats too.

The goal of WAIS-2018 is to bring together computer scientists, industrial engineers, and researchers to discuss and exchange experimental or theoretical results, novel designs, work-in-progress, experience, case studies, and trend-setting ideas in the area of Information Security.

We would like to thank all authors for submitting their research works to the workshop and the PC Members for checking carefully the papers.

We look forward to meet all of you in Matsue, Japan.

Welcome Message from MCNCS-2018 International Workshop Chair

Welcome to the 8th International Workshop on Mobile Commerce, Cloud Computing, Network and Communication and their Securities (MCNCS-2018) which will be in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan.

Computer network and communication have been a part of our everyday life. People use them to contact others almost anytime anywhere. On the other hand, hackers due to business benefits, enjoying their skill/professional achievement or some other reasons very often attack, intrude, or penetrate our systems. This is the key reason why computer/network and their securities have been the important issues in computer research. Many researchers have tried to do their best to develop system network, security techniques, and the methods to protect a system. But system attacks still occur worldwide every day. In fact, current network techniques and system security technology are still far away from convenient to use and completely secure and should be further improved.

This workshop aims to present the innovative researches, methods and for mobile commerce, cloud computing, network and communication and their securities. The workshop contains high-quality research papers, which were selected carefully by Program Committee Members.

It is impossible to organize such a successful program without the help of many individuals. We would like to express our appreciation to the authors of the submitted papers and to the program committee members, who provided timely and significant reviews.

We hope all of you will enjoy MCNCS-2018 and find this a productive opportunity to exchange ideas with many researchers.

Welcome Message from ITACU 2018 International Workshop Co-chairs

Welcome to the 8th International Workshop on Intelligent Techniques and Algorithms for Ubiquitous Computing (ITAUC-2018) which will be held in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) at Kunibiki Messe, Matsue, Japan, from July 4th to July 6th, 2018.

The aim of this workshop is to present the innovative researches, methods, and algorithms for wireless networks, sensor networks, and ubiquitous computing. It is intended to facilitate exchange of ideas and collaborations among researchers from computer science, network computing, mathematics, statistics, intelligent computing and such related sciences, to discuss various aspects of innovative intelligent algorithms and networks security, intelligent techniques for sensor networks and radio networks, and their applications.

Many people have kindly helped us to prepare and organize the ITAUC-2018 workshop. First, we highly thank the authors who submitted high-quality papers and reviewers who carefully evaluated these submissions. We thank Honorary Co-chair, General Co-chairs, PC Co-chairs, and Workshops Co-chairs of IMIS-2018 for their advice and support to make possible organization of ITAUC-2018.

We hope you will enjoy the conference and have a great time in Torino, Italy.

Welcome Message from FINGNet-2018 International Workshop Organizers

Welcome to the 8th International Workshop on Future Internet and Next Generation Networks (FINGNet-2018), which is held in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan.

Over the last years, new paradigms and concepts have emerged in telecommunication networks that are currently being realized in the Internet. Among those are the social networking, the peer-to-peer, and the quality of experience paradigms. Nevertheless, it is difficult or even impossible to predict how the network of the future will emerge. However, it is quite clear that some major issues have to be addressed for the future Internet or next-generation networks. This includes solutions, e.g., for security and privacy issues, such as spam or service-oriented approaches to enable flexible networking. In addition, new applications or services emerge such as social media networks or crowdsourcing platforms enabling collaborative networking of Internet users. To address these issues, there is an increased interest in the scientific community to propose and design new algorithms and methodologies as well as to understand and model new applications and services.

The aim of this workshop is to present such innovative research, methods, and numerical analysis related to advanced Internet and network technologies. The workshop contains high-quality research papers, which were carefully selected by the technical program committee members.

It is impossible to organize such a successful program without the help of many authors, program committee members, and organizers. We also would like to deeply express our appreciation to the authors of the submitted papers and to the program committee members, who provided timely and significant reviews.

