Disease, Metabolism and Reproduction in the Toxic Response to Drugs and Other Chemicals

Proceedings of the European Society of Toxicology Meeting Held in Rome, March 28 – 30, 1983

Edited by P. L. Chambers, P. Preziosi and C. M. Chambers

With 117 Figures

Springer-Verlag
Berlin Heidelberg New York Tokyo 1984
Contents

Plenary Lecture:
Drug-Induced Cardioneerosis
T. GODFRAIND .............................................................. 1

Young Scientists Award Lecture 1983:
Investigations into the Mechanism of Coumarin-Induced Hepatotoxicity in the Rat
B. G. LAKE. With 5 Figures ............................................. 16

Alteration of Drug Toxicity in Disease States

Influence of Disease on Drug Toxicity
P. TURNER ........................................................................ 33

Drug Toxicity and Hormonal Dysfunction
M. EICHELBAUM ............................................................ 39

Alterations of Drug Toxicity in Neuropsychiatric Disease States
E. PERUCCA and A. RICCHES ............................................. 48

Alterations of Drug Toxicity in Cardiovascular Disease
F. LEDDA ........................................................................ 58

The Diseased Lung and Drugs
PH. CAMUS and L. JEANNIN .............................................. 66

Lead in Cerebrospinal Fluid in Cerebrovascular Disease: Its Possible Diagnostic, Prognostic and Toxic Significance
K. G. KJELLIN .................................................................. 88

A Comparative Study of Acute Toxicity of Drugs Used During Anticancer Therapy in Healthy and Tumor-Bearing Mice
P. SCORZA BARCELLONA, A. CAMPANA, V. ROSSI, C. CORRADINO and B. SILVESTRINI .... 90

Antitumour Drug Toxicity in Pituitary or Adrenal-Ablated Rats
M. VACCA, P. L. NAVARRA and P. PREZIOSI. With 2 Figures ............................................. 94
Tolerance to Pituitary-Adrenal Axis Activation by Anticancer Drugs in Normal and Tumour-Bearing Rats
M. Vacca and P. Preziosi. With 2 Figures ........................................ 98

Toxins in Hepatic Encephalopathy: The Role of the Synergistic Effect of Ammonia, Mercaptans and Short Chain Fatty Acids
M. Baraldi, G. Pinelli, P. Ricci and M. L. Zeneroli .......................... 103

**Toxic Effects on the Male Reproductive System**

Effects of Drugs and Chemicals on Spermatogenesis
F. Neumann. With 4 Figures ..................................................... 109

Assessment of Chemicals Affecting the Male Reproductive System
R. L. Dixon. With 2 Figures .................................................... 118

Toxic and Mutagenic Influences on Spermatogenesis
M. Parvinen, J. Lähdetie and L.-M. Parvinen. With 6 Figures .......... 128

Gonadal Damage in Hodgkin's Disease from Cancer Chemotherapeutic Regimens
G. Bonadonna, A. Santoro, S. Viviani, C. Lombardi and G. Ragni ............. 140

Approaches to the Suppression of Testicular Function for Male Fertility Control
E. Nieschlag and Th. Schürmeyer ............................................. 146

Morphological Changes Produced in Rat Testis by Anticancer Drugs
C. Hodel, R. A. Ettlin and A. Zschauber .................................. 147

Aspects of Testicular Toxicity Induced by Anticancer Drugs
R. A. Ettlin, R. Bechter, I. P. Lee and C. Hodel. With 1 Figure .......... 151

Changes in Germinal Tissue and Leydig Cells Correlated with Ethanol Consumption in Males with and without Liver Disease
P. J. Karhuinen, A. Penttilä, K. Liesto, A. Männikkö, M. Välimäki, M. Möttönen and R. Ylikahri. With 2 Figures .................................. 155

Testicular Effects of Some Xanthine Derivatives in the Rat
M. Dahlbäck and Å. Ryrfeldt. With 2 Figures .................................. 159

Effects of Daily High Doses of Paracetamol Given Orally During Spermatogenesis in Rat Testes

The Effects on the Rat Testis of Single Inhalation Exposures to Ethylene Glycol Monoalkyl Ethers, in Particular Ethylene Glycol Monomethyl Ether
D. M. Samuels, J. E. Doe and D. J. Tinston. With 2 Figures ................. 167

Effects of an Indenopyridine Derivative, Compound 20-438, on Spermatogonial Stem Cells of the Rat
K. E. Suter. With 1 Figure ....................................................... 171
Contents

