Progress in Cultural Heritage: Documentation, Preservation, and Protection

6th International Conference, EuroMed 2016
Nicosia, Cyprus, October 31 – November 5, 2016
Proceedings, Part I
Welcome to the proceedings of EuromedMed 2016, the biennial scientific event which this year was held in the capital city of Cyprus, the island that has always been a bridge to three continents in the world going back to the origins of civilization. It is a place where the fingerprints of several ancient cultures and civilizations on earth can be found, with a wealth of historical sites recognized and protected by UNESCO.

Several organizations and current EU projects (such as the Marie Sklodowska-Curie Fellowship project on Digital Heritage Marie Sklodowska-Curie FP7-PEOPLE ITN-DCH, the Marie Sklodowska-Curie FP7-IAPP 4D-CH-WORLD, the FP7-CIP ICT-PSP EuropeanaSpace, the H2020 Reflective 7 - INCEPTION, the H2020 CSA Virtual Museums ViMM, the Research Infrastructure DARIAH-EU ERIC and DARIAH-CY) as well as the Innovation in Intelligent Management of Heritage Buildings (i2MHB) decided to join EuroMed2016 and continue cooperating together in order to create an optimal environment for the discussion and explanation of new technologies, the exchange of modern innovative ideas, and in general to allow the transfer of knowledge between a large number of professionals and academics during one common event.

The main goal of the event is to illustrate the programs underway, whether organized by public bodies (e.g., UNESCO, European Union, National States, etc.) or by private foundations (e.g., Getty Foundation, World Heritage Foundation, etc.) in order to promote a common approach to the tasks of recording, documenting, protecting, and managing world cultural heritage. The 6th European-Mediterranean Conference (EuroMed 2016) was definitely a forum for sharing views and experiences, discussing proposals for the optimum approach as well as the best practice and the ideal technical tools to preserve, document, manage, present/visualize and disseminate the rich and diverse cultural heritage of mankind.

This conference was held during the mid-term of the new Framework Programme, Horizon 2020, which is the largest in the world in terms of financial support on research, innovation, technological development, and demonstration activities. The awareness of the value and importance of heritage assets has been reflected in the financing of projects since the first Framework Programme for Research & Technological Development (FP1, 1984–87) and continues into current HORIZON 2020 that follows FP7 (2007–13). In the past 30 years, a large community of researchers, experts, and specialists have had the chance to learn and develop the transferable knowledge and skills needed to inform stakeholders, scholars, and students. Europe has become a leader in heritage documentation, preservation, and protection science, with COST Actions adding value to projects financed within the FP and EUREKA programme and transferring knowledge to practice and supporting the development of SMEs.

The EuroMed 2016 agenda focused on enhancing and strengthening of international and regional cooperation and promoting awareness and tools for future innovative research, development, and applications to protect, preserve, and document the
European and world cultural heritage. Our ambition was to host an exceptional conference by mobilizing also policy makers from different EU countries, institutions (European Commission, European Parliament, Council of Europe, UNESCO, International Committee for Monuments and Sites ICOMOS, the International Committee for Documentation of Cultural Heritage CIPA, the International Society for Photogrammetry and Remote Sensing ISPRS, the International Centre for the study of the Preservation and Restoration of Cultural Property ICCROM, and the International Committee for Museums ICOM), professionals, as well as participants from all over the world and from different scientific areas of cultural heritage.

Protecting, preserving, and presenting our cultural heritage are actions that are frequently interpreted as change management and/or changing the behavior of society. Joint European and international research produce the scientific background and support for such a change. We are living in a period characterized by rapid and remarkable changes in the environment, in society, and in technology. Natural changes, war conflicts, and man-made changes, including climate, as well as technological and societal changes, form an ever-moving and colorful stage and a challenge for our society. Close cooperation between professionals, policy makers, and authorities internationally is necessary for research, development, and technologica advancements in the field of cultural heritage.