We hope all of you will enjoy FINGNet-2018 and find this a productive opportunity to exchange ideas with many researchers. Finally, we would like to thank everyone for participating in FINGNet-2018 workshop. We hope that you will find the workshop along with other joint workshops and conferences stimulating.

Welcome Message from FIMIS-2018 International Workshop Chair

It is our great pleasure to welcome you to the 7th International Workshop on Frontiers in Innovative Mobile and Internet Services (FIMIS-2018), which will be held in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan.

The workshop focuses on challenges and solutions for Ubiquitous and Pervasive Computing (UPC) with an emphasis on innovative, mobile and Internet services. Especially, the main goal of FIMIS-2018 is to bring together researchers, practitioners, and decision-makers to demonstrate the state of the art as well as future directions for UPC.

The organization of a workshop needs the help of many people. We would like to express our special thanks to the authors and reviewers whose contribution makes this workshop a reality.

Hopefully, you will enjoy the workshop and have a great time in Matsue, Japan.

FIMIS-2018 Workshop Chair

Leonard Barolli

Fukuoka Institute of Technology, Japan

Welcome Message from SMEUCE-2018 International Workshop Co-chairs

We welcome you to the 7th International Workshop on Sustainability Management of e-Business and Ubiquitous Commerce Engineering (SMEUCE-2018), which will be held in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018) at Kunibiki Messe, Matsue, Japan, from July 4th to July 6th, 2018.

The aim objective of SMEUCE-2018 is to provide a platform for academics, business leaders, consultants, and other professionals from all over the world to exchange the latest research findings in the field of sustainability management of e-business, e-business, and u-business (ubiquitous business) engineering, Cloud commerce and their relative applications. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

Many people have kindly helped us to prepare and organize the SMEUCE-2018 workshop. First, we highly thank the authors who submitted high-quality papers and reviewers who carefully evaluated these submissions. We are thankful to Prof. Makoto Takizawa, Hosei University, Japan, as Honorary Chair of IMIS-2018. We would like to give our special thanks to Prof. Leonard Barolli as General Chair of IMIS-2018 for their strong encouragement and guidance to organize this workshop. We would like to thank the PC Co-chairs and Workshops Co-chairs for their advice and support to make possible organization of SMEUCE-2018.

We hope you will enjoy the conference and have a great time in Matsue, Japan.

SMEUCE-2018 Co-chairs

Welcome Message from BDITS-2018 International Workshop Co-chairs

Welcome to the 4th International Workshop on Big Data and IoT Security (BDITS-2018), which is held in conjunction with the 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018), from July 4th to July 6th, 2018, at Kunibiki Messe, Matsue, Japan.

The aim objective of BDITS-2018 is to provide a platform for academics, the leaders of network security, consultants and other professionals from all over the world to exchange the latest research findings in the field of Security Technologies of Big Data and Internet of Things (IoT), cloud and ubiquitous computing and their applications. This workshop provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish research relations and to find global partners for future collaboration.

Many people have kindly helped us to prepare and organize the BDITS-2018 workshop. First, we would like to thank the authors who submitted high-quality papers and reviewers who carefully evaluated the submitted papers.

We would like to give our special thanks to Prof. Leonard Barolli for his strong encouragement and guidance to organize this workshop. We would like to thank PC Co-chairs and Workshop Co-chairs of IMIS-2018 for their kind support. We would like to thank all PC members for their serious review works in order to make successful organization of BDITS-2018.

We hope you will enjoy the conference and have a great time in Matsue, Japan.

CISIS-2018 Keynote Talks

SNS as Social Sensors: Technologies for Extracting Knowledge from SNSs

Takahiro Hara
Osaka University, Osaka, Japan

Abstract. Due to surprisingly rapid popularization of smartphones and Social Network Services (SNSs), ordinary people generate and share a large amount of data using SNSs on smartphones. Recent studies have revealed that messages posted on SNSs such as Twitter can be used for detecting various kinds of facts in the real world such as events, trends, and user sentiment, which can be considered as kinds of social sensor data. Social sensor data are very useful for Big Data analysis because these tell many things representing the real world, which cannot be known by only analyzing traditional Big Data.

