Library of Congress Cataloging in Publication Data

Mehlberg, Henry, 1904–1979

Time, causality, and the quantum theory.

(Boston studies in the philosophy of science ; v. 19)

Bibliography: p.

Includes indexes.

CONTENTS: v. 1. Essay on the casual theory of time. – v. 2. Time in a quantized universe.

1. Space and time. 2. Causality (Physics). 3. Quantum theory. 4. Physics—Philosophy. I. Title. II. Series.

Q174.B67 vol. 19 [QC173.59.S65] 501s [530.1'1]

ISBN-13: 978-90-277-1076-5

e-ISBN-13: 978-94-009-8988-7

DOI: 10.1007/978-94-009-8988-7

TABLE OF CONTENTS
VOLUME II : TIME IN A QUANTIZED UNIVERSE

Part III : An Indeterministic Theory of Time

I. Philosophical Interpretations of Quantum Physics	3
II. The Problem of Causality in an Indeterministic Science	75
III. Relativity and the Atom	113
IV. Laws of Nature and Time's Arrow	152
V. The Symmetry of Time and the Branch Hypothesis	203

Part IV : Universal Aspects of Time

I. The Measurement of Time	211
II. The Ontological Status of Time	225
III. The Reality of Time	235
IV. The Causal Nature of Time	243
V. The Symmetry of Time	250
VI. The Psychology of Time	255

CONCLUSION	259

TABLE OF CONTENTS
VOLUME I : ESSAY ON THE CAUSAL THEORY OF TIME

EDITORIAL NOTE

INTRODUCTION TO VOLUMES I AND II

ACKNOWLEDGMENTS

Part I : The Causal Theory of Time in the Works of Its Principal Representatives

- I. Leibniz and the Beginnings of the Causal Theory of Time
 1. The Relational Theory
 2. The Causal Theory
- II. Kant's Phenomenalist Interpretation of the Causal Theory of Time
 1. General Remarks on Kant's Phenomenalism
 2. The Causal Theory of Simultaneity
 3. The Causal Theory of Succession
 4. Examination of Schopenhauer's Criticism
 5. The Plurality of Concepts of Time in Kant
- III. Lechalas' Adaptation of the Causal Theory of Time to the Laws of pre-Einsteinian Physics
 1. General Remarks on Lechalas' Theory
 2. The Principle of Determinism, Considered as Defining the Temporal Order
 3. Physical Reversibility
 4. Psycho-Physiological Reversibility
 5. The Epistemological Interpretation of the Causal Theory
- IV. The Relativistic Phase of the Causal Theory of Time: The Axiomatic Systems of Robb and Carnap
 1. Robb's System
 2. Carnap's Systems
 3. The Epistemological Priority of the Causal Relation
 4. The Ontological Priority of the Causal Relation
- V. The Relativistic Phase of the Causal Theory of Time: The Work of Reichenbach
 1. The Causal Theory
 2. Criticism of the Principle of Marking
 3. Criticism Continued: Subjective and Objective Time
 4. Criticism, Continued and Concluded: Convention and Reality in the Temporal Order
 5. The Semi-Causal, Semi-Statistical Theory
 6. The Branch Hypothesis
 7. Conclusion

- VI. Russell's Causal Explanation of Duration
 - 1. The Logical Analysis of Duration
 - 2. Russell's Causal Definition
 - 3. Criticism and Comment
 - 4. Epistemological Remarks
 - 5. Conclusion
- VII. Alternative Approaches to Time's Arrow
 - Introductory
 - 1. K. Gödel and S. Chandrasekhar
 - 2. G. J. Whitrow
 - 3. A. Grünbaum and O. Costa de Beauregard
 - 4. R. Schlegel and R. Swinburne
 - 5. S. Watanabe

Part II : Duration and Causality

- VIII. The Intuitive Foundations of the Knowledge of Time
 - 1. Preliminary Remarks
 - 2. Intuitive Time and Memory
 - 3. Intuitive Time and Perception
 - 4. The Continuum of Instants Attached to Intuitive Time
 - 5. Other Intuitively Knowable Aspects of Time
 - 6. The Epistemological Significance of Intuitive Time
- IX. Physical Time
 - 1. General Remarks on the Causal Theory of Physical Time
 - 2. Symmetrical Causality
 - 3. The Concept of Event
 - 4. The Ordinal Concept
 - 4.1. Coincidence
 - 4.2. The Spatio-Temporal Order
 - 4.3. Simultaneity
 - 4.4. Succession
 - 5. The First Group of Axioms
 - 6. The Geometrical Concepts
 - 7. The Second Group of Axioms
 - 8. The Third Group of Axioms
 - 9. The Time Metric
 - 10. Reference Systems, Coordinates, Transformation Formulas
 - 11. Inertial Systems
 - 12. Optical Criteria
- X. Non-Physical Time
 - 1. Psychophysical Time: The Perceptual Method
 - 2. Psychophysical Time: The Expressive Method
 - 3. Psychological and Inter-Psychological Time
 - 4. Universal Time
 - 5. Conclusion

Supplement

1. The Present Empirical Status of Psychophysical Parallelism
2. Conceptual Analysis of Psychophysical Parallelism