Scientific projects in the area of cultural heritage have received national, European Union, or UNESCO funding for more than 30 years. Through financial support and cooperation, major results have been achieved and published in peer-reviewed journals and conference proceedings with the support of professionals from many countries. The European Conferences on Cultural Heritage research and development and in particular the biennial EuroMed conference have become regular milestones on the never-ending journey in the search for new knowledge of our common history and its protection and preservation for the generations to come. EuroMed also provides a unique opportunity to present and review results as well as to draw new inspiration.

To reach this ambitious goal, the topics covered include experiences in the use of innovative technologies and methods and how to take best advantage to integrate the results obtained to build up new tools and/or experiences as well as to improve methodologies for documenting, managing, preserving, and communicating cultural heritage.

In these proceedings we present 105 papers, selected from 504 submissions, which focus on interdisciplinary and multidisciplinary research concerning cutting-edge cultural heritage informatics, physics, chemistry, and engineering and the use of technology for the representation, documentation, archiving, protection, preservation, and communication of cultural heritage knowledge.

Our Keynote speakers, Prof. Dr. Antonia Moropoulou (NTUA and Technical Chamber of Greece), Prof. Dr. Dieter Fellner (Director of FhD/IGD and TU Darmstadt, Germany), Prof. Dr. Wolfgang Kippes (University for Applied Arts Vienna and Donau University Krems, Austria), Prof. Dr. Sarah Whatley (Director of Centre for Dance Research, UK), Prof. Dr. Mustafa Erdik (Bogazici University of Instabul, Turkey), Mr. Jean-Pierre Massué (Senate Member of the European Academy of Sciences and Arts/ COPRNM, France), Mr. Axel Ermert (Institute for Museum Research SMB/PK of Berlin, Germany), Mrs. Rosella Caffo (Director of the Central Institute for the Union
Catalogue of the Italian Libraries (ICCU), Italy), Mr. Vasco Fassina (President of the European Standardization Commission CEN/TC 346: Conservation of Cultural Heritage, Italy), Mrs. Maria P. Kouroupas (Director Cultural Heritage Center, US Department of State), Mrs. France Desmarais (ICOM), Dr. Thomas R. Klein (Counsel, Andrews Kurth LLP), Françoise Bortolotti (Criminal Intelligence Officer, Works of Art Unit, Interpol) and Prof. Dr. Markus Hilgert (Director, Vorderasiatisches Museum im Pergamonmuseum Staatliche Museen zu Berlin - Preußischer Kulturbesitz and Project Leader, ILLICID) are not only experts in their fields, but also visionaries for the future of cultural heritage protection and preservation. They promote the e-documentation and protection of the past in such a way for its preservation for the generations to come.

We extend our thanks to all authors, speakers, and those persons whose labor, financial support, and encouragement made the EuroMed 2016 event possible. The International Program Committee—whose members represent a cross-section of archaeology, physics, chemistry, civil engineering, computer science, graphics and design, library, archive and information science, architecture, surveying, history and museology—worked tenaciously and finished their work on time. The staff of the IT department at the Cyprus University of Technology helped with their local ICT and audio visual support, especially Mr. Filippos Filippou, Mr. Costas Christodoulou, and Mr. Stephanos Mallouris. We would also like to express our gratitude to all the organizations supporting this event and our co-organizers, the European Commission scientific and policy officers of the H2020 Marie Skłodowska-Curie Programme, the director general of Europeana, Mrs. Jill Cousins, the Getty Conservation Institute and World Monuments Fund, the Cyprus University of Technology, the Ministry of Energy, Commerce, Industry, and Tourism. Especially the permanent secretary and Digital Champion Dr. Stelios Himonas and Mr. Nikos Argyris, the Ministry of Education and Culture and particularly Minister Dr. Costas Kadis, the director of Cultural Services Mr. Pavlos Paraskevas, the Department of Antiquities in Cyprus, all the members of the Cypriot National Committee for E-Documentation and E-Preservation in Cultural Heritage, and finally our corporate sponsors, CableNet Ltd., the Cyprus Tourism Organization, the Cyprus Postal Services, the Cyprus Handicraft Center, and Dr. Kyriacos Themistocleous from the Cyprus Remote Sensing Society, who provided services and gifts in kind that made the conference possible.