In this talk, I will present our recent studies on social sensing based on data mining on SNSs such as Twitter. We will start with our approaches for knowledge extraction from Twitter and then move on to some fundamental techniques which can be used commonly for such knowledge extraction. I will also present our ongoing work for building a framework to share not only social sensor data (i.e., SNS analytical results) but also definitions of social sensor data and analytical procedures. I will conclude this talk with some discussion on future research opportunities for social sensing.

Fog Computing: A New Research Direction in Distributed Computing—Applications, Issues and Challenges

Farookh Khadeer Hussain
University of Technology Sydney (UTS), Sydney, Australia

Abstract. The objective of this talk is to introduce the emerging research area of ‘Fog Computing’ or ‘Edge Computing’ and discuss the research opportunities and research challenges in this area. In order to do so, firstly, this talk presents the transition in the discipline of Distributed Computing from ‘Grid Computing’ to ‘Cloud Computing’ to ‘Cloud-of-Things’ and then to a ‘Fog computing’ environment. It then highlights clearly the role of ‘Internet of Things’ and ‘Cloud Computing’ in realizing ‘Fog Computing.’ Secondly, it briefly discusses some research issues and challenges associated with realizing and developing practical Fog Computing-driven solutions. Finally, it outlines and discusses the future role of ‘Cloud-of-Things’ in achieving business efficiencies in both developed and developing economies.

Contents

The 12th International Conference on Innovative Mobile and Internet Services in Ubiquitous Computing (IMIS-2018)

An Energy Efficient Scheduling of a Smart Home Based on Optimization Techniques	3
Aqib Jamil, Nadeem Javaid, Muhammad Usman Khalid, Muhammad Nadeem Iqbal, Saad Rashid, and Naveed Anwar	
Differential-Evolution-Earthworm Hybrid Meta-heuristic Optimization Technique for Home Energy Management System in Smart Grid	15
Nadeem Javaid, Ihtisham Ullah, Syed Shahab Zarin, Mohsin Kamal, Babatunji Omoniwa, and Abdul Mateen	
Performance Analysis of Simulation System Based on Particle Swarm Optimization and Distributed Genetic Algorithm for WMNs Considering Different Distributions of Mesh Clients	32
Admir Barolli, Shinji Sakamoto, Leonard Barolli, and Makoto Takizawa	
A Hybrid Flower-Grey Wolf Optimizer Based Home Energy Management in Smart Grid	46
Pamir, Nadeem Javaid, Attiq ullah Khan, Syed Muhammad Mohsin, Yasir Khan Jadoon, and Orooj Nazeer	
A Fuzzy-Based Approach for Improving Peer Coordination Quality in MobilePeerDroid Mobile System	60
Yi Liu, Kosuke Ozera, Keita Matsuo, Makoto Ikeda, and Leonard Barolli	
A Fuzzy-Based System for Selection of IoT Devices in Opportunistic Networks Considering IoT Device Contact Duration, Storage and Remaining Energy	74
Miralda Cuka, Donald Elmazi, Keita Matsuo, Makoto Ikeda, and Leonard Barolli	

