Contents

1	How Far Can Mitochondrial DNA Drive the Disease?	1
	Hongzhi Sun, Weibin Shi, and Xiangdong Wang	
2	Mitochondrial DNA in Lung Cancer	9
	Fangming Liu, David E. Sanin, and Xiangdong Wang	
3	Approach, Application, and Bioethics of mtDNA Sequencing in Cancer	23
	Mengjia Qian, Claudio Spada, and Xiangdong Wang	
4	Roles of Mitochondrial DNA Signaling in Immune Responses	39
	Lingyan Wang, Michael N. Liebman, and Xiangdong Wang	
5	Mitochondrial DNA in Telocytes	55
	Dongli Song, Dragos Cretoiu, and Xiangdong Wang	
6	Roles of Mitochondrial DNA in Energy Metabolism.	71
	Jiawei Lv, Madhav Bhatia, and Xiangdong Wang	
7	The Role of DNA Repair in Maintaining Mitochondrial DNA Stability.	85
	Linlin Zhang, Aurelio Reyes, and Xiangdong Wang	
8	Is Mitochondrial Cell Fragility a Cell Weakness?	107
	William Wang, Jiayuan Hou, Zhenghua Zhu, and Hao Fang	
9	Mitochondrial DNA Methylation and Related Disease.	117
	Danyan Gao, Bijun Zhu, Hongzhi Sun, and Xiangdong Wang	
10	Beyond Deubiquitylation: USP30-Mediated Regulation of Mitochondrial Homeostasis	133
	Jiayun Hou, Mohammad Eldeeb, and Xiangdong Wang	
11	Metabolic Regulation in Mitochondria and Drug Resistance.	149
	Yue Pan, Min Cao, Jianzhou Liu, Qing Yang, Xiaoyu Miao, Vay Liang W. Go, Paul W. N. Lee, and Gary Guishan Xiao	

12 Mitochondrial Lon Protease and Cancer 173
Bin Lu

**13 Regulatory Roles of Mitochondrial Ribosome in Lung
Diseases and Single Cell Biology 183**
Linlin Zhang, William Wang, Bijun Zhu, and Xiangdong Wang

14 Epithelial Mitochondrial Dysfunction in Lung Disease 201
Linlin Zhang, William Wang, Bijun Zhu, and Xiangdong Wang

15 Significance of Mitochondria DNA Mutations in Diseases 219
Zhenhua Zhu and Xiangdong Wang

About the Editors

Hongzhi Sun, MD, PhD, is a famous surgical specialist in China and the director of the First Affiliated Hospital of Liaoning Medical University. He is the chairman of Surgical Biomaterials Specialized Committee, the vice chairman of Tumor Cell Biology Specialized Committee and Surgical Biological Cell Technology Specialized Committee in Liaoning Cell Biology Society, a member of the Breast Sciences Section of Liaoning Medical Association, the executive director of Liaoning Anticancer Association, the associate editor of the international journal *Molecular and Cellular Therapies*, the

editorial board member of *Chinese Journal of Tissue Engineering Research* and *Clinical Rehabilitation* and Liaoning Medical University newspaper. He hosted seven fund projects and published more than ten scientific papers with the impact factor over 20. His major research is focused on the mechanism of tumorigenesis and progression, invasion and metastasis, and the basic and clinical research of biotherapy of tumor.

Xiangdong Wang, MD, PhD, is a distinguished professor of medicine, director of Shanghai Institute of Clinical Bioinformatics, executive director of Clinical Science Institute of Fudan University Zhongshan Hospital, director of Fudan University Center of Clinical Bioinformatics, deputy director of Shanghai Respiratory Research Institute, and visiting professor of King's College London. His main research is focused on clinical bioinformatics, disease-specific biomarkers, lung chronic diseases, cancer immunology, and molecular and cellular therapies. He is the author of more than 200

scientific publications with the impact factor about 900, citation number about 6918, h-index 46, i10-index 181, and cited journal impact factor about 7000.