We express our thanks and appreciation to Dr. Nikos Grammalides from CERTH in Greece and Dr. Sander Münster, the Dresden University of Technology, Germany, as well as the board of the ICOMOS Cyprus Section for their enthusiasm, commitment, and support for the success of this event. Most of all we would like to thank the organizations UNESCO, European Commission, CIPA, ISPRS, and ICOMOS Europa Nostra that entrusted us with the task of organizing and undertaking this unique event.

September 2016

The Icons of the Chapel of Saint Jacob

The icon shown on the cover of LNCS 10058 (Part I) depicts the scene of the Enthroned Virgin Mary with Child together with Saint John the Evangelist, while the icon shown on the cover of LNCS 10059 (Part II) illustrates Jesus Christ on a throne together with Saint John the Baptist. The icons are dated back to 1620 A.D. and were painted by the artist Meletios from Crete. These icons were stolen from the iconostasis of the chapel of Saint Jacob in Trikomo (Famagusta district) after the Turkish invasion of 1974. Saint Jacob’s chapel had no frescoes but it was decorated with colorful plates of traditional folk art.

The icon illustrating Jesus Christ and Saint John the Baptist is $110 \times 128$ cm in size and close to the feet of the latter there is the inscription “ΧΕΙΡ ΜΕΛΕΤΙΟΥ ΤΟΥ ΚΡΙΤΟΣ ΑΧΚ (= 1620) Χ(ριστο) Ἡ. Μ(ηνος) Μνημοσυν(ου),” which includes the name of the artist as well as the date. The icon of Mary, Mother of Jesus, together with Saint John the Evangelist is $114 \times 134$ cm in size. Both of them were in the possession of the Russian–Jewish art dealer Alexander Kocinski, until their confiscation by the Swiss Police in Zurich in 2007. The only documentation available to recover these stolen icons from abroad was a paper published in the Proceedings of the International Cretan Conference in 1976 by the former director of the Department of Antiquities of Cyprus, Mr. Athanasios Papageorgiou.

The icons were tracked down in 2007 in Christie’s Auction House in London, from where they were withdrawn after actions by Kykkos Monastery. Following information by the bishop of Kykkos Monastery, representatives of the monastery traveled to Zurich to meet the owner of the icons; however, it was not possible to persuade him to return the icons to the lawful owners and therefore the authorities of Cyprus were informed. A written complaint by the Byzantinologist of Kykkos Monastery, Dr. C. Chotzakoglou, to the Cypriot Police and to Interpol in Cyprus initiated the repatriation procedure of the icons, eventually leading to their confiscation by the Swiss Interpol.

By means of a new testimony from Dr. C. Chotzakoglou, in addition to a full documentation of the Cypriot origin of the icons and their looting after the Turkish invasion in northern Cyprus, the Supreme Court of Famagusta, based in Larnaca, took legal measures against the owner of the icons, who was convicted. The verdict of the Cypriot Supreme Court was subsequently used in the Swiss Court, leading to the signing of a compromise settlement between the Church of Cyprus and Kocinski for the return of the icons to Cyprus.