Efficient Routing in Geographic and Opportunistic Routing for Underwater WSNs	86
Ghazanfar Latif, Nadeem Javaid, Aasma Khan, Aisha Fatima, Landing Jatta, and Wahab Khan	
Supporting Online/Offline Collaborative Work with WebRTC Application Migration	96
Fatos Xhafa, David Zaragoza, and Santi Caballé	
One-to-One Routing Protocols for Wireless Ad-Hoc Networks Considering the Electric Energy Consumption	105
Emi Ogawa, Shigenari Nakamura, Tomoya Enokido, and Makoto Takizawa	
Virtual Machine Migration Algorithms to Reduce Electric Energy Consumption of a Server Cluster	116
Ryo Watanabe, Dilawaer Duolikun, Tomoya Enokido, and Makoto Takizawa	
Evaluating Motion and Heart Rate Sensors to Measure Intensity of Physical Activity	128
Miguel A. Wister, Pablo Pancardo, and Ivan Rodriguez	
Implementation of WiFi P2P Based DTN Routing and Gateway for Disaster Information Networks	139
Noriki Uchida, Haruki Kuga, Tomoyuki Ishida, and Yoshitaka Shibata	
A New Contents Delivery Network Mixing on Static/Dynamic Heterogeneous DTN Environment	147
Shoko Takabatake and Tetsuya Shigeyasu	
Predicate Clustering-Based Entity-Centered Graph Pattern Recognition for Query Extension on the LOD	159
Jongmo Kim, Junsik Kong, Daeun Park, and Mye Sohn	
Discrimination of Eye Blinks and Eye Movements as Features for Image Analysis of the Around Ocular Region for Use as an Input Interface	171
Shogo Matsuno, Masatoshi Tanaka, Keisuke Yoshida, Kota Akehi, Naoaki Itakura, Tota Mizuno, and Kazuyuki Mito	
Dynamic Group Formation for an Active Learning System Using Smartphone to Improve Learning Motivation	183
Noriyasu Yamamoto and Noriki Uchida	
Evaluation of 13.56 MHz RFID System Considering Communication Distance Between Reader and Tag	190
Kiyotaka Fujisaki	

An Efficient Routing Protocol via Depth Adjustment and Energy Gradation in Underwater Wireless Sensor Networks 201
 Ghazanfar Latif, Nadeem Javaid, Arshad Iqbal, Javed Ahmad, Ather Abdul Jabbar, and Muhammad Imran

Vulnerability Analysis on the Image-Based Authentication Through the PS/2 Interface 212
 Insu Oh, Kyungroul Lee, Sun-Young Lee, Kyunghwa Do, Hyo beom Ahn, and Kangbin Yim

A Spacecraft AIT Visualization Control System Based on VR Technology 220
 Wei Peng, Zhang Liwei, Wu Qiong, Wang Miaoxin, and Li Jian

An Efficient Home Energy Management and Power Trading in Smart Grid 231
 Sheraz Aslam, Sakeena Javaid, Nadeem Javaid, Syed Muhammad Mohsin, Saad Sulman Khan, and Mariam Akbar

Hierarchical Based Coordination Strategy to Efficiently Exchange the Power Among Micro-grids 242
 Aqib Jamil, Nadeem Javaid, Zafar Iqbal, Muhammad Abdullah, Muhammad Zaid Riaz, and Mariam Akbar

Weighted Cuckoo Search Based Load Balanced Cloud for Green Smart Grids 252
 Muhammad Hassan Rahim, Nadeem Javaid, Sahar Rahim, Muqaddas Naz, Mariam Akbar, and Farhana Javed

Foged Energy Optimization in Smart Homes 265
 Ayesha Anjum Butt, Nadeem Javaid, Sana Mujeeb, Salman Ahmed, Malik Muhammad Shahid Ali, and Waqar Ali

Short Term Load Forecasting based on Deep Learning for Smart Grid Applications 276
 Ghulam Hafeez, Nadeem Javaid, Safeer Ullah, Zafar Iqbal, Mahnoor Khan, Aziz Ur Rehman, and Ziaullah

Efficient Resource Allocation Model for Residential Buildings in Smart Grid Using Fog and Cloud Computing 289
 Aisha Fatima, Nadeem Javaid, Momina Waheed, Tooba Nazar, Shaista Shabbir, and Tanzeela Sultana

Feature Selection and Extraction Along with Electricity Price Forecasting Using Big Data Analytics 299
 Isra Shafi, Nadeem Javaid, Aqdas Naz, Yasir Amir, Israr Ishaq, and Kashif Naseem

