Current Topics in Neuroendocrinology

Vol. 1: Sleep. Clinical and Experimental Aspects
Neurobiology of REM Sleep: A Possible Role for Dopamine · Endocrine and Peptide Functions in the Sleep-Waking Cycle · Sleep Regulation: Circadian Rhythm and Homeostasis · Haemodynamic Changes During Sleep in Man

Vol. 2: Adrenal Actions on Brain
Glucocorticoids and Hippocampus: Receptors in Search of a Function · Glucocorticoids and the Developing Nervous System · Feedback Actions of Adrenal Steroid Hormones · Electrophysiologic and Clinical Aspects of Glucocorticoids on Certain Neural Systems · Adrenal Steroids and Behavioral Adaptation: Relationship to Brain Corticoid Receptors

Vol. 3: Central Cardiovascular Control. Basic and Clinical Aspects
Functional and Anatomic Aspects of Central Nervous Cardiovascular Regulation · Autonomic Nervous System and Blood Pressure Control in Normotensive and Hypertensive Conditions · Reflex Control of Circulation in Normotensive and Hypertensive Humans · Corticotropin-Releasing Factor: Central Nervous System Effects on the Sympathetic Nervous System and Cardiovascular Regulation · Neuropeptides and Central Blood Pressure Regulation · Centrally Acting Drugs as a Tool to Study Central Mechanisms of Blood Pressure Control · The Blood-Brain Barrier and its Role in the Control of Circulating Hormone Effects on the Brain

Vol. 4: Neurobiology of Vasopressin
Biosynthesis of Vasopressin · Electrophysiological Studies of the Magnocellular Neurons · Volume Regulation of Antidiuretic Hormone Secretion · Vasopressin, Cardiovascular Regulation and Hypertension · Neuroanatomical Pathways Related to Vasopressin

Vol. 5: Actions of Progesterone on the Brain
Antiprogestins · Progesterone Receptors in Brain and Hypophysis · Effects of Estrogen and Progesterone as Revealed by Neurophysiological Methods · Progesterone Receptors in CNS Correlated with Reproductive Behavior · Estradiol-Progesterone Interactions in the Reproductive Behavior of Female Rats · Behavioral Effects on Humans of Progesterone-Related Compounds During Development and in the Adult

Vol. 6: Neurobiology of Oxytocin
Biosynthesis of Oxytocin in the Brain and Peripheral Organs · Regulation of Oxytocin Release · Proteolytic Conversion of Oxytocin, Vasopressin, and Related Peptides in the Brain · Oxytocin and Behavior · Oxytocin as an Ovarian Hormone · Oxytocin and the Milk-Ejection Reflex

Vol. 7: Morphology of Hypothalamus and Its Connections
The Pituitary Portal System · Functional Ultrastructure of Gonadotropes: a Review · Ultrastructure of Anterior Pituitary Cells · Catecholamine-Peptide Interactions in the Hypothalamus · Neuroendocrine Projections to the Median Eminence · Afferents onto Neuroendocrine Cells · Interconnectedness of Steroid Hormone-Binding Neurons: Existence and Implications · Ultrastructure of Regulatory Neuroendocrine Neurons and Functionally Related Structures · Synaptogenesis and Neuronal Plasticity to Gonadal Steroids: Implications for the Development of Sexual Dimorphism in the Neuroendocrine Brain
D. Ganten and D. Pfaff (Eds.)

Neuroendocrinology of Mood

Coeditor
K. Fuxe

Contributors
L. F. Agnati, H. Ågren, M. Aronsson, M. S. Bauer, G. P. Chrousos
A. Cintra, T. J. Crow, M. A. Demitrack, M. J. Devlin, I. N. Ferrier
K. Fuxe, P. W. Gold, R. N. Golden, J.-Å. Gustafsson
A. Härfstrand, D. S. Janowsky, K. Kalogeras, M. A. Kling
B. Levant, P. Linkowski, D. L. Loriaux, N. Matussek
L. Träskman-Bendz, B. T. Walsh, S. R. B. Weiss, H. Whitfield
P. C. Whybrow, F. A. Wiesel, M. Zoli

With 80 Figures

Springer-Verlag Berlin Heidelberg New York
London Paris Tokyo
Table of Contents

Principles for the Hormone Regulation of Wiring Transmission and Volume Transmission in the Central Nervous System
By K. Fuxe, L. F. Agnati, A. Härfstrand, A. Cintra, M. Aronsson, M. Zoli, and J.-Å. Gustafsson
With 35 Figures .......................... 1

Clinical Studies with Corticotropin Releasing Hormone: Implications for Hypothalamic-Pituitary-Adrenal Dysfunction in Depression and Related Disorders
With 11 Figures .......................... 55

Biological Rhythms and Mood Disorders
By J. Mendlewicz and P. Linkowski
With 3 Figures .......................... 79

Recurrent Affective Disorders: Lessons from Limbic Kindling
By R. M. Post, S. R. B. Weiss, and D. R. Rubinow
With 14 Figures .......................... 91

The Mechanisms of Action of Antipsychotics and Antidepressant Drugs
By F. A. Wiesel and L. Träskman-Bendz .......................... 117

Catecholamines and Mood: Neuroendocrine Aspects
By N. Matussek
With 6 Figures .......................... 141

Serotonin and Mood: Neuroendocrine Aspects
By H. Y. Meltzer and J. F. Nash Jr .......................... 183

Cholinergic Mechanisms in Mood: Neuroendocrine Aspects

The Psychobiology of Neurotensin
By B. Levant and C. B. Nemeroff
With 6 Figures .......................... 231
Cholecystokinin and Mood
By I. N. Ferrier and T. J. Crow . . . . . . . . . . . . . 263

Opioid Peptides and Mood: Neuroendocrine Aspects
By H. Ågren and L. Terenius . . . . . . . . . . . 273

The Neuroendocrinology of Anorexia Nervosa
By M. J. Devlin and B. T. Walsh
With 5 Figures . . . . . . . . . . . . . . . . . . . . . 291

Effects of Peripheral Thyroid Hormones on the Central Nervous System: Relevance to Disorders of Mood
By P. C. Whybrow and M. S. Bauer . . . . . . . . . . 309

Subject Index . . . . . . . . . . . . . . . . . . . . . . . . . . . . 329
