The Smart Innovation, Systems and Technologies book series encompasses the topics of knowledge, intelligence, innovation and sustainability. The aim of the series is to make available a platform for the publication of books on all aspects of single and multi-disciplinary research on these themes in order to make the latest results available in a readily-accessible form. Volumes on interdisciplinary research combining two or more of these areas is particularly sought.

The series covers systems and paradigms that employ knowledge and intelligence in a broad sense. Its scope is systems having embedded knowledge and intelligence, which may be applied to the solution of world problems in industry, the environment and the community. It also focusses on the knowledge-transfer methodologies and innovation strategies employed to make this happen effectively. The combination of intelligent systems tools and a broad range of applications introduces a need for a synergy of disciplines from science, technology, business and the humanities. The series will include conference proceedings, edited collections, monographs, handbooks, reference books, and other relevant types of book in areas of science and technology where smart systems and technologies can offer innovative solutions.

High quality content is an essential feature for all book proposals accepted for the series. It is expected that editors of all accepted volumes will ensure that contributions are subjected to an appropriate level of reviewing process and adhere to KES quality principles.

More information about this series at http://www.springer.com/series/8767
Preface

Welcome to the 13th International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2017), which will be held in Matsue, Shimane, Japan, on August 12–15, 2017. IIH-MSP 2017 is hosted by Universiti Teknologi PETRONAS in Malaysia and technically co-sponsored by Fujian University of Technology in China, Taiwan Association for Web Intelligence Consortium in Taiwan, Swinburne University of Technology in Australia, Fujian Provincial Key Laboratory of Big Data Mining and Applications (Fujian University of Technology) in China, and Harbin Institute of Technology Shenzhen Graduate School in China. It aims to bring together researchers, engineers, and policymakers to discuss the related techniques, to exchange research ideas, and to make friends.

We received a total of 321 submissions from Europe, Asia, and Oceania over places including Taiwan, Thailand, Turkey, Korea, Japan, India, China, and Australia. Finally, 103 papers are accepted after the review process. Keynote speeches were kindly provided by Professor Zhiyong Liu (The Institute of Computing Technology, Chinese Academy of Sciences, Beijing, China) on “Cryo-ET Data Processing and Bio-Macromolecule 3-D Reconstruction” and Professor Takashi Nose (Tohoku University, Japan) on “Flexible, Personalized, and Expressive Speech Synthesis Based on Statistical Approaches.” All the above speakers are leading experts in related research fields.

We would like to thank the authors for their tremendous contributions. We would also express our sincere appreciation to the reviewers, Program Committee members, and the Local Committee members for making this conference successful. Finally, we would like to express special thanks to the Universiti Teknologi PETRONAS in Malaysia, Fujian University of Technology in China, Swinburne University of Technology in Australia, Taiwan Association for Web Intelligence Consortium in Taiwan, and Harbin Institute of Technology Shenzhen Graduate School in China.
Graduate School in China for their generous support in making IIH-MSP 2017 possible.

August 2017

Jeng-Shyang Pan
Pei-Wei Tsai
Junzo Watada
Lakhmi C. Jain
Conference Organization

Conference Founders

Jeng-Shyang Pan  
Fujian University of Technology, China

Lakhmi C. Jain  
University of Canberra, Australia  
and Bournemouth University, UK

Honorary Chairs

Lakhmi C. Jain  
University of Canberra, Australia  
and Bournemouth University, UK

Chin-Chen Chang  
Feng Chia University, Taiwan

Advisory Committee

Yôiti Suzuki  
Tohoku University, Japan

Bin-Yih Liao  
National Kaohsiung Univ. of Applied Sciences,  
Taiwan

Kebin Jia  
Beijing University of Technology, China

Yao Zhao  
Beijing Jiaotong University, China

Ioannis Pitas  
Aristotle University of Thessaloniki, Greece

General Chairs

Junzo Watada  
Universiti Teknologi PETRONAS, Malaysia

Jeng-Shyang Pan  
Fujian University of Technology, China
Program Chairs

Akinori Ito
Tohoku University, Japan
Pei-Wei Tsai
Swinburne University of Technology, Australia

Invited Session Chairs

Isao Echizen
National Institute of Informatics, Japan
Ching-Yu Yang
National Penghu University of Science and Technology, Taiwan
Hsiang-Cheh Huang
National University of Kaohsiung, Taiwan
Xingsi Xue
University of Birmingham, UK

Publication Chairs

Chin-Feng Lee
Chaoyang University of Technology, Taiwan
Tsu-Yang Wu
Fujian University of Technology, China
Chien-Ming Chen
Harbin Institute of Technology Shenzhen Graduate School, China

Electronic Media Chairs

Tien-Wen Sung
Fujian University of Technology, China
Jerry Chun-Wei Lin
Harbin Institute of Technology Shenzhen Graduate School, China

Finance Chair

Jui-Fang Chang
National Kaohsiung University of Applied Sciences, Taiwan

Program Committee Members

Toshiyuki Amano
Nagoya Institute of Technology, Japan
Supavadee Aramvith
Chulalongkorn University, Thailand
Christoph Busch
Gjøvik University College, Norway
Canhui Cai
Hua-Qiao University, China
Patrizio Campisi
University of Roma TRE, Italy
Turgay Celik
National University of Singapore, Singapore