Monitoring Chemically Induced DNA Damage in the Germ Cells of Male Mice
R. R. RACINE and B. P. SCHMID .................................................. 174

Accumulation of Toxic Metals in Male Reproduction Organs
B. R. G. DANIELSSON, L. DENCKER, A. LINDGREN and H. TJÄLVE. With 3 Figures .... 177

Metabolism and Toxicity

Active Metabolites in Toxicology: The Role of Cytochrome P-448 and Flavoprotein
Oxidases
D. V. PARKE and C. IOANNIDES ............................................. 183

The Role of Pharmacokinetics in the Design and Interpretation of Toxicological
Studies
J. W. DANIEL ................................................................. 193

Structural Characteristics of Compounds That can be Activated to Chemically Reactive
Metabolites: Use for a Prediction of a Carcinogenic Potential
W. K. LUTZ. With 6 Figures .............................................. 194

Covalent Binding to Proteins as a Mechanism of Chemical Toxicity
C. PANTAROTTO and C. BLONDA. With 5 Figures .................. 208

Species Differences in Oxidative Drug Metabolism: Some Basic Considerations
S. G. AL-DABBAGH and R. L. SMITH. With 1 Figure ............... 219

Human Pharmacokinetics and Safety of Boric Acid
J. S. SCHOU, J. A. JANSEN and B. AGGERBECK. With 1 Figure .... 232

The Influence of Paracetamol on the Hepatic Biosynthesis of Lecithin
J. LOHMANN, U. LESSING, H. SCHRIEWER, M. CLEMENS and U. GERLACH.
With 3 Figures ............................................................ 236

Decreased Blood Levels of Ethanol and Acetaldehyde by S-Adenosyl-L-Methionine in
Humans
C. DI PADova, R. TRITAPEPE, P. ROVAGNATI, M. POZZOLI and G. STRAMENTINOLI.
With 2 Figures ............................................................. 240

Metabolic Activation of 2-Aminofluorene in the Salmonella Mutagenicity Assay by Different
S-9 Preparations
G. CANTELLI FORTI, M. E. FRACASSO, P. HRELIA, R. LEONE, M. S. VENTURINI and
M. C. GUERRA. With 3 Figures ......................................... 243

Reduction of Covalent Binding of Aflatoxin B1 to Rabbit Liver DNA After Immunization
Against this Carcinogen
M. CAVIEZEL, A. P. AESCHBACH, W. K. LUTZ and C. SCHLATTER ............ 249

Inactivation of 2-Amino-3-methyl-imidazo (4,5-f) quinoline by Horse Radish and Intestinal
Peroxidase
P. DOLARA, G. CADERNI and M. LODOVICI. With 2 Figures ............... 253
The Influence of Two Histamine H₂-Receptor Antagonists, Cimetidine and Ranitidine, on the Plasma Levels and Clinical Effect of Nifedipine and Metoprolol
W. Kirch, K. Ramsch, H. D. Janisch and E. E. Ohnhaus. With 2 Figures ......... 256

Autoradiography of 2,4',5-Trichlorobiphenyl Mercapturic Acid Indicates the Formation of Methyl Sulphone Metabolites with Selective Affinity for the Bronchial Mucosa
I. Brandt, J. Bakke, Å. Bergman and P. O. Darnérud ......................... 260

Methadone Affects the Histochemical Pattern of Xenobiotic-Metabolizing Enzymes in the Liver of Pregnant Rats
P. Chieco, P. Hrelija, S. Candeletti, S. Ferri and G. Cantelli Forti.
With 1 Figure .............................................................................. 261

The Effects of Acetylcysteine on Liver Glutathione Depletion and Hepatic Necrosis Induced by Acetaminophen in Mice
M. Losa, L. Bonanomi and A. Longo ........................................ 266

Increased Microsomal Metabolism of n-Hexane in Rat Kidney and Liver After Inhalation of Isopropanol
K. Zahlsen, K. Aarstad and O. G. Nilsen .................................. 268

Dose-Dependent Pharmacokinetics of Clofibric Acid in the Non-human Primate
L. M. Walmseley. With 2 Figures .............................................. 272

Different Pathways of Chloroform Metabolism
E. Testai and L. Vittorzi. With 2 Figures ................................. 278

In Vitro Inhibition of Lysosomal Phospholipases by Aminoglycoside Antibiotics: A Comparative Study
M. B. Carlier, G. Laurent and P. Tulkens. With 2 Figures .............. 282

