Chronic Pain Management in Pediatrics

Donald C. Tyler, M.D.

The Role of Adjuvant Drugs and Anesthetic Blocks in the Management of Patients with Cancer and Pain

Kathleen M. Foley, M.D.
Preface

Theodore H. Stanley, M.D.

Anesthesiology and Pain Management contains the Refresher Course manuscripts of the presentations of the 36th Annual Postgraduate Course in Anesthesiology which took place at The Cliff Conference Center in Snowbird, Utah, February 22-26, 1991. The chapters reflect new data and concepts within the general framework of "pain research and basic science," "clinical topics in pain management." The purposes of the textbook are to 1) act as a reference for the anesthesiologists attending the meeting, and 2) serve as a vehicle to bring many of the latest concepts in anesthesiology to others within a short time of the formal presentation. Each chapter is a brief but sharply focused glimpse of the interests in anesthesia expressed at the conference. This book and its chapters should not be considered complete treatises on the subjects addressed but rather attempts to summarize the most salient points. This textbook is the ninth in a continuing series documenting the proceedings of the Postgraduate Course in Salt Lake City. We hope that this and the past and future volumes reflect the rapid and continuing evolution of anesthesiology in the late twentieth century.
List of Contributors

Ashburn, Michael A.
Department of Anesthesiology, University of Utah, Salt Lake City, Utah

Basbaum, Allan
Department of Anatomy & Physiology, University of California - San Francisco, San Francisco, California

Bonica, John J.
Department of Anesthesiology, The University of Washington, Seattle, Washington

Cousins, Michael J.
Department of Anaesthesia and Pain Management, The University of Sydney, Royal Shore Hospital ST. LEONARDS, N.S.W. Australia

Covino, Benjamin G.
Department of Anesthesia, Brigham and Women's Hospital, Boston, Massachusetts

Fine, Perry G.
Department of Anesthesiology, University of Utah, Salt Lake City, Utah

Foley, Kathleen M.
Chief, Pain Service, Department of Neurology, Memorial Sloan-Kettering Cancer Center, Cornell University Medical College, New York, New York

Hare, Bradford D.
Department of Anesthesiology, University of Utah, Salt Lake City, Utah

Kaiko, Robert F.
Medical Department, The Purdue Frederick Company, Norwalk, Connecticut

Ready, L. Brian
Department of Anesthesiology, University of Washington School of Medicine, Seattle, Washington

Russell, Scott W.
Division of Behavioral Medicine, University of Utah, Salt Lake City, Utah
Tyler, Donald C.
Department of Anesthesiology, University of Washington School of Medicine, Seattle, Washington

White, Paul F.
Department of Anesthesiology, Washington University School of Medicine, St. Louis, Missouri

Winnie, Alon P.
Department of Anesthesiology, University of Illinois Hospital, Chicago, Illinois

Wong, Kuang C.
Department of Anesthesiology, University of Utah, Salt Lake City, Utah

Yaksh, Tony L.
Department of Anesthesiology, University of California, San Diego; La Jolla, California
The editors wish to thank Ms. Lenora Bishop and Ms. Candace Newby for their technical assistance in the preparation of this syllabus.