Proposal of a Disaster Support Expert System Using Accumulated Empirical Data	310
Tatsuya Ohyanagi, Tomoyuki Ishida, Noriki Uchida, Yoshitaka Shibata, and Hiromasa Habuchi	
Proposal of a Regional Knowledge Inheritance System Using Location-Based AR and Historical Maps	320
Hayato Ito, Tatsuya Ohyanagi, Tomoyuki Ishida, and Tatsuhiko Yonekura	
QoS Management for Virtual Reality Contents	329
Ko Takayama and Kaoru Sugita	
A Webshell Detection Technology Based on HTTP Traffic Analysis	336
Wenchuan Yang, Bang Sun, and Baojiang Cui	
Enhanced Secure ZigBee Light Link Protocol Based on Network Key Update Mechanism	343
Jun Yang, Ruiqing Liu, and Baojiang Cui	
Intrusion Detection Model Based on GA Dimension Reduction and MEA-Elman Neural Network	354
Ze Zhang, Guidong Zhang, Yongjun Shen, and Yan Zhu	
Location Privacy Protection Scheme Based on Random Encryption Period in VANETs	366
Tianhan Gao and Xin Xin	
An Improvement RFID Security Authentication Protocol Based on Hash Function	375
Haowen Sun, Peng Li, He Xu, and Feng Zhu	
Classifying Malicious URLs Using Gated Recurrent Neural Networks	385
Jingling Zhao, Nan Wang, Qian Ma, and Zishuai Cheng	
A Fast PQ Hash Code Indexing	395
Jingsong Shan, Yongjun Zhang, Mingxin Jiang, Chunhua Jin, and Zhengwei Zhang	
Dynamic Incentive Mechanism for Direct Energy Trading	403
Nan Zhao, Pengfei Fan, Minghu Wu, Xiao He, Menglin Fan, and Chao Tian	
Improve Memory for Alzheimer Patient by Employing Mind Wave on Virtual Reality with Deep Learning	412
Marwan Kadhim Mohammed Al-shammari and Gao Tian Han	
Fast FFT-Based Inference in 3D Convolutional Neural Networks	420
Bo Xie, Guidong Zhang, Yongjun Shen, Shun Liu, and Yabin Ge	

Cognitive Informatics Approaches for Data Sharing and Management in Cloud Computing 432
 Marek R. Ogiela and Lidia Ogiela

Implementation of Lane Detection Algorithm for Self-driving Vehicles Using Tensor Flow 438
 Hyunhee Park

Design and Implementation of Cognitive System of Children’s Education Based on RFID 448
 Hongyu Gan, Chenghao Wu, Jie Xu, Peng Li, and He Xu

Delay Optimization for Mobile Cloud Computing Application Offloading in Smart Cities 456
 Shan Guo, Ying Wang, Sachula Meng, and Nan Ma

Joint User Association and Power Allocation for Minimizing Multi-bitrate Video Transmission Delay in Mobile-Edge Computing Networks 467
 Hong Wang, Ying Wang, Ruijin Sun, Runcong Su, and Baoling Liu

Cyber-Physical Sensors and Devices for the Provision of Next-Generation Personalized Services 479
 Borja Bordel, Teresa Iturrioz, Ramón Alcarria, and Diego Sánchez-de-Rivera

Device Stand-by Management of IoT: A Framework for Dealing with Real-World Device Fault in City Platform as a Service 491
 Toshihiko Yamakami

The 12th International Workshop on Advances in Information Security (WAIS-2018)

A Security-Aware Fuzzy-Based Cluster Head Selection System for VANETs 505
 Kosuke Ozera, Kevin Bylykbashi, Yi Liu, and Leonard Barolli

Research on Food Safety Traceability Technology Based on RFID Security Authentication and 2-Dimensional Code 517
 Jie Ding, He Xu, Peng Li, and Feng Zhu