*Marinos Ioannides, Charalabos Ioannidis, Archimadrite Neophyto Enkleistriotis, David Castrillo, Pavlos Chatzigrigoriou, Eirini Papageorgiou, Georgios Leventis, Vasiliki Nikolakopoulou, Vasilis Athanasiou, Fotis Bourexis, Sofia Soile, Styliani Verykokou, Maria Costi de Castrillo, and Christian Sovis*
Project Paper: Data, Metadata, Semantics and Ontologies in Cultural Heritage

First Experiences of Applying a Model Classification for Digital 3D Reconstruction in the Context of Humanities Research. .......................... 477
Sander Münster, Cindy Kröber, Wolfgang Hegel, Mieke Pfarr-Harfst, Nikolas Prechtel, Rainer Uhlemann, and Frank Henze

Digital Preservation of Cultural Heritage: Balinese Kulkul Artefact and Practices ........................................ 491
Cokorda Pramartha and Joseph G. Davis

Interconnecting Objects, Visitors, Sites and (Hi)Stories Across Cultural and Historical Concepts: The CrossCult Project .................................. 501
Costas Vassilakis, Angeliki Antoniou, George Lepouras, Manolis Wallace, Ioanna Lykourentzou, and Yannick Naudet

Project Paper: 3D Reconstruction and 3D Modelling

Debate and Considerations on Using Videos for Cultural Heritage from Social Media for 3D Modelling. ................................. 513
Kyriacos Themistocleous

Investigations of Low-Cost Systems for 3D Reconstruction of Small Objects ................................................................. 521
Thomas P. Kersten, Daniel Omelanowsky, and Maren Lindstaedt

Digital Documentation: Villa Borghese ........................................ 533
Martina Attenni, Cristiana Bartolomei, and Alfonso Ippolito

Digital 3D Reconstructed Models – Structuring Visualisation

Project Workflows ................................................................. 544
Mieke Pfarr-Harfst and Stefanie Wefers

Reconstruction of Wooden “Polish Manor” .................................. 556
Anna Rozanska and Wojciech Köryciński

Project Paper: Heritage Building Information Models (HBIM)

Digital Tools for Heritage Preservation and Enhancement: The Integration of Processes and Technologies on 20th Century Buildings in Brazil and India ........................................................................ 567
Luca Rossato

From Integrated Survey to the Parametric Modeling of Degradations. A Feasible Workflow ......................................................... 579
Massimiliano Lo Turco, Federico Caputo, and Gabriele Fusaro
INCEPTION Standard for Heritage BIM Models. .......................... 590

Peter Bonsma, Iveta Bonsma, Anna Elisabetta Ziri, Silvia Parenti,
Pedro Martín Lerones, José Luis Hernández, Federica Maietti,
Marco Medici, Beatrice Turillazzi, and Ernesto Iadanza

From SFM to Semantic-Aware BIM Objects of Architectural Elements .... 600
Massimiliano Lo Turco and Cettina Santagati

**Project Paper: Novel Approaches to Landscapes in Cultural Heritage**

Observing Landscape Changes Around the Nicosia Old Town Center
Using Multi-temporal Datasets ................................................... 615

Branka Cuca, Athos Agapiou, and Diofantos G. Hadjimitsis

Towards the Sustainable Development of Cultural Landscapes
Through Two Case Studies on Different Scale ............................... 625

Eirini Papageorgiou

The Fortification System of the City of Urbino: The Case Study of Valbona
Gate from 3D Surveys to GIS Applications for Dynamic Maps. ........... 645

Sara Bertozzi, Laura Baratin, and Elvio Moretti

**Project Paper: Innovative Methods on Risk Assessment, Monitoring
and Protection of Cultural Heritage**

Disaster-Risk Indicators and Their Evaluation, Communication
for Traditional Settlement .......................................................... 659

Alex Ya-Ning Yen and Chin-Fang Cheng

Pervasive Wireless Sensor Networks for the Monitoring of Large
Monumental Structures: The Case of the Ancient City Walls of Siena .... 669

Alessandro Pozzebon, Tommaso Addabbo, Ada Fort, Marco Mugnaini,
Enza Panzardi, and Valerio Vignoli

