DESIGN CREATIVITY

The curse of creativity
David Brown

Enabling creativity through innovation challenges: The case of interactive lighting
Stefania Bandini, Andrea Bonomi, Giuseppe Vizzari and Vito Acconci

Facetwise study of modeling activities in the algorithm for inventive problem solving ARIZ and evolutionary algorithms
Céline Conrardy, Roland De Guio and Bruno Zuber

Exploring multiple solutions and multiple analogies to support innovative design
Apeksha Gadwal and Julie Linsey

Creative and inventive design support system: Systematic approach and evaluation using quality engineering
Hiroshi Hasegawa, Yuki Sonoda, Mika Tsukamoto and Yusuke Sato