DoS Attack Pattern Mining Based on Association Rule Approach for Web Server 527
 Hsing-Chung Chen and Shyi-Shiun Kuo

Current Status on Elliptic Curve Discrete Logarithm Problem: (Extended Abstract) 537
 Maki Inui and Tetsuya Izu

Study on Signature Verification Process for the Firmware of an Android Platform 540
Eunseon Jeong, Junyoung Park, Byeonggeun Son, Myoungsu Kim, and Kangbin Yim

Detecting and Extracting Hidden Information from Stego-Images Based on JPG File on StegoMagic 546
Kyungroul Lee, Sun-Young Lee, Kyunghwa Do, and Kangbin Yim

The 8th International Workshop on Mobile Commerce, Cloud Computing, Network and Communication Security (MCNCS-2018)

Clickbait Detection Based on Word Embedding Models 557
Vorakit Vorakitphan, Fang-Yie Leu, and Yao-Chung Fan

A Micro Services Quality Measurement Model for Improving the Efficiency and Quality of DevOps 565
Sen-Tarng Lai and Fang-Yie Leu

A Study on Firewall Services with Edge Computers of vEPC in 5G Networks 576
Fang-Yie Leu and Ping-Hung Chou

The Study of MME Pool Management and Fault Tolerance in 5G Networks with SDN Controllers 585
Fang-Yie Leu and Cheng-Yan Gu

The 8th International Workshop on Intelligent Techniques and Algorithms for Ubiquitous Computing (ITAUC-2018)

Home Energy Management Using Hybrid Meta-heuristic Optimization Technique 599
Orooj Nazeer, Nadeem Javaid, Adnan Ahmed Rafique, Sajid Kiani, Yasir Javaid, and Zeeshan Khurshid

On the Channel Congestion of the Shortest-Path Routing for Unidirectional Hypercube Networks 610
Tzu-Liang Kung, Chun-Nan Hung, and Yuan-Hsiang Teng

A Diagnosis Algorithm on the 2D-torus Network 620
Lidan Wang, Ningning Liu, Cheng-Kuan Lin, Tzu-Liang Kung, and Yuan-Hsiang Teng

Construction Schemes for Edge Fault-Tolerance of Ring Networks 626
Chun-Nan Hung, Tzu-Liang Kung, and En-Cheng Zhang

Review of RFID-Based Indoor Positioning Technology 632
Jingkai Zhu and He Xu

Designing a Cybersecurity Board Game Based on Design Thinking Approach 642
 Shian-Shyong Tseng, Tsung-Yu Yang, Yuh-Jye Wang, and Ai-Chin Lu

The 8th International Workshop on Future Internet and Next Generation Networks (FINGNet-2018)

A Localization Algorithm Based on Availability of Direct Signal from Neighbor Anchor Nodes in a Sensor Networks 653
 Megumi Yamamoto and Shigetomo Kimura

Prediction Model of Optimal Bid Price Based on Keyword Auction Data Through Machine Learning Algorithms 665
 Minjun Ji and Hyunhee Park

Complex Activity Recognition Using Polyphonic Sound Event Detection 675
 Jaewoong Kang, Jooyeong Kim, Kunyoung Kim, and Mye Sohn

Dynamic Group Key Management for Efficient Fog Computing 685
 Jiyoung Lim, Inshil Doh, and Kijoon Chae

A Network Slice Resource Allocation Process in 5G Mobile Networks 695
 Andrea Fendt, Lars Christoph Schmelz, Wieslawa Wajda, Simon Lohmüller, and Bernhard Bauer

The 7th International Workshop on Frontiers in Innovative Mobile and Internet Services (FIMIS-2018)

An Intelligent Opportunistic Scheduling of Home Appliances for Demand Side Management 707
 Zunaira Nadeem, Nadeem Javaid, Asad Waqar Malik, Abdul Basit Khan, Muhammad Kamran, and Rida Hafeez