**Project Paper: Digital Applications for Materials’ Preservation
and Conservation in Cultural Heritage**

The SACRE Project: A Diagnosis Tool of Built Heritage. .................. 681

Sarah Janvier-Badosa, Kévin Beck, Xavier Brunetaud,
and Muzahim Al-Mukhtar

Pigments Identification Using Raman Spectroscopy of the 16th Century
Printed Book “Osorio” ............................................................. 691

Igor Lukačević, Theodore Ganetsos, and Thomas Katsaros
### Design and Application of a Data System for the Comparative Study of Historic Mortars

**Vasiliki Pachta and Ioanna Papayianni**  
701

### GIS Applications for a New Approach to the Analysis of Panel Paintings

**Laura Baratin, Sara Bertozzi, Elvio Moretti, and Roberto Saccuman**  
711

### Project Paper: Visualisation, VR and AR Methods and Applications

- ‘Translation’ and Fruition of an Ancient Book Through Virtual Reality in the Case of Lost Cultural Heritage: Case Study: ‘*Inscriptiones*’
  - **Sanaz Davardoust, Anna Osello, and Rosa Tamborrino**  
  727

- An Interdisciplinary Study on the Ancient Egyptian Wines: The Egywine Project
  - **Maria Rosa Guasch-Jané**  
  737

- ArchaeoInside: Multimodal Visualization of Augmented Reality and Interaction with Archaeological Artifacts
  - **Kadar Manuella and Domsa Ovidiu**  
  749

- DICE: Digital Immersive Cultural Environment
  - **Stelios C.A. Thomopoulos, Adam Doulgerakis, Maria Bessa, Konstantinos Dimitros, Giorgos Farazis, Efthelia Georgiou, Tassos Kanellos, Christina Karafylli, Maria Karafylli, Dimitris M. Kyriazanos, Vassilios I. Kountouriotis, Vassilis Lampropoulos, Christos Margonis, Christos Maroglou, Dionisis Motos, Alexandra Papagianni, Manolis Paterakis, Katerina Skroumpelou, Giorgos Konstantinos Thanos, Ino-Eleni Theodorou, Christina Phoebe Thomopoulos, Panagiotis Tsimpliridis, Dimitris Zacharakis, and Andreas Zalonis**  
  758

### Project Paper: The New Era of Museums and Exhibitions: Digital Engagement and Dissemination

- Imaging Novecento. A Mobile App for Automatic Recognition of Artworks and Transfer of Artistic Styles
  - **Federico Becattini, Andrea Ferracani, Lea Landucci, Daniele Pezzatini, Tiberio Uricchio, and Alberto Del Bimbo**  
  781

- Towards the Design of a User-Friendly and Trustworthy Mobile System for Museums
  - **Kostas Koukoulis and Dimitrios Koukopulos**  
  792
**Project Paper: Serious Games for Cultural Heritage**

Project iMARECULTURE: Advanced VR, iMmersive Serious Games and Augmented REality as Tools to Raise Awareness and Access to European Underwater CULTURal heritage.  

Immersivity and Playability Evaluation of a Game Experience in Cultural Heritage.  
Roberto Andreoli, Angela Corolla, Armando Faggiano, Delfina Malandrino, Donato Pirozzi, Mirta Ranaldi, Gianluca Santangelo, and Vittorio Scarano

Tirolcraft: The Quest of Children to Playing the Role of Planners at a Heritage Protected Town.  
Bruno Amaral de Andrade, Ítalo Sousa de Sena, and Ana Clara Mourão Moura

Pervasive Game Utilizing WiFi Fingerprinting-based Localization.  
Filip Maly, Pavel Kriz, and Michael Adamec

**Project Paper: Digital Cultural Heritage in Education, Learning and Training**

ErfgoedApp: An Educational Experiment with Augmented Reality, Cityscapes and Campusscapes in Brussels.  
Marc Jacobs, Morien Schroyen, and Joke Vanderschoot

Contextualizing 3D Cultural Heritage.  
James Lloyd

Laura Inzerillo and Cettina Santagati

Training Schools for Conservation of Cultural Heritage: Between Expertise, Management and Education.  
Anna Lobovikov-Katz, Gumersindo Bueno Benito, Vanesa Marcos Sánchez, Joao Martins, and Dalik Sojref

