# Preface

This volume contains five fully revised regular papers, covering a wide range of very hot topics in the field of data security in clouds, privacy languages, probabilistic modelling in linked data integration, business intelligence based on multi-agent systems, collaborative filtering, and prediction accuracy.

We would like to sincerely thank the editorial board for thoroughly reviewing the submitted papers and ensuring the high quality of this volume.

Special thanks go to Gabriela Wagner for her availability and her valuable work in the realization of this volume of the Transactions on Large-Scale Data- and Knowledge-Centered Systems.
