Contents

Preface	vii
Lyapunov Inequalities and their Applications <i>Richard C. Brown and Don B. Hinton</i>	1
Classical Hardy's and Carleman's Inequalities and Mixed Means <i>Aleksandra Čižmešija and Josip Pečarić</i>	27
Operator Inequalities Associated with Jensen's Inequality <i>Frank Hansen</i>	67
Hardy–Littlewood–type Inequalities and their Factorized Enhancement <i>László Leindler</i>	99
Shannon's and Related Inequalities in Information Theory <i>M. Matić, C. E. M. Pearce and J. Pečarić</i>	127
Inequalities for Polynomial Zeros <i>Gradimir V. Milovanović and Themistocles M. Rassias</i>	165
On Generalized Shannon Functional Inequality and its Applications <i>Prasanna K. Sahoo</i>	203
Weighted L_p -norm Inequalities in Convolutions <i>Saburou Saitoh</i>	225
Index	235

Preface

Survey on Classical Inequalities provides a study of some of the well known inequalities in classical mathematical analysis. Subjects dealt with include: Hardy–Littlewood–type inequalities, Hardy's and Carleman's inequalities, Lyapunov inequalities, Shannon's and related inequalities, generalized Shannon functional inequality, operator inequalities associated with Jensen's inequality, weighted L_p -norm inequalities in convolutions, inequalities for polynomial zeros as well as applications in a number of problems of pure and applied mathematics.

It is my pleasure to express my appreciation to the distinguished mathematicians who contributed to this volume. Finally, we wish to acknowledge the superb assistance provided by the staff of Kluwer Academic Publishers.

June 2000
