Global Security, Safety, and Sustainability

6th International Conference, ICGS3 2010
Braga, Portugal, September 1-3, 2010
Proceedings
Preface

The annual International Conference on Global Security, Safety and Sustainability (ICGS3) is an established platform in which security, safety and sustainability issues can be examined from several global perspectives through dialogue between academics, students, government representatives, chief executives, security professionals, and research scientists from the United Kingdom and from around the globe.

The three-day conference focused on the challenges of complexity, rapid pace of change and risk/opportunity issues associated with modern products, systems, special events and infrastructures. The importance of adopting systematic and systemic approaches to the assurance of these systems was emphasized within a special stream focused on strategic frameworks, architectures and human factors. The conference provided an opportunity for systems scientists, assurance researchers, owners, operators and maintainers of large, complex and advanced systems and infrastructures to update their knowledge on the state of best practice in these challenging domains while networking with the leading researchers and solution providers.

ICGS3 2010 received paper submissions from more than 17 different countries in all continents. Only 31 papers were selected and were presented as full papers. The program also included a number of keynote lectures by leading researchers, security professionals and government representatives.

June 2010

Hamid Jahankhani
Organization

Organizers

Universidade Católica Portuguesa, Faculdade de Ciências Sociais, Portugal
University of East London, School of Computing, IT and Engineering, UK
IEEE SMC, Technical Committee for Systems Safety & Security

General Chair

Hamid Jahankhani  
University of East London, UK

IEEE SMC Chair

Ali Hessami  
Vega Systems, UK

Program Committee Chair

Sérgio Tenreiro de Magalhães  
Universidade Católica Portuguesa, Portugal
Henrique M.D. Santos  
University of Minho, Portugal

Local Chair

Sérgio Tenreiro de Magalhães  
Universidade Católica Portuguesa, Portugal

Program Committee

Major G.S. Aki Huhtinen  
National Defence College, Finland
Ali Hessami  
Vega Systems, UK
Ali Sanayei  
Director of ITM Research group, University of Isfahan, Iran
Ameer Al-Nemrat  
University of East London, UK
Carlos Sousa Pinto  
University of Minho, Portugal
David Lilburn Watson  
Forensic Computing Ltd., UK
Duarte Duque  
EXVA Ltd., Portugal
Elias Pimenidis  
University of East London, UK
Feng Hsu  
Aerospace Technology Working Group, USA
Col Fernando Freire  
Military Academy, Portugal
Florin Gorunescu  
University of Medicine and Pharmacy of Craiova, Romania
Filipe de Sá-Soares  
University of Minho, Portugal
George Weir  
Gianluigi Me  
Henrique M.D. Santos  
Hossein Jahankhani  
Hugo Gamboa  
Kenneth Revett  
Konstantinos Kardaras  
Leonel Duarte dos Santos  
Marios Efthymiopoulos  
Orhan Gemikonakl  
Mohammad Dastbaz  
Paulo Viegas Nunes  
Rain Ottis  
Reza Sahandi  
Sérgio Tenreiro de Magalhães  
Sufian Yousef  
Vasilios Zorkadis  

University of Strathclyde, UK  
University of Rome Tor Vergata, Italy  
University of Minho, Portugal  
University of East London, UK  
New University of Lisbon, Portugal  
University of Westminster, UK  
Technical Consultant, Greece  
University of Minho, Portugal  
University of Cyprus, Cyprus  
Middlesex University, UK  
University of East London, UK  
Military Academy, Portugal  
Cooperative Cyber Defence Centre of Excellence, Estonia  
Bournemouth University, UK  
Catholic University of Portugal, Portugal  
Anglia Ruskin University, UK  
Directorate of the Hellenic Data Protection Authority, Greece
Table of Contents

Management of the Benefits on the Client’s Involvement on Ergonomic Analysis ......................................................... 1
   Isabel F. Loureiro, Celina P. Leão, and Pedro Arezes

A Security Audit Framework to Manage Information System Security ................................................................. 9
   Teresa Pereira and Henrique Santos

The Cloud’s Core Virtual Infrastructure Security ................................. 19
   Annette Tolnai and Sebastiaan von Solms

