Acknowledgements

We thank Dr. Subramaniam Ramanathan from the National Institute of Education (Singapore) for valuable advice and generous help on the interrater reliability calculations.

Contents

1 Primary Science Curricula: Past and Present Realities	1
The Unknown Intellectual Demands of Science Curricula.	1
What Our Study Is not and Its Limitations	2
Overview of Primary Science Education.	4
Lack of Research into Primary Science Curricula	5
Why Knowing the Intellectual Demands of Curricula Matters	6
References.	8
2 Revised Bloom’s Taxonomy—The Swiss Army Knife in Curriculum Research	11
Tools to Analyze Cognitive Demands: Why Revised Bloom’s Taxonomy.	11
Further Critiques of Bloom’s Taxonomy.	14
References.	16
3 Curricula, Coders, and Coding	17
Sources of Curricula Material	17
Selection of Learning Objectives or Standards	18
The Selection of Coders	19
The Coding Process and Interrater Reliabilities.	19
Advice and Tips for Coding Using RBT.	21
References.	24
4 The Intellectual Demands of East-Asian Primary Science Curricula	25
Overall Cognitive Processes and Knowledge Levels Across Six States	25
Hong Kong	27
General Introduction	27
Overall State Profile of Learning Objectives	28
Profile of Upper and Lower Primary Learning Objectives.	29

Japan	30
General Introduction	30
Overall National Profile of Learning Objectives	33
Profile of Upper and Lower Primary Learning Objectives.	33
The People’s Republic of China	34
General Introduction	34
Overall National Profile of Learning Objectives	36
Taiwan	37
General Introduction	37
Overall State Profile of Learning Objectives	38
Profile of Upper and Lower Primary Learning Objectives.	39
The Republic of Korea	40
General Introduction	40
Overall National Profile of Learning Objectives	43
Profile of Upper and Lower Primary Learning Objectives.	44
Singapore	44
General Introduction	44
Overall National Profile of Learning Objectives	46
Profile of Upper and Lower Primary Learning Objectives.	47
References.	48
5 The Shape of Intellectual Demands in East-Asian Primary Science Curricula	51
References.	53
Appendix A: Primary Science Learning Standards (Cognitive Domain) from China Based on Our English Translation	55
Appendix B: Primary Science Learning Standards (Cognitive Domain) from Taiwan Based on Our English Translation	63
Appendix C: Primary Science Learning Objectives (Cognitive Domain) from Korea Based on Our English Translation	71
Appendix D: Primary Science Learning Objectives (Cognitive Domain) from Singapore [The Government of Singapore (c/o Ministry of Education) Owns the Copyright to This Table and the Table has been Reproduced with Their Permission]	77

List of Figures

Figure 1.1	Global trends in the emphases and concerns in primary science as reflected in the coding of content from primary science textbooks across 60 countries. Adapted from McEneaney (2003)	5
Figure 4.1	The science curriculum framework for primary schools in Singapore. (The Government of Singapore (c/o Ministry of Education) owns the copyright to the figure and the figure is reproduced with their permission.)	45

List of Tables

Table 3.1	Table showing the interrater values of kappa and percentage agreement for the knowledge domain	20
Table 3.2	Table showing the interrater values of kappa and percentage agreement for the cognitive domain.	21
Table 4.1	The overall profile of learning objectives/standards in % from six East-Asian states classified by the cognitive processes in RBT	26
Table 4.2	The overall profile of learning objectives/standards in % from six East-Asian states classified by the knowledge domains in RBT	26
Table 4.3	Table showing total number of learning objectives ($n = 57$) from Hong Kong (SAR) classified according to the dimensions of knowledge and cognitive processes in RBT	29
Table 4.4	Number of learning objectives in the knowledge domain from Hong Kong (SAR) sorted according to their grade levels	29
Table 4.5	Number of learning objectives in the cognitive domain from Hong Kong (SAR) sorted according to their grade levels	30
Table 4.6	Table showing total number of learning objectives ($n = 31$) from Japan classified according to the dimensions of knowledge and cognitive processes in RBT	33
Table 4.7	Number of learning objectives in the knowledge domain from Japan sorted according to their grade levels	34
Table 4.8	Number of learning objectives in the cognitive domain from Japan sorted according to their grade levels	34
Table 4.9	Table showing total number of learning objectives ($n = 162$) from mainland China classified according to the dimensions of knowledge and cognitive processes in RBT	36

Table 4.10	Table showing total number of learning objectives ($n = 114$) from Taiwan classified according to the dimensions of knowledge and cognitive processes in RBT	39
Table 4.11	Number of learning objectives in the knowledge domain from Taiwan sorted according to their grade levels	39
Table 4.12	Number of learning objectives in the cognitive domain from Taiwan sorted according to their grade levels	40
Table 4.13	An example of the connection of primary science concepts across the grade levels in Korea (MOE 2015, p. 5)	42
Table 4.14	Table showing total number of learning objectives ($n = 113$) from Korea classified according to the dimensions of knowledge and cognitive processes in RBT	43
Table 4.15	Number of learning objectives in the knowledge domain from Korea sorted according to their grade levels.	44
Table 4.16	Number of learning objectives in the cognitive domain from Korea sorted according to their grade levels.	44
Table 4.17	Table showing total number of learning objectives ($n = 83$) from Singapore classified according to the dimensions of knowledge and cognitive processes in RBT	47
Table 4.18	Number of learning objectives in the knowledge domain from Singapore sorted according to their grade levels	47
Table 4.19	Number of learning objectives in the cognitive domain from Singapore sorted according to their grade levels	47

List of Appendices

Appendix A: Primary Science Learning Standards (Cognitive Domain) from China Based on Our English Translation	55
Appendix B: Primary Science Learning Standards (Cognitive Domain) from Taiwan Based on Our English Translation	63
Appendix C: Primary Science Learning Objectives (Cognitive Domain) from Korea Based on Our English Translation	71
Appendix D: Primary Science Learning Objectives (Cognitive Domain) from Singapore [The Government of Singapore (c/o Ministry of Education) Owns the Copyright to This Table and the Table has been Reproduced with Their Permission]	77