Educational Creative Use and Reuse of Digital Cultural Heritage Data for Cypriot UNESCO Monuments.  
Marinos Ioannides, Pavlos Chatzigrigoriou, Vasilis Bokolas, Vasiliki Nikolakopoulou, Vasilis Athanasiou, Eirini Papageorgiou, Georgios Leventis, and Christian Sovis
Time-Travelling with Mobile Augmented Reality: A Case Study
on the Piazza dei Miracoli ........................................... 902
  Mihai Duguleana, Raffaello Brodi, Florin Girbacia, Cristian Postelnicu,
  Octavian Machidon, and Marcello Carrozzino

Author Index ................................................................. 913
Contents – Part II

Data Acquisition, Process and Management in Cultural Heritage

Development of Photogrammetric Documentation of the Borough at Biskupin Based on Archival Photographs - First Results. D. Zawieska and J. Markiewicz 3

Capturing Our Cultural Intangible Textile Heritage, MoCap and Craft Technology. Eva Andersson Strand, Stefan Lindgren, and Carolina Larsson 10

CH Digital Documentation and 3D Survey to Foster the European Integration Process: The Case Study of Geguti Palace in Kutaisi, Georgia Marco Medici, Federico Ferrari, Nana Kuprashvili, Tamar Meliva, and Nino Bugadze 16

Data, Metadata, Semantics and Ontologies in Cultural Heritage

Applying Deep Learning Techniques to Cultural Heritage Images Within the INCEPTION Project. Jose Llamas, Pedro M. Lerones, Eduardo Zalama, and Jaime Gómez-García-Bermejo 25

Reaching the World Through Free Licenses and Wikimedia’s Crowdsourced Platforms. John Andersson 33

3D Reconstruction and 3D Modelling

Definition of a Workflow for Web Browsing of 3D Models in Archaeology. A. Scianna, M. La Guardia, and M.L. Scaduto 41

Novel Approaches to Landscapes in Cultural Heritage

A GIS Database of Montenegrin Katuns (Kuči Mountain and Durmitor) .......... 72
   Olga Pelcer-Vujačić and Sandra Kovačević

Future Development Plans for Conservation Areas in Taiwan ......................... 81
   Tung-Ming Lee and Alex Yaning Yen

Innovative Methods on Risk Assessment, Monitoring and Protection of Cultural Heritage

The Protection of Cultural Heritage Sites from Geo-Hazards: The PROTHEGO Project .................................................. 91
   Kyriacos Themistocleous, Branka Cuca, Athos Agapiou,
   Vasiliki Lysandrou, Marios Tzouvaras, Diofantos G. Hadjimitsis,
   Phaedon Kyriakides, Demetris Kouhartsiok, Claudio Margottini,
   Daniele Spizzichino, Francesca Cigna, Giovanni Crosta, Paolo Frattini,
   and José Antonio Fernandez Merodo

   N. Masini, F.T. Gizzi, M. Biscione, M. Danese, A. Pecci, M.R. Potenza,
   M. Scavone, and M. Sileo

Intangible Cultural Heritage Documentation

The Europeana Sounds Music Information Retrieval Pilot ......................... 109
   Alexander Schindler, Sergiu Gordea, and Harry van Biessum

The Culture of Epigraphy: From Historic Breakthrough to Digital Success ... 118
   Pantelis Nigdelis, Vassilis Bokolas, Nikoleta Vouronikou,
   and Pavlos Anagnostoudis

Exploiting Agriculture as an Intangible Cultural Heritage: The Case of the Farfalla Project .................................................. 130
   Alessandro Pozzebon and Andrea Ciacci

Digital Applications for Materials’ Preservation and Conservation in Cultural Heritage

