

India Studies in Business and Economics

The Indian economy is considered to be one of the fastest growing economies of the world with India amongst the most important G-20 economies. Ever since the Indian economy made its presence felt on the global platform, the research community is now even more interested in studying and analyzing what India has to offer. This series aims to bring forth the latest studies and research about India from the areas of economics, business, and management science. The titles featured in this series will present rigorous empirical research, often accompanied by policy recommendations, evoke and evaluate various aspects of the economy and the business and management landscape in India, with a special focus on India's relationship with the world in terms of business and trade.

About the Editors

N.S. Siddharthan is an Honorary Professor at the Madras School of Economics, Chennai, India, and Honorary Director of the Forum for Global Knowledge Sharing (a specialized, interdisciplinary global forum, with its registered office at the Institute for Human Development (IHD), New Delhi, India and having members and office bearers from various institutions and countries worldwide). His current research interests are technology and globalization, international economics, multinational corporations, and industrial organization. He has published several papers in journals such as *The Economic Journal* (Wiley), *Oxford Bulletin of Economics and Statistics* (Wiley), *The Journal of Development Studies* (Routledge), *Economics of Innovation and New Technology* (Routledge), *Applied Economics, Development and Change*, *Journal of Economic Behavior and Organization* (Elsevier), *Journal of Business Venturing* (Elsevier), *Japan and the World Economy* (Elsevier), *Journal of International and Area Studies* (Institute of International Affairs), *International Business Review* (Elsevier), *The Developing Economies* (Wiley), *Weltwirtschaftliches Archiv* (Springer), *Transnational Corporations* (UNCTAD), *The Indian Economic Review* (DSE), *The Indian Economic Journal* (Indian Economic Association), and *Sankhya* (Springer). He has also served as a guest editor for special issues of the journals *Science, Technology and Society* (Sage) and *Innovation and Development* (Routledge). He has also published books with publishers such as Springer, Routledge, Oxford University Press, Macmillan, Allied, Academic Foundation, and New Age International Publishers.

Dr. K. Narayanan received his Ph.D. in Economics from the Delhi School of Economics, University of Delhi, India, and pursued postdoctoral research at the Institute of Advanced Studies United Nations University, Tokyo, Japan, during 2000–2001. During his research studies in India, he was a recipient of the ICSSR fellowship at the Institute of Economic Growth, New Delhi, India. His research interests span the areas of industrial economics, international business, socioeconomic empowerment through ICT, environmental economics, economic impacts of climate change, and development economics. He has a number of publications in

the field of industrial competitiveness, technology transfer, information and communication technology, international trade, and the socioeconomic impacts of climate change. The research journals in which he has published include *Research Policy* (Elsevier), *Journal of Regional Studies*, *Technovation* (Elsevier), *Oxford Development Studies* (Taylor and Francis), *International Journal of Energy Economics and Policy* (EconJournals), and *Economic and Political Weekly*. Two of his recent publications include edited books on (i) Indian and Chinese Enterprises: Global Trade, Technology, and Investment Regimes and (ii) Human Capital and Development: The Indian Experience [both of which were jointly edited with N.S. Siddharthan published by Routledge and Springer, respectively]. He also guest-edited a special issue of the Indian Association of Social Science Institution's quarterly on the theme "Human Capital and Development," as well as a special issue of the Sage published international journal, *Science, Technology and Society* on the theme "Agglomeration, technology clusters and networks." He is actively engaged in a Web-based research group, Forum for Global Knowledge Sharing, which brings together scientists, technologists, and economists. He is currently the Institute Chair Professor at the Department of Humanities and Social Sciences, Indian Institute of Technology Bombay, Mumbai, India.
