(Bashir A Baba)'*

# Contents

<b>1 Apocarotenoid Biosynthesis in <i>Crocus sativus</i> L.</b> .....	1
1.1 Introduction.....	1
1.2 Apocarotenoid Biosynthesis in <i>C. sativus</i> L.....	3
1.2.1 Apocarotenoid Biosynthesis Depends on the Availability of Carotenoid Substrates.....	3
1.2.2 Carotenoid Cleavage Leads to the Production of Apocarotenoids.....	4
1.2.3 Apocarotenoids in <i>C. sativus</i> Are Stored in Glycosylated Form .....	8
1.2.4 Hydrolysis of Picrocrocin to Safranal .....	9
1.3 Regulation of Apocarotenoid Biosynthesis in <i>C. sativus</i> .....	10
1.3.1 Regulation of Apocarotenoid Biosynthesis by Carotenogenic Enzyme Levels .....	10
1.3.2 Regulation of Carotenoid Degradation.....	11
1.3.3 Transcription Factors Regulating Apocarotenoid Biosynthesis .....	12
1.4 Site of Synthesis and Transport of Apocarotenoids in <i>C. sativus</i> .....	13
1.5 Conclusion .....	16
References .....	16
<b>2 Carotenoid Cleavage Dioxygenases of <i>Crocus sativus</i> L.</b> .....	23
2.1 Introduction.....	23
2.2 Carotenoid Cleavage Dioxygenase Family of <i>Crocus sativus</i> L. ....	26
2.3 Structure of Carotenoid Cleavage Dioxygenases .....	27
2.4 Reaction Mechanism of Carotenoid Cleavage Dioxygenases: Mono- or Dioxygenase .....	28
2.5 Role and Biotechnological Applications of CCDs .....	30
2.5.1 Biotic and Abiotic Stress .....	30
2.5.2 Color, Flavor, and Aroma Compounds .....	32
2.5.3 Pollination .....	33
2.6 Conclusion .....	34
References.....	34

<b>3 Pharmacological Importance of <i>Crocus sativus</i> Apocarotenoids .....</b>	<b>39</b>
3.1 Introduction.....	39
3.2 Neuroprotective Activity.....	40
3.3 Anticancer Activity .....	46
3.4 Cardioprotection .....	47
3.5 Hepatoprotective Activity .....	49
3.6 Immunological Functions of Saffron Carotenoids and Apocarotenoids .....	49
3.7 Antioxidant Activity .....	51
3.8 Effects of <i>C. sativus</i> and Its Constituents on Anxiety.....	52
3.9 Effects of <i>C. sativus</i> and Its Constituents in Schizophrenia .....	54
3.10 Conclusion .....	55
References .....	55

# About the Authors

**Dr. Nasheeman Ashraf** is currently a scientist at the Indian Institute of Integrative Medicine's Department of Plant Biotechnology. She completed her PhD at the National Institute of Plant Genomic Research (NIPGR), New Delhi in 2010, and then joined the Indian Institute of Integrative Medicine, Srinagar (CSIR-IIIM) in 2012. Her research has been published in respected journals, including BMC Genomic, BMC Plant biology, PLOS One, the Journal of Plant physiology. She is a member of the American Society of Plant Biologists. Her current research interest is *Crocus sativus*, and she was involved developing the transcriptome map for *Crocus* in 2014. This book has been based on years of research carried out in Dr. Nasheeman's lab.

**Shoib Ahmad Baba** completed his master's in botany at the University of Kashmir in 2011, and joined the Indian Institute of Integrative Medicine, Srinagar in 2012 to pursue research under the supervision of Dr. Nasheeman Ashraf. He has been working on *Crocus sativus* from last 5 years and has identified and characterized some of the key genes of apocarotenoid and flavonoids biosynthesis. Shoib Ahmad Baba's research has been published in leading journals, such as BMC Genomics and the Journal of Plant Physiology. He was actively involved in developing the transcriptome map of *C. sativus* in Dr. Nasheeman's lab. Shoib Ahmad Baba is currently a member of the 'Insights in Genes and Genomes' editorial board.
