Security Technology, Disaster Recovery and Business Continuity

International Conferences, SecTech and DRBC 2010
Held as Part of the Future Generation
Information Technology Conference, FGIT 2010
Jeju Island, Korea, December 13-15, 2010
Proceedings
Preface

Welcome to the proceedings of the 2010 International Conferences on Security Technology (SecTech 2010), and Disaster Recovery and Business Continuity (DRBC 2010) – two of the partnering events of the Second International Mega-Conference on Future Generation Information Technology (FGIT 2010).

SecTech and DRBC bring together researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of security and disaster recovery methodologies, including their links to computational sciences, mathematics and information technology.

In total, 1,630 papers were submitted to FGIT 2010 from 30 countries, which includes 250 papers submitted to SecTech/DRBC 2010. The submitted papers went through a rigorous reviewing process: 395 of the 1,630 papers were accepted for FGIT 2010, while 57 papers were accepted for SecTech/DRBC 2010. Of the 250 papers 10 were selected for the special FGIT 2010 volume published by Springer in the LNCS series. 34 papers are published in this volume, and 13 papers were withdrawn due to technical reasons.

We would like to acknowledge the great effort of the SecTech/DRBC 2010 International Advisory Boards and members of the International Program Committees, as well as all the organizations and individuals who supported the idea of publishing this volume of proceedings, including SERSC and Springer. Also, the success of these two conferences would not have been possible without the huge support from our sponsors and the work of the Chairs and Organizing Committee.

We are grateful to the following keynote speakers who kindly accepted our invitation: Hojjat Adeli (Ohio State University), Ruay-Shiung Chang (National Dong Hwa University), and Andrzej Skowron (University of Warsaw). We would also like to thank all plenary and tutorial speakers for their valuable contributions.

We would like to express our greatest gratitude to the authors and reviewers of all paper submissions, as well as to all attendees, for their input and participation.

Last but not least, we give special thanks to Rosslin John Robles and Maricel Baltanas. These graduate school students of Hannam University contributed to the editing process of this volume with great passion.

December 2010

Tai-hoon Kim
Wai-chi Fang

SecTech 2010 Organization

Organizing Committee

General Chair       Wai-chi Fang (National Chiao Tung University, Taiwan)

Program Co-chairs  Muhammad Khurram Khan (King Saud University, Saudi Arabia)
                    Tai-hoon Kim (Hannam University, Korea)
                    Kirk P. Arnett (Mississippi State University, USA)

Publicity Co-chairs Antonio Coronato (ICAR-CNR, Italy)
                    Damien Sauveron (Université de Limoges, France)
                    Hua Liu (Xerox Corporation, USA)
                    Kevin R.B. Butler (Pennsylvania State University, USA)
                    Guojun Wang (Central South University, China)
                    Tao Jiang (Huazhong University of Science and Technology, China)
                    Gang Wu (UESTC, China)
                    Yoshiaki Hori (Kyushu University, Japan)

Publication Chair   Yong-ik Yoon (Sookmyung Women's University, Korea)

International Advisory Board
                    Edwin H-M. Sha (University of Texas at Dallas, USA)
                    Justin Zhan (CMU, USA)
                    Kouichi Sakurai (Kyushu University, Japan)
                    Laurence T. Yang (St. Francis Xavier University, Canada)
                    Byeong-Ho Kang (University of Tasmania, Australia)
                    Aboul Ella Hassanien (Cairo University, Egypt)

Erol Gelenbe    Sokratis Katsikas    Emiliano Casalicchio
Rüdiger Klein   Teodora Ivanusa    Stefan Brem
Simin Nadjm-Tehrani  Sandro Bologna  Stefan Wrobel
# Table of Contents

Impact of Finger Type in Fingerprint Authentication .......................... 1  
_Davrondzhon Gafurov, Patrick Bours, Bian Yang, and Christoph Busch_

Using Arabic CAPTCHA for Cyber Security ............................... 8  
_Bilal Khan, Khaled S. Alghathbar, Muhammad Khurram Khan,  
Abdullah M. AlKelabi, and Abdulaziz AlAjaji_