Collaboration and Command Tools for Crises Management ............ 28
   Tapio Saarelainen and Jorma Jormakka

Trust and Reputation Management for Critical Infrastructure Protection ................................................................. 39
   Filipe Caldeira, Edmundo Monteiro, and Paulo Simões

An Approach to Textual Steganography ........................................ 48
   Michael Morran and George R.S. Weir

Cybercrime Victimisations/Criminalisation and Punishment .......... 55
   Ameer Al-Nemrat, Hamid Jahankhani, and David S. Preston

Baby-Crying Acceptance .......................................................... 63
   Tiago Martins and Sérgio Tenreiro de Magalhães

Design of Discrete Variable Structure Controller Based on Variable Boundary Layer ..................................................... 71
   Shibin Su, Heng Wang, Hua Zhang, and Wei Xiong

Cognitive Biometrics: Challenges for the Future .......................... 79
   Kenneth Revett and Sergio Tenreiro de Magalhães

Multimodal Biometrics and Multilayered IDM for Secure Authentication ................................................................. 87
   Abdullah Rashed and Henrique Santos

Secure Biometric Multi-Logon System Based on Current Authentication Technologies .................................................... 96
   Bobby L. Tait

Analysis of Fingerprint Image to Verify a Person .......................... 104
   Hossein Jahankhani and Maktuba Mohid
Methods of Organizational Information Security
(A Literature Review) ................................................. 120
José Martins and Henrique dos Santos

OTM Machine Acceptance: In the Arab Culture ................. 131
Abdullah Rashed and Henrique Santos

A Study on the Interrelations between the Security-Related Antecedents of Customers’ Online Trust ........................................... 139
Hamid Reza Peikari

Does Nationality Matter in the B2C Environment? Results from a Two Nation Study .................................................... 149
Hamid Reza Peikari

Deployment of ERP Systems at Automotive Industries, Security Inspection (Case Study: IRAN KHODRO Automotive Company) ...... 160
Hatamirad Ali and Mehrjerdi Hasan

Governance and Risk Management of Network and Information Security: The Role of Public Private Partnerships in Managing the Existing and Emerging Risks .................................................. 170
Jyoti Navare and Orhan Gemikonakli

The Effect of Non-technical Factors in B2C E-Commerce
(A Case Study in Iran) .................................................. 178
Ali Sanayei and Reza Shafe’ei

Self-monitoring Composite Rods for Sustainable Construction ........ 193
Cristiana Gonilho-Pereira, Emilija Zdraveva, Raul Fangueiro,
S. Lanceros-Mendez, Said Jalali, and Mário de Araújo

Systems Assurance, Complexity and Emergence: The Need for a Systems Based Approach ........................................... 202
Ali Hessami and Nicos Karcanias

A Review on Sustainability Models........................................ 216
Amin Hosseinian Far, Elias Pimenidis, Hamid Jahankhani, and
D.C. Wijeyesekera

The Influence of Security Statement, Technical Protection, and Privacy on Satisfaction and Loyalty; A Structural Equation Modeling ........ 223
Hamid Reza Peikari

“Fiscal Illusion Causes Fiscal Delusion – Please Be Careful!” .......... 232
Paulo Mourao

A Coloured Petri Net Analysis of the Transaction Internet Protocol ... 238
Christos K. Georgiadis, Ioannis Kokkinidis, and Elias Pimenidis
Identification of the Required Security Practices during e-Government Maturity .......................................................... 250
   Ali Shayan, Behnam Abdi, and Malihe Qeisari

Dynamic Device Configuration in Ubiquitous Environments .......... 263
   Abdullahi Arabo, Qi Shi, and Madjid Merabti

Mitigation of Control Channel Jamming via Combinatorial Key Distribution ................................................................. 274
   Abolfazl Falahati and Mahdi Azarafrooz

A Proxy Signature Scheme Based on Coding Theory ...................... 282
   Hoda Jannati and Abolfazl Falahati

Partially Key Distribution with Public Key Cryptosystem Based on Error Control Codes ................................................ 291
   Saeed Ebadi Tavallaei and Abolfazl Falahati

Author Index ................................................................. 301
