

Handbuch der mikroskopischen Anatomie des Menschen

Begründet von Wilhelm von Möllendorff

Fortgeführt von Wolfgang Bargmann

1. Band

Die lebendige Masse

3. Teil

Hans Georg Schwarzacher

Chromosomes

in Mitosis and Interphase

With 116 Figures

Springer-Verlag Berlin Heidelberg New York 1976

Professor Dr. Drs. h. c. Wolfgang Bargmann
Anatomisches Institut der Universität, 2300 Kiel, Neue Universität

Professor Dr. Hans Georg Schwarzacher
Histologisch-Embryologisches Institut der Universität, A-1090 Wien

Library of Congress Cataloging in Publication Data (Revised). Main entry under title: Handbuch der mikroskopischen Anatomie des Menschen, bearb. () Begründet von Wilhelm v. Möllendorff: fortgeführt von Wolfgang Bargmann. Vol. 5, pt. 4 has title: Verdauungsapparat, Atmungsapparat. Vol. 6, pt. 6 has title: Blutgefäß- und Lymphgefäßapparat, innersekretorische Drüsen. Includes bibliographies. Contents: 1. Bd. Die lebendige Masse. T. 1 — 2. Bd. Die Gewebe. T. 1 — 3. Bd. Haut und Sinnesorgane. T. 1 — 4. Bd. Nervensystem. T. 1 — 5. Bd. Verdauungsapparat. T. 1 — 6. Bd. Blutgefäß- und Lymphgefäßapparat. T. 1 — 7. Bd. Harn- und Geschlechtsapparat. T. 1 — 1. Histology. I. Möllendorff, Wilhelm Hermann Wichard von, 1887 (ed.) II. Bargmann, Wolfgang, 1906 (ed.) [DNLM: 1. Histology. 2. Chromosomes—Ultrastructure. QS504 H236 Bd. 1]

Acknowledgements

My thanks are due to Dr. RENATE CZAKER and Doz. Dr. WOLFGANG SCHNEDL for valuable discussions and their help in many respects, especially in preparing some of the figures. The drawings stem from the skillful hand of Dr. WALTER HEIHS, to whom I am particularly grateful. Many colleagues were so kind as to give the permission to reproduce figures from their publications or to furnish me with original photographs. They are acknowledged individually in the text to the figures, as well as the publishers.

I am very grateful to Dr. PATRICIA FISCHER for her help in preparing the english manuscript. For technical assistance in making many new preparations for this monograph I want to thank Mrs. ANNA BRÖM, Mr. HANS-DIETER SCHERMANN, Mr. MIRZEA GURUIANU, and Mr. RUDOLF FIEDLER. Finally, I should like to express my sincerest thanks to Mrs. RICARDA WINTER for her excellent help in secretarial and bibliographical work.

The original investigations reported in this monograph for the first time were supported by grant No. 2514 of the "Fonds zur Förderung der wissenschaftlichen Forschung in Österreich".

Contents

| | | |
|------|--|----|
| I. | <i>Introduction</i> | 1 |
| II. | <i>Nomenclature and General Morphology of Chromosomes</i> | 2 |
| III. | <i>Chromosome Morphology during Mitotic Phases</i> | 8 |
| | 1. Introduction | 8 |
| | 2. The Mitotic Phases | 8 |
| | 3. Changes of Chromosome Morphology during Mitosis | 9 |
| | 4. Differential Contractions of Chromosomes | 13 |
| IV. | <i>The Human Karyotype</i> | 16 |
| | 1. Introduction | 16 |
| | 2. Simple Staining Methods | 16 |
| | 3. Special Staining Methods | 17 |
| | 4. Individual Variations | 27 |
| V. | <i>Structural Differences along the Chromosomes (Chromosome Banding)</i> | 33 |
| | 1. Introduction | 33 |
| | 2. Repetitive DNA | 33 |
| | 3. Cytological Localization of Repetitive DNA | 36 |
| | 4. Differences in Base Composition of DNA | 39 |
| | 5. Differences in the Protein Components | 42 |
| | 6. Packing Differences | 43 |
| | 7. The Binding of Giemsa to Chromosomal Components | 47 |
| | 8. Conclusions on the Mechanisms Involved in Banding | 47 |
| | 9. DNA-Replication Pattern | 48 |
| | 10. Chromomeres and G-Bands | 53 |
| | 11. Genetic Mapping in Human Chromosomes | 55 |
| VI. | <i>Fine Structure of Chromosomes</i> | 56 |
| | 1. Introduction | 56 |
| | 2. Structure of the Fibrils | 56 |
| | 3. Arrangement of Fibrils | 71 |
| | 4. Single Stranded or Multistranded Chromatids? | 72 |
| | 5. Major Coils | 79 |
| | 6. Giemsa Bands, Interband Zones and Secondary Constrictions | 81 |
| | 7. Bridges Between Chromatids and Chromosomes | 83 |
| | 8. Centromeric Region | 84 |
| | 9. Attachment of Chromosome Fibrils to the Nuclear Membrane | 85 |
| | 10. Summary of the Findings on the Fine Structure of Chromosomes | 86 |

| | |
|--|-----|
| VII. <i>Chromosome Structure in Interphase Nuclei</i> | 87 |
| 1. Introduction | 87 |
| 2. Structure of Interphase Nuclei of Living Cells | 87 |
| 3. Structure of Interphase Nuclei after Fixation | 88 |
| 4. Chromocenters | 90 |
| 5. Electron Microscopy of Chromosomes in Interphase | 92 |
| 6. Premature Condensed Chromosomes | 93 |
| 7. Special Chromosome Regions in Interphase | 96 |
| 8. The X-chromatin | 100 |
| VIII. <i>Heterochromatin</i> | 107 |
| 1. Introduction | 107 |
| 2. Historical Remarks and Nomenclature | 107 |
| 3. Constitutive Heterochromatin | 109 |
| 4. Facultative Heterochromatin | 120 |
| 5. Function of Heterochromatin | 121 |
| IX. <i>The Position of Chromosomes within the Cell</i> | 124 |
| 1. Introduction | 124 |
| 2. Peripheral Position | 124 |
| 3. Association of Nucleolar Organizer Chromosomes | 126 |
| 4. Somatic Pairing | 127 |
| 5. Genome Separation | 132 |
| 6. Multipolar Mitosis | 133 |
| 7. Somatic Segregation | 136 |
| 8. Constancy of Chromosome Position | 137 |
| X. <i>Summary and Conclusions</i> | 141 |