Application of Digital Technologies in the Restoration of Historic Buildings
   and Heritage Objects: A Selection of Practical Examples ..................... 141
   Yves Vanhellemont, Michael de Bouw, Liesbeth Dekeyser,
   Samuel Dubois, Simon Vermeir, Peter Van Damme,
   and Joeri-Aleksander Van der Have

Conservation and Valorization of Heritage Ethnographic Textiles ............... 151
   A. Ispas, C. Popescu, G. Roșu, H.C. Rădulescu, H. Fischer, P. Roedel,
   M. Dinu, and R. Radvan
Preservation and Valorisation of Morocco’s Ancient Heritage: Volubilis

Muzahim Al-Mukhtar, Ali Chaaba, Mustapha Atki, Rachida Mahjoubi, Remi Deleplancque, Kévin Beck, Xavier Brunetaud, Romain Janvier, Khalid Cherkaoui, Issam Aalil, Dalal Badreddine, and Ayda Sakali

Visualisation, VR and AR Methods and Applications

Experiencing Cultural Heritage Sites Using 3D Modeling for the Visually Impaired

Kyriacos Themistocleous, Athos Agapiou, and Diofantos G. Hadjimitsis

Multimedia Interactive Map for CH Presentation

Nicola Maiellaro and Antonietta Varasano

Interactive Scalable Visualizations of Cultural Heritage for Distance Access

Sven Ubik and Jiří Kubišta

Differences of Field Dependent/Independent Gamers on Cultural Heritage Playing: Preliminary Findings of an Eye–Tracking Study

George E. Raptis, Christos A. Fidas, and Nikolaos M. Avouris

The New Era of Museums and Exhibitions: Digital Engagement and Dissemination

Digital Technologies in the Museum: Same Old, Same Old?

Inge Kalle-den Oudsten

A Personal Tour of Cultural Heritage for Deaf Museum Visitors

Vaso Constantinou, Fernando Loizides, and Andri Ioannou

SigNet: A Digital Platform for Hellenistic Sealings and Archives

Stefano G. Caneva and Branko F. van Oppen

Places Speaking with Their Own Voices. A Case Study from the Gra.fo Archives

Alessandro Pozzebon, Francesca Biliotti, and Silvia Calamai

Paintings Alive: A Virtual Reality-Based Approach for Enhancing the User Experience of Art Gallery Visitors

Stavros Panayiotou and Andreas Lanitis

Digital Documentation and Digital Prototyping of Sacred Artwork of Museum Museu Mineiro - Brazil

Altino Barbosa Caldeira and Silvio Romero Fonseca Motta
Parian Marble: A Virtual Multimodal Museum Project. .......................... 256
  Marinos Ioannides, Pavlos Chatzigrigoriou, Vasiliki Nikolakopoulou,
  Georgios Leventis, Eirini Papageorgiou, Vasilis Athanasiou,
  and Christian Sovis

Immersive Digital Heritage Experience with the Use
of Interactive Technology. .......................................................... 265
  Marinos Ioannides, Vasilis Athanasiou, Pavlos Chatzigrigoriou,
  Eirini Papageorgiou, Georgios Leventis, Vasiliki Nikolakopoulou,
  and Christian Sovis

Digital Cultural Heritage in Education, Learning and Training

Establishing a Remote Sensing Science Center in Cyprus: First Year
of Activities of ATHENA Project ............................................ 275
  Diofantos Hadjimitsis, Athos Agapiou, Vasiliki Lysandrou,
  Kyriacos Themistocleous, Branka Cuca, Argyro Nisantzi,
  Rosa Lasaponara, Nicola Masini, Marilisa Biscione, Gabriele Nolè,
  Ramon Brúc, Daniele Cerra, Michael Eineder, Ursula Gessner,
  Thomas Krauss, and Gunter Schreier

The Contribution of Digital Technologies to the Mediation
of the Conservation-Restoration of Cultural Heritage ...................... 283
  Clément Serain
