Advances in Services Computing

10th Asia-Pacific Services Computing Conference, APSCC 2016
Zhangjiajie, China, November 16–18, 2016
Proceedings
Welcome to the proceedings of the 10th International Conference on Asia-Pacific Services Computing (APSCC 2016), which was jointly organized by Central South University, Guangzhou University, Jishou University, and North China University of Technology.

APSCC 2016 was held in Zhangjiajie, China, during November 16–18, 2016. The conference aims at bringing together researchers and practitioners from both academia and industry who are working on services computing, cloud computing, big data, and social/peer-to-peer/mobile/ubiquitous/pervasive computing. APSCC is an important forum in which to exchange information regarding advances in the state of the art and practice of IT/telecommunication-driven business services and application services, as well as to identify emerging research topics and define the future directions of services computing. Previous APSCC conferences were held in Guangzhou, China (2006), Tsukuba Science City, Japan (2007), Yilan, Taiwan, China (2008), Biopolis, Singapore (2009), Hangzhou, China (2010), Jeju, Korea (2011), Guilin, China (2012), Fuzhou, China (2014), and Bangkok, Thailand (2015).

As a premier conference on services computing, APSCC 2016 received research papers on related research areas from all around the world. This year we received 107 submissions for the main conference. These manuscripts underwent a rigorous peer-review process with at least three reviewers per paper. According to the review results, 38 papers were selected for oral presentation at the conference, giving an acceptance rate of 35.5%.

We would like to offer our gratitude to Prof. Hai Jin from Huazhong University of Science and Technology, China, and Dr. Liang-Jie Zhang from Kingdee International Software Group Company Limited, China, the Steering Committee chairs, for leading the conference and guiding its course. We are also indebted to the Program Committee members and the external reviewers, who contributed their valuable time and expertise to provide professional reviews working under a very tight schedule. Thanks also go to the conference secretariat, Dr. Chen Liu from North China University of Technology, for assembling an excellent Program Committee to expertly manage the paper reviewing and selection process.

Thanks also go to: the publicity chairs, Dr. Peter Mueller, Dr. Md. Zakirul Alam Bhuiyan, and Dr. Wenbin Jiang; the publication chair, Dr. Wenjun Jiang; the organization chairs, Prof. Fang Qi, Dr. Xiaofei Xing, Prof. Qingping Zhou; the registration Chair, Ms. Pin Liu; the conference secretariat, Dr. Chen Liu; and our Webmaster, Ms. Shan Peng.

We also take this opportunity to thank all the authors, participants, and session chairs for their efforts, many of whom traveled long distances to attend this conference and make their valuable contributions. Last but not least, we are very grateful to our keynote speakers who kindly accepted our invitation to give insightful talks.
Finally, we sincerely hope that the conference provided a very good opportunity for attendees to learn from each other. Enjoy the conference proceedings.