Erythrocyte-Dependent Metabolic Activation of Styrene and Induction of Sister Chromatid Exchange in Cultured Human Lymphocytes

Interaction of Acrylonitrile with the Liver Mixed Function Oxidases
D. Cova, E. Chiesara and R. Rizzi. With 1 Figure ......................... 291

Induction of Microsomal Enzymes after Inhalation of Methanol
K. Aarstad, K. Zahlsen and O. G. Nilsen ..................................... 295

Erythromycin Estolate Impairs the Mitochondrial and Microsomal Calcium Homeostasis: Correlation with Hepatotoxicity
With 2 Figures ........................................................................ 298

Relationships Between the Pharmacokinetics of Carbon Tetrachloride Conversion to Carbon Dioxide and Chloroform and Liver Injury
E. S. Reynolds, R. J. Treinen, H. H. Farrish and M. T. Moslen .............. 303

Distribution and Metabolism of 2-t-Butyl-4-methoxyphenol in the Everted Rat Gut Preparation
L. Della Corte, M. G. Giovannini and G. P. Sgaragli. With 1 Figure ....... 307
Contents

Phenytoin Metabolites in Human Placental Tissue
M. HENNEBERG and E. SEROWKA .......................................... 311

The Placental Transfer and Detection of 14C-Carmoisine Metabolites by HPLC Combined with a Radioactivity Monitor (RAM)
E. TRAGNI, M. MARINOVICH and C. L. GALLI ................................ 312

Toxicity of Non-steroidal Anti-rheumatic Drugs:
Molecular Mechanisms and Clinical Assessment

A Biochemical Basis for the Gastrointestinal Toxicity of Non-steroid Anti-rheumatoid Drugs
B. J. R. WHITTLE and J. R. VANE. With 1 Figure ............................ 315

Molecular Mechanisms of the Gastric Toxicity of Anti-rheumatic Drugs
U. AEHRINGHAUS, H. WEILER, B. A. PESKAR and B. M. PESKAR. With 1 Figure ...... 323

Mechanisms of the Nephrotoxicity of Non-steroidal Anti-inflammatory Drugs
M. J. DUNN, L. SCHARSCHMIDT and E. ZAMBRASKI ............................. 328

Clinical Assessment of the Renal Toxicity of Anti-rheumatic Drugs
G. A. CIONITI. With 2 Figures ........................................... 338

Central and Peripheral Haemodynamic Effects of Non-steroidal Anti-inflammatory Drugs in Man
A. WENNMALM, I. CARLSSON, A. EDLUND, S. ERIKSSON, L. KAUSER and J. NOWAK. With 4 Figures ........................................ 350

Indomethacin Induced Intestinal Toxicity is Blocked by Sodium Salicylate at 24 and 48 Hours Post Treatment
E. EZER. With 1 Figure .......................................................... 360

The Preclinical Toxicity of Dazoxiben: A Specific Inhibitor of Thromboxane A2 Synthetase

Species Differences in the Acute Toxicity of Non-steroidal Anti-inflammatory Compounds
C. PERCIN. With 2 Figures ....................................................... 365

Heavy Metal Toxicity

Renal Handling of Cadmium: A Study by Tubular Microinjections
E. BOSCO, N. PORTA and J. DIEZI. With 2 Figures ............................ 371

Cadmium Alters Arterial Baroreflex Control of Heart Rate in the Conscious Rat
D. GERMANO, M. POCHEIRO, G. ROMEO, A. NUNZIATA, G. COSTA and A. P. CAPUTI. With 2 Figures ........................................... 374
Inhibition of Aortic Vessel Adenosine Diphosphate Degradation by Cadmium and Mercury
G. Togna, N. Dolci and L. Caprino. With 2 Figures ........................................... 378

Embryotoxic Action Induced by Mercury Acetate in the Rat
A. Cerrati, P. A. Franco, G. Garrone, C. Puntrello, I. Raggi and F. Viola ...... 382

Cardiovascular Homeostasis in Rats Chronically Exposed to Mercuric Chloride
M. Carmignani and P. Bosco .............................................. 383

The Effects of a Dose of Mercuric Chloride, Below the Acute Toxic Dose, on Haemostasis in Rats
H.-P. Klöcking .............................................................. 389

In Vitro Cytotoxicity of Nickel Chloride on a Human Pulmonary Epithelial Cell Line (A 549)
A. Dubreuil, G. Bouley, S. Duret, J.-C. Mestre and C. Boudene. With 2 Figures 391

