ACKNOWLEDGEMENTS

We express our deep appreciation to Lauretta Tomasco who coordinated the entire project. Her radiant cheerfulness and unwavering competency saw us through many difficult times. Stefan Whitwell worked long hours on editing many of the chapters and we benefited from his linguistic talents. John Musero deftly edited and drafted abstracts for several chapters. Martin Rowley helped immensely with the bibliographies. Nick Harris carefully proofed the manuscript and applied his sleuthing skills in a search for hard to find citations. Jennifer and John Dunfee devoted some of their precious summer time to provide some valuable insights for the project, particularly the first chapter.