Fog Computing Based Energy Management System Model for Smart Buildings 719
 Saman Zahoor, Nadeem Javaid, Adia Khalid, Anila Yasmeen, and Zunaira Nadeem

A Novel Indoor Navigation System Based on RFID and LBS Technology 728
 Yizhuo Wang, Xuan Xu, Xinyu Wang, and He Xu

A Social Dimension View Model of Divergence of IoT Standardization 738
 Toshihiko Yamakami

Design and Implementation of a VANET Testbed: Performance Evaluation Considering DTN Transmission over VANETs 748
Shogo Nakasaki, Yu Yoshino, Makoto Ikeda, and Leonard Barolli

A Survey of Automated Root Cause Analysis of Software Vulnerability 756
JeeSoo Jurn, Tae Eun Kim, and Hwankuk Kim

The 7th International Workshop on Sustainability Management of e-Business and Ubiquitous Commerce Engineering (SMEUCE-2018)

The Effect of Personal Moral Philosophy on Perceived Moral Intensity in Hotel Industry 765
Chia-Ju Lu, Chiung-Chi Pen, and Chiou-Shya Torng

Study on Production and Marketing of Tea: A Company 771
Kuei-Yuan Wang, Xiao-Hong Lin, Chien-Kuo Han, Chi-Cheng Lin, Yi-Chi Liao, Tzu-Yun Ting, and Ting-Shiuan Fang

The Influence of U.S. FED’s Interest Rate-Raising Event Announcements on the Abnormal Returns in the Taiwan Stock Market 783
Xiao-Hong Lin, Kuei-Yuan Wang, Chien-Kuo Han, Yu-Sin Huang, Yi-Chi Liao, Tzu-Yun Ting, and Ting-Shiuan Fang

The Relationship Between Dividend, Business Cycle, Institutional Investor and Stock Risk 793
Yung-Shun Tsai, Shyh-Weir Tzang, Chih-Hsing Hung, and Chun-Ping Chang

Commercial Real Estate Evaluation: The Real Options Approach 801
Shyh-Weir Tzang, Chih-Hsing Hung, Chun-Ping Chang, and Yung-Shun Tsai

A Dynamic Model of Optimal Share Repurchase 808
Chun-Ping Chang, Yung-Shun Tsai, Shyh-Weir Tzang, and Yong Zulina Zubairi

Direct and Indirect Effects of Job Complexity of Senior Managers on Their Compensation and Operating Performances 812
Ying-Li Lin and Yi-Jing Chen

The Impact of Online Commentary on Young Consumer’s Purchase Decision 822
Mei-Hua Huang, Wen-Shin Huang, Chiung-Yen Chen, and An-Chi Kuan

Penalty or Benefit? The Effect of Dividend Taxes on Stock Valuation 829
 Wen-hsin Huang, Suming Lin, and Mei-Hua Huang

The Determinants of Admission Strategy and School Choice: A Case Study of a Private Senior Vocational School in Taiwan 839
 Ling-Yi Chou and Yi-Yang Li

Professional Training and Operational Performance: Considering the Impact of CPA Disciplinary Incidents 849
 Chiung-Yen Chen, Mei-Hua Huang, and Zhen-Xin Xu

Constructing a System for Effective Implementation of Strategic Corporate Social Responsibility 862
 Chiung-Yao Huang and Chung-Jen Fu

Study of the Factors that Influence Brand Loyalty Toward the Use of Tablets in Indonesia 867
 Chien-Wen Lai, Candra Adi Kurnia, Shao-Chun Chiu, and Ya-Lan Chan

Five Elements and Stock Market 879
 Mei-Hua Liao, Shih-Han Hong, and Norihisa Yoshimura

Asset Structure of Long-Lived Company 884
 Mei-Hua Liao, Yi-Jun Guo, and Hidekazu Sone

An Inventory Policy for Perishable Products with Permissible Delay in Payment 888