Changes in Endogenous Monoamine Levels of Rat Brain Induced by Tetraethyl Lead
H. Komulainen, R. Pietarinne and J. Tuomisto ........................................ 394

Levels of Monoamines in Different Regions of the Rat Brain in Heavy Metal Intoxication
V. Anania, M. S. Desole, G. Esposito, F. Sanna Randaccio and E. Miele ........... 398

Xenobiotic Toxicology

Experimental Evidence on the Pulmonary Carcinogenicity of Arsenic Trioxide
G. Pershagen, G. Nordberg and N.-E. Björklund ............................................. 403

Molecular Interaction of Acrylonitrile at Target Sites of Carcinogenicity in Rats
A. E. Ahmed and M. Y. H. Farooqui ........................................... 405

Mutagenic Activity of Nitriloacetic Acid
A. Nunziata, M. Monaco, N. Loprieno, G. Boncristiani, P. Venier and A. Montaldi ................................................................. 407

Neurotoxicity in Rats Dosed with Peppermint Oil and Pulegone
P. Olsen and I. Thorup ...................................................... 408

Neurotoxicological Profile of Carbon Disulphide After Intraventricular Administration in Rats
D. Rotiroti, F. Naccari, S. Gratteri, R. Anfosso and G. Nisticò .......................... 410

Immediate Effects of m-Xylene on the Human Central Nervous System
K. Savolainen, J. Kekoni, V. Riihimäki and A. Laine. With 2 Figures ............... 412

Potentiation of Hexane and Organophosphate Neurotoxicities
E. Vilanova, J. L. Vicedo, M. D. Zafra and M. C. Pellrín .............................. 418
Behavioural and Electrocortical Spectrum Power Changes After Intraventricular Injection of Patulin in Rats

The Effects of Radiological Contrast Media on the Reproduction System of the Rat
P. Tirone and E. Boldrini

Short-term Studies with the Cryptating Agent Hexaoxa-diaza-bicyclo-hexacosane in Rats
M. Baumann, E. Schäffer and H. Greim. With 2 Figures

Evaluation of the Toxicological Risk in Animals Following the Ingestion of Cheese Obtained from Milk with Added Formaldehyde
M. Marinovich, P. Campagner, P. Restani, E. Tragni and C. L. Galli

The Influence of Soil Particle Adsorption on 2,3,7,8-Tetrachlorodibenzo-p-dioxin Biological Uptake in the Rabbit

The Subchronic Toxicity of 3,5-Dinitro-4-chloro-α,α,α-trifluorotoluene in the Rat
A. Macri, A. R. Buchi, C. Guastadisegni, F. Gramenzi, C. Ricciardi and G. Salvatore. With 1 Figure

Trihalomethane in Drinking Waters: A Statistical Study
C. Cremisini, S. De Fulvio, L. Giannico, A. Piccioni and G. A. Zapponi. With 2 Figures

Inhalation Toxicology: Correlation Between the Concentration of the Test Compound and the Exposure Time Using Carbon Tetrachloride
T. W. McSheehy, A. Nunziata, P. Mercatelli, A. Argentino and R. O. Salerno

Circulating Concentrations of Testosterone, Luteinizing Hormone and Follicle Stimulating Hormone in Male Rats After Inhalation of Methanol
A. M. Cameron, O. G. Nilsen, E. Haug and K. B. Eir-Nes

The Effect of Sodium Selenite on Respiratory Function in Mitochondria Isolated from Guinea Pig Heart
G. Ignesiti, G. Antonini, F. Bennardini, R. Matucci, G. Dini and F. Francconi

Intestinal Absorption and Excretion of Thallium (209TI) in the Rat

Evaluation of Pollution Levels by Analysis of the Pesticide Residues in Algerian Sheep
B. Alamir, A. Venant and L. Richou Basc

Miscellaneous Toxic Effects

A 2′Guanidyl Derivative of Gentamicin (S86451) with Reduced Nephrotoxicity: Studies at Low and Medium Dose Levels in the Rat
P. Maldague, G. Laurent, M. B. Carlier and P. Tulkens. With 1 Figure
Tubular Regeneration in Rat Kidney Cortex During Treatment with Gentamicin at a Low Dose

Aminoglycoside Antibiotics: A Study of Their Neurotoxic Effects at Peripheral Nerve Fibres
D. MitoLO-ChiePpa and M. R. Carratu. With 1 Figure ................................................. 464

