Preface

The 5th International Conference on Knowledge Science, Engineering and Management (KSEM 2011) was held in Irvine, CA, USA, during December 12–14, 2011, and hosted by the University of California at Irvine.

The aim of this interdisciplinary conference is to present a forum for researchers in the broad areas of knowledge science, knowledge engineering and knowledge management to share views, ideas and original work with other researchers, practitioners and developers so as to provide new insights into these three areas. The conference attracts numerous high-quality, state-of-the-art research papers from all over the world.

The Program Committee (PC) accepted 34 papers for regular presentation and 7 papers for short presentation. All submitted papers were reviewed by at least two PC members. In addition to paper presentations, the conference also featured workshops and invited talks. The success of KSEM 2011 was assured by the team efforts of a large number people. We would like to acknowledge the contribution of the individual PC members. Thanks to the General Chair, Kwei-Jay Lin, for his great efforts. Special thanks to Ruqian Lu, Chengqi Zhang, and Zhi Jin for their valuable advice and suggestions. Our sincere gratitude goes to the participants and all authors of the submitted papers.

We wish to express our gratitude to the Springer team directed by Alfred Hofmann for their help and coordination. Thanks to Springer for their special contribution – The Student Best Paper Award at KSEM 2011.

W.B. Lee
Organization

KSEM 2011 was hosted and organized by the Department of Electrical Engineering and Computer Science, University of California-Irvine, USA. The conference was held in Irvine, California, USA, December 12–14, 2011.

Organizing Committee

General Chair
Kwei-Jay Lin University of California, Irvine, USA

Program Co-chairs
Hui Xiong Rutgers University, USA
W.B. Lee The Hong Kong Polytechnic University, Hong Kong, China

Publicity Co-chairs
Junjie Wu Beihang University, China
Chiara Renso KDD Lab., ISTI-CNR Pisa, Italy
Vandana Janeja University of Maryland, Baltimore County, USA

Publication Chair
Qi Liu University of Science and Technology of China, China

Tutorials Co-chairs
Dacheng Tao University of Technology Sydney, Australia
Ramendra Sahoo Citigroup Inc., USA

Local Arrangements Chair
Weiran Nie University of California, Irvine, USA

Web Chair
Sen Zhou University of California, Irvine, USA

## Table of Contents

### Regular Papers

**A Wavelet-Based Method for Detecting Seismic Anomalies in DEMETER Satellite Data** ........................................ 1  
*Pan Xiong, Xingfa Gu, Xuhui Shen, Xuemin Zhang, Chunli Kang, and Yaxin Bi*

**Interest Logic and Its Application on the Web** ................. 12  
*Yi Zeng, Zhisheng Huang, Fenrong Liu, Xu Ren, and Ning Zhong*

**Ensemble Learning for Customers Targeting** .................... 24  
*Yu Wang and Hongshan Xiao*

**An Approach to Generating Proposals for Handling Inconsistent Software Requirements** ........................................ 32  
*Kedian Mu, Weiru Liu, and Zhi Jin*

**Enforcing Logically Weaker Knowledge in Classical Logic** ........ 44  
*Philippe Besnard, Éric Grégoire, and Sébastien Ramon*

**Gaussian Process for Recommender Systems** .................... 56  
*Qi Liu, Enhong Chen, Biao Xiang, Chris H.Q. Ding, and Liang He*

**A Hybrid Approach for Measuring Semantic Similarity between Ontologies Based on WordNet** ................................. 68  
*Wei He, Xiaoping Yang, and Dupei Huang*

**A Recipe Recommendation System Based on Automatic Nutrition Information Extraction** ........................................ 79  
*Tsuguya Ueta, Masashi Iwakami, and Takayuki Ito*

**Analyzing Tag Distributions in Folksonomies for Resource Classification** ......................................................... 91  
*Arkaitz Zubiaga, Raquel Martínez, and Víctor Fresno*

**Time Series Similarity Measure Based on the Function of Degree of Disagreement** .............................................. 103  
*Chonghui Guo and Yanchang Zhang*

**A Resource Recommendation Method Based on User Taste Diffusion Model in Folksonomies** ................................. 112  
*Jiangning Wu, Yunfei Shi, and Chonghui Guo*
