CONTENTS

I Introduction	1
II The Environment	3
III The Algae	142
IV The Invertebrate Fauna	187
V The Vertebrate Fauna	343
VI Zonation	371
VII Pollution	379
Summary	387
Acknowledgements	394
References	396
Plates	427
Appendix	437
Subject Index	467
Index of Organisms	475

CHAPTERS' CONTENTS

I. Introduction	1
II. The Environment	3
1. General Information	3
1.1. <i>The Study Area</i>	3
1.2. <i>Previous Studies on the Area</i>	3
1.3. <i>Climate</i>	5
1.4. <i>Geology</i>	5
2. Physical Characteristics	6
2.1. <i>Physiography</i>	6
2.1.1. <i>Topography</i>	6
2.1.2. <i>Stream order classification</i>	9
2.1.3. <i>Lithology and structure of the catchment</i>	11
2.1.4. <i>Soils</i>	13
2.1.5. <i>Vegetation and general land use</i>	15
2.2. <i>Preliminary Zonation</i>	18
2.2.1. <i>The catchment</i>	18
2.2.2. <i>The river</i>	19
2.2.3. <i>Classification of water types</i>	19
2.3. <i>Description of the Sampling Stations</i>	20
2.4. <i>Physical Methods</i>	27
2.4.1. <i>Light</i>	27
2.4.2. <i>Temperature</i>	27
2.4.3. <i>Precipitation</i>	29
2.4.4. <i>Discharge</i>	29
2.4.5. <i>Substrate analysis</i>	30
2.4.6. <i>Erosional load</i>	31
2.5. <i>Physical Observations</i>	32
2.5.1. <i>Light</i>	32
2.5.2. <i>Temperature</i>	34
2.5.3. <i>Precipitation</i>	41
2.5.4. <i>Discharge</i>	47
2.5.5. <i>Substrate analysis</i>	61
2.5.6. <i>Erosional load</i>	72
2.6. <i>Recapitulation</i>	83
3. Chemical Environment	83
3.1. <i>Methods</i>	84

3.2. <i>Analytical Results and Comments</i>	86
4. Organic Environment	125
4.1. <i>Methods</i>	126
4.1.1. <i>Organic content of the water</i>	126
4.1.2. <i>Sedimentary organics</i>	127
4.1.3. <i>Calorimetry studies</i>	127
4.2. <i>Results and Comments</i>	127
4.2.1. <i>Organic content of the water</i>	127
4.2.2. <i>Sedimentary organics</i>	135
4.2.3. <i>Calorimetry studies</i>	137
III. The Algae	142
1. Composition of the Flora	142
1.1. <i>Methods</i>	143
1.2. <i>Records and Comments on Distribution</i>	144
2. Primary Production Studies	163
2.1. <i>Methods</i>	166
2.2. <i>Biomass</i>	168
2.3. <i>Phytopigments</i>	171
2.4. <i>Synthesis</i>	178
IV. The Invertebrate Fauna	187
1. Composition of the Benthos	188
1.1. <i>Methods</i>	188
1.2. <i>Community Structure</i>	194
1.2.1. <i>Distribution of the principal taxa</i>	195
1.2.2. <i>Similarities with the faunal communities of other tropical rivers</i>	249
1.2.3. <i>Features of the fauna of various sections</i>	250
1.2.4. <i>Factors effecting microdistribution and succession</i>	254
1.2.5. <i>Biotope associations</i>	259
1.2.6. <i>Factors effecting segregation between taxa</i>	260
1.2.7. <i>Diversity</i>	263
1.2.8. <i>Life history data</i>	269
1.3. <i>Quantitative Assessment of the Fauna</i>	278
1.3.1. <i>The depositional (s) and erosional (r) biotopes</i>	278
1.3.2. <i>Seasonal variation in the abundance of principal benthic invertebrates</i>	290
1.3.3. <i>Synthesis</i>	298
2. Vertical Distribution of the Benthos	299
2.1. <i>The Sampler</i>	300
2.2. <i>Results and Comments</i>	302
2.3. <i>Discussion</i>	306
3. Secondary Production	309
4. Drift and Vectored Imaginal Flight	311
4.1. <i>Methods</i>	312
4.1.1. <i>Drift</i>	312

4.1.2.	<i>Adult flight movements</i>	314
4.2.	<i>Results and Observations</i>	316
4.2.1.	<i>Drift</i>	316
4.2.2.	<i>Bilateral insect trap catches</i>	330
4.3.	<i>Discussion</i>	333
V.	The Vertebrate Fauna	343
1.	Pisces	343
1.1.	<i>Methods of Assessing the Ichthyofauna</i>	344
1.1.1.	<i>Electrofishing</i>	344
1.1.2.	<i>Methods of surveying the fishery</i>	346
1.2.	<i>The Fish</i>	346
1.2.1.	<i>Composition of the fauna</i>	346
1.2.2.	<i>Longitudinal succession and feeding segregation</i>	349
1.2.3.	<i>Diversity</i>	356
1.2.4.	<i>Trophic relationships</i>	359
1.3.	<i>Appraisal of Fishery</i>	363
1.3.1.	<i>Yield</i>	363
1.3.2.	<i>Synthesis</i>	365
2.	Other Vertebrates	368
2.1.	<i>Mammalia</i>	369
2.2.	<i>Aves</i>	369
2.3.	<i>Reptilia</i>	369
2.4.	<i>Amphibia</i>	369
VI.	Zonation	371
VII.	Pollution	379