The Use of Phystostigmine in Heroin Overdose
J. Ruprecht, B. DworaceK, M. Valkenburg and H. Oosthoek ......................... 467

4-Aminopyridine: An Anticurare and Reawakening Drug
E. Malizia, P. Nicolai, R. Romano and G. Pinto ................................................... 468

The Influence of Dose Schedules and Administration Routes on the Toxicity of Potential Antiviral Drugs
R. Amlacher and H. Hoffmann. With 1 Figure ......................................................... 469

Intramuscular Injections and Muscle Damage: Effects of Concentration, Volume, Injection Speed and Vehicle
O. Svenstsen and L. Blom ......................................................................................... 472

Evidence of an Interaction Between Opioids and Histaminergic Systems on Cannabis Sativa-Induced Catalepsy
R. Arrigo-Reina, C. Cosentino, M. Reina and S. Ferri ........................................... 476

Fever Reaction of Rabbits After Repeated Intravenous Injections of Antigens
H. Ronneberger ........................................................................................................ 478

Cardiovascular Effects of Tetanus Toxin After Systemic and Intraventricular Administration in Rats
G. Nisticò, S. Gratteri, G. Vairo, F. Rossi and E. Marmo ......................... 479

The Incidence of Drug Overdosage in Patients Admitted to General Hospitals in the Canary Islands
E. Sanz and J. Boada ............................................................................................... 480

The Toxic Effects of Clofibrate and Its Metabolite on Mammalian Skeletal Muscle: An Electrophysiological Study
D. Conte-Camerino, V. Tortorella, F. Ferranini and S. H. Bryant. With 1 Figure . 482

A Comparative Retrospective Analysis of Data from Short- and Long-Term Animal Toxicity Studies on 40 Pharmaceutical Compounds
S. R. Walker, E. Schuetz, D. Schuppan and J. Gelzer ..................................... 485

Cardiac Hypertrophy in the Dog and Rat Induced by Oxfenicine, an Agent Which Modifies Muscle Metabolism
P. Greaves, J. Martin, M. C. Michel and P. Mompon ........................................ 488

An Epidemic of a “New” Haemorrhagic Disease in Infants Attributable to Talcum Powder Contaminated with Warfarin in Ho-Chi-Minh Ville (Vietnam)
G. Martin-Bouyer, N. B. Khanh, P. D. Linh and J. Tourneau. With 3 Figures ...... 494
### Contents

**Stress, Drugs, and Pregnancy: Experimental Studies on Embryo-Foetal Toxicity**  
B. Loscalzo, A. Agrusta, M. Agrusta, A. Crisci, L. Genovese and M. Marino ... 499

**Long-Lasting Hypothermic Effects of Vincristine in Rats**  
With 3 Figures .................................................. 500

**Behavioural Changes in Rats After Prenatal Administration of Typical and Atypical Antidepressants**  
V. Cuomo, I. Cortese, R. Cagiano, G. Renna and G. Racagni. With 1 Figure ... 504

**Side Effects of Drugs Stimulating Prolactin Secretion on the Behavior of Male Rats**  
F. Drago and U. Scapagnini ........................................... 508

**Possible Adverse Effects on the Cardiovascular System of an Antiarrhythmic Drug Mexiletine**  
F. Rossi, E. Ruggiero, M. A. Scafuro, M. Giasi, V. Mazzeo, G. Bile, E. Lamparelli and E. Marmo. With 1 Figure ........ 510

**Novel and New Techniques in Toxicology**

**A Single Step Method for the Separation of Rat Liver Cytosolic Glutathione S-Transferase Isozymes**  
B. Botti-Cacciari, M. T. Moslen, E. S. Reynolds and V. Vannini. With 2 Figures ... 517

**In Vitro Mouse Fertilization as an Experimental Model for the Monitoring of Adverse Effects on Gametes and Gamete Fusion**  
B. P. Schmid and R. R. Racine ........................................ 521

**Repeat Dermal Models for Systemic Toxicity: A Comparison of the Rabbit, Rat and Guinea Pig**  
R. J. Staab and W. J. Tierney ......................................... 522

**A New Cation-Exchange and Thin Layer Chromatography Technique for the Identification of Pethidine in Urine**  
M. Henneberg and E. Kwasek ......................................... 523

**Author Index** .......................................................... 524

**Subject Index** .......................................................... 527