Information Assurance in Saudi Organizations – An Empirical Study . . 18  
_Syed Irfan Nabi, Abdurrahman A. Mirza, and Khaled Alghathbar_

Emerging Biometric Modalities: Challenges and Opportunities .......... 29  
_Davrondzhon Gafurov_

On Distinguished Points Method to Implement a Parallel Collision  
Search Attack on ECDLP ................................................. 39  
_Ju-Sung Kang and Ok-Yeon Yi_

Data Confidentiality and Integrity Issues and Role of Information  
Study of Telecommunication Industry in Pakistan .......................... 47  
_Syed Irfan Nabi, Syed Waqar Nabi, Syed Awais Ahmed Tipu,  
Bushra Haqqi, Zahra Abid, and Khaled Alghathbar_

Evaluation of Performance of Secure OS Using Performance Evaluation  
Mechanism of LSM-Based LSMPMON ..................................... 57  
_Kenji Yamamoto and Toshihiro Yamauchi_

Sample Bytes to Protect Important Data from Unintentional Transmission in Advanced Embedded Device ......................... 68  
_Bo-heung Chung and Jung-nye Kim_

Secure OSGi Platform against Service Injection .......................... 74  
_Intae Kim, Keewook Rim, and Junghyun Lee_

A Mechanism That Bounds Execution Performance for Process Group  
for Mitigating CPU Abuse ................................................ 84  
_Toshihiro Yamauchi, Takayuki Hara, and Hideo Taniguchi_

Probabilistic Route Selection Algorithm for IP Traceback ............. 94  
_Hong-bin Yim and Jae-il Jung_
An Efficient Audio Watermarking Algorithm in Frequency Domain for Copyright Protection ................................................................. 104
  Pranab Kumar Dhar, Mohammad Ibrahim Khan,
  Cheol-Hong Kim, and Jong-Myon Kim

Robust Audio Watermarking Scheme Based on Deterministic Plus
Stochastic Model ......................................................... 114
  Pranab Kumar Dhar, Cheol Hong Kim, and Jong-Myon Kim

Histogram-Based Reversible Data Hiding with Quadtree Concepts ...... 126
  Hsiang-Cheh Huang, Ting-Hsuan Wang, and Wai-Chi Fang

MAS: Malware Analysis System Based on Hardware-Assisted
Virtualization Technology .................................................. 134
  Taehyoung Kim, Inhyuk Kim, Changwoo Min, and Young Ik Eom

Performance Analysis of Cyber Security Awareness Delivery Methods... 142
  Jemal Abawajy and Tai-hoon Kim

Proxy Re-encryption with Keyword Search: New Definitions and
Algorithms ................................................................. 149
  Wei-Chuen Yau, Raphael C.-W. Phan, Swee-Huay Heng, and
  Bok-Min Goi

One-Time Password System with Infinite Nested Hash Chains ........... 161
  Mohamed Hamdy Eldefrawy, Muhammad Khurram Khan, and
  Khaled Alghathbar

Optimal Intelligent Supervisory Control System in Cyber-Physical
Intelligence ................................................................. 171
  Hoon Ko and Zita Vale

Improved Hip-Based Individual Recognition Using Wearable Motion
Recording Sensor ........................................................... 179
  Davrondzhon Gafurov and Patrick Bours

Fusion of Moving and Static Facial Features for Robust Face
Recognition .............................................................. 187
  Dakshina Ranjan Kisku, Phalguni Gupta, and Jamuna Kanta Sing

Human Authentication Based on ECG Waves Using Radon
Transform ................................................................. 197
  Chetana Hegde, H. Rahul Prabhu, D.S. Sagar, P. Deepa Shenoy,
  K.R. Venugopal, and L.M. Patnaik

Wireless Network Security Vulnerabilities and Concerns ................. 207
  Ahmad Mushtaq

Figment Authentication Scheme in Wireless Sensor Network ............ 220
  N. Ambika and G.T. Raju
