# Preface

Previous observations, generated by many in the field, have provided a first glimpse into the epigenetic mechanisms that underpin lymphocyte and myeloid development. We are only now beginning to merge the multitude of observations into a common framework. At the same time it has become more difficult for the individual mind to comprehend more than a tiny focused fraction of it. The studies described in this volume serve as a starting point to familiarize one self with the multifarious differences in epigenetic designs that orchestrate the progression of developing blood cells. They also may serve as a general paradigm for the mechanisms that underpin the control of eukaryotic gene expression.

My thanks are due to the authors of this volume and Anne Clauss, Assistant Editor.

# Contents

<b>Roles of Lineage-Determining Transcription Factors in Establishing Open Chromatin: Lessons From High-Throughput Studies . . . . .</b>	<b>1</b>
Sven Heinz and Christopher K. Glass	
<b>B Lymphocyte Lineage Specification, Commitment and Epigenetic Control of Transcription by Early B Cell Factor 1 . . . . .</b>	<b>17</b>
James Hagman, Julita Ramírez and Kara Lukin	
<b>Epigenetic Features that Regulate IgH Locus Recombination and Expression . . . . .</b>	<b>39</b>
Ramesh Subrahmanyam and Ranjan Sen	
<b>Local and Global Epigenetic Regulation of V(D)J Recombination . . . . .</b>	<b>65</b>
Louise S. Matheson and Anne E. Corcoran	
<b>Genetic and Epigenetic Regulation of <i>Tcrb</i> Gene Assembly . . . . .</b>	<b>91</b>
Michael L. Sikes and Eugene M. Oltz	
<b>T-Cell Identity and Epigenetic Memory . . . . .</b>	<b>117</b>
Ellen V. Rothenberg and Jingli A. Zhang	
<b>Encoding Stability Versus Flexibility: Lessons Learned From Examining Epigenetics in T Helper Cell Differentiation . . . . .</b>	<b>145</b>
Kenneth J. Oestreich and Amy S. Weinmann	

**The Epigenetic Landscape of Lineage Choice: Lessons From  
the Heritability of *Cd4* and *Cd8* Expression . . . . . 165**  
Manolis Gialitakis, MacLean Sellars and Dan R. Littman

**Index . . . . . 189**
