ACKNOWLEDGMENTS

This volume contains the main research outcomes from the international project entitled “Economics of European Crises and Emerging Markets” launched in autumn 2014. The authors are grateful to the Institute of Economic Research of Hitotsubashi University and the Vienna Institute for International Economic Studies (wiiw)—the project’s host organizations—for their considerable support.

The authors also appreciate the Suntory Foundation’s principal sponsorship, which provided financing for workshops and conference presentations conducted within the project’s framework. Additional financial support from the director of the Institute of Economic Research of Hitotsubashi University was useful for carrying out the editorial work and English proofreading of the book. Other financial and organizational support that authors received individually are acknowledged in their chapters.

The editors thank all contributors to this volume for their great efforts and kind collaborations. The editors are also thankful to Veronika Janyrova and Aki Yoshino for their administration of the project and to Tammy Bicket, Akira Ishida, and Mai Shibata for their assistance in preparing the manuscripts. The authors also thank their colleagues and participants in the aforementioned workshops and conferences for their valuable comments and suggestions on the research work published in this book. Those from Vasily Astrov, Mahdi Ghodsi, Doris Hanzl-Weiss, Gabor Hunya, Sandor Richter, and Hermine Vidovic are particularly acknowledged and greatly appreciated. Their involvement in the peer-review process was very

effective in improving the research quality and accuracy of the text contained in this book.

Last but not least, the authors would all like to express thanks to Jacob Dreyer and Jazmine Robles of the editorial staff at Palgrave Macmillan for their kind support and careful coordination, along with production staff Sudha Soundarrajan, Vinoth Kuppan, and Rachel Crawford.
