

This series aims to report new developments in mathematical research and teaching – quickly, informally and at a high level. The type of material considered for publication includes:

1. Preliminary drafts of original papers and monographs
2. Lectures on a new field, or presenting a new angle on a classical field
3. Seminar work-outs
4. Reports of meetings

Texts which are out of print but still in demand may also be considered if they fall within these categories.

The timeliness of a manuscript is more important than its form, which may be unfinished or tentative. Thus, in some instances, proofs may be merely outlined and results presented which have been or will later be published elsewhere.

Publication of *Lecture Notes* is intended as a service to the international mathematical community, in that a commercial publisher, Springer-Verlag, can offer a wider distribution to documents which would otherwise have a restricted readership. Once published and copyrighted, they can be documented in the scientific literature.

Manuscripts

Manuscripts are reproduced by a photographic process; they must therefore be typed with extreme care. Symbols not on the typewriter should be inserted by hand in indelible black ink. Corrections to the typescript should be made by sticking the amended text over the old one, or by obliterating errors with white correcting fluid. Should the text, or any part of it, have to be retyped, the author will be reimbursed upon publication of the volume. Authors receive 75 free copies.

The typescript is reduced slightly in size during reproduction; best results will not be obtained unless the text on any one page is kept within the overall limit of 18 x 26.5 cm (7 x 10 ½ inches). The publishers will be pleased to supply on request special stationery with the typing area outlined.

Manuscripts in English, German or French should be sent to Prof. Dr. A. Dold, Mathematisches Institut der Universität Heidelberg, Tiergartenstraße or Prof. Dr. B. Eckmann, Eidgenössische Technische Hochschule, Zürich.

Die „*Lecture Notes*“ sollen rasch und informell, aber auf hohem Niveau, über neue Entwicklungen der mathematischen Forschung und Lehre berichten. Zur Veröffentlichung kommen:

1. Vorläufige Fassungen von Originalarbeiten und Monographien.
2. Spezielle Vorlesungen über ein neues Gebiet oder ein klassisches Gebiet in neuer Betrachtungsweise.
3. Seminaerausarbeitungen.
4. Vorträge von Tagungen.

Ferner kommen auch ältere vergriffene spezielle Vorlesungen, Seminare und Berichte in Frage, wenn nach ihnen eine anhaltende Nachfrage besteht.

Die Beiträge dürfen im Interesse einer größeren Aktualität durchaus den Charakter des Unfertigen und Vorläufigen haben. Sie brauchen Beweise unter Umständen nur zu skizzieren und dürfen auch Ergebnisse enthalten, die in ähnlicher Form schon erschienen sind oder später erscheinen sollen.

Die Herausgabe der „*Lecture Notes*“ Serie durch den Springer-Verlag stellt eine Dienstleistung an die mathematischen Institute dar, indem der Springer-Verlag für ausreichende Lagerhaltung sorgt und einen großen internationalen Kreis von Interessenten erfassen kann. Durch Anzeigen in Fachzeitschriften, Aufnahme in Kataloge und durch Anmeldung zum Copyright sowie durch die Versendung von Besprechungsexemplaren wird eine lückenlose Dokumentation in den wissenschaftlichen Bibliotheken ermöglicht.

Lecture Notes in Mathematics

A collection of informal reports and seminars

Edited by A. Dold, Heidelberg and B. Eckmann, Zürich

109

Conference on the Numerical Solution of Differential Equations

Held in Dundee/Scotland, June 23-27, 1969

Edited by

J. Li. Morris, University of Dundee, Dundee/Scotland

Springer-Verlag

M.N. Spijker: Round-off Error in the Numerical Solution of Second
Order Differential Equations 249

H.J. Stetter: Stability Properties of the Extrapolation Method .. 255

J.H. Verner: Implicit Methods for Implicit Differential Equations 261

W. Werner: Solution of Elliptic Eigenvalue Problems by Calculating
a "Separable" Solution of a Dynamic Problem 267

List of Contributors

Invited Papers

- Albrecht, J., Technische Universität, 1000 Berlin / Germany
D'Jakonov, E.G., University of Moscow, Moscow / USSR
Noble, B., University of Wisconsin, Madison, WI / USA
Urabe, M., University of Kyoto, Kyoto / Japan
Vitasek, E., Ceskoslovenska Akademie Ved, Matematicky Ustav,
Prague 1 / Czechoslovakia
Widlund, O., Courant Institute of Mathematical Sciences, University
of New York, New York / USA

Submitted Papers

- Butcher, J.C., Dept. of Mathematics, University of Auckland,
Auckland / New Zealand
Cooper, G.J., Dept. of Computer Science, University of Edinburgh,
Edinburgh / Scotland
Dahl, O., Dept. of Mathematics, University of Oslo, Blindern,
Oslo 3 / Norway
Finck v. Finckenstein, K. Graf, Institut für Plasmaphysik GmbH,
8046 Garching 6 / Germany
Gorenflo, R., Institut für Plasmaphysik GmbH, 8046 Garching 6 / Germany
Gourlay, A.R., Dept. of Mathematics, University of Dundee, Dundee / Scotland
Hodgkins, W.R., The English Electric Co.Ltd., Nelson Research
Laboratories, Beaconhill, Stafford
Lal, M. and Gillard, P., Dept. of Mathematics, Memorial University of
Newfoundland, St. John's, Newfoundland / Canada
Liniger, W., IBM Watson Research Center, Yorktown Heights, N.Y. / USA
Lyche, T., Dept. of Mathematics, University of Oslo, Blindern,
Oslo 3 / Norway
McKee, S., Dept. of Mathematics, University of Dundee, Dundee / Scotland
Mead, K.O. and Delves, L.M., School of Mathematical and Physical Sciences,
University of Sussex, Brighton, Sussex / England
Norsett, S.P., Dept. of Mathematics, University of Oslo, Blindern,
Oslo 3 / Norway
Piotrowski, P., Institut für Plasmaphysik GmbH, 8046 Garching 6 / Germany
Prothero, A., Shell Research Ltd., Thornton Research Centre, Chester / England
Rubin, E., Dept. of Aerospace Engineering and Applied Mechanics, Poly-
technic Institute of Brooklyn, Farmingdale, N.Y. / USA
