The Conference on Brauer Groups was originally titled Conference on Brauer and Picard Groups. The present title is more nearly representative of the contents of the conference and these proceedings.

The conference was sponsored by Northwestern University and was held there (Evanston, Illinois) from October 11 to 15, 1975.

The list of participants which follows gives the university of each participants at the time of the conference (Department of Mathematics in each case). Professor Chase had to cancel his attendance but kindly submitted his manuscript for these Proceedings.

Besides the papers published here, the following were read:

|---------------|---|
| R. T. Hoobler | How to construct U. F. D.'s |
| M. Ojanguren | Generic splitting rings |
| S. Rosset | Some solvable group rings are domains |
