China: A Historical Geography of the Urban
This book grew out of two consecutive sessions titled ‘Urban Historical Geography of China’ that we organized for the 16th International Conference of Historical Geographers (ICHG), held during July 5–10, 2015, in London. A follow-up workshop was held on May 14, 2016, in Shanghai. We had been able to bring together a small and interdisciplinary group of scholars from across the globe to work on this topic. Our gratitude goes to them for their contribution, patience, and flexibility towards this book project. We would also like to thank our editor at Palgrave, Joanna O’Neill, for her professional support in every step of the manuscript preparing work. Many thanks go to our families and friends for their encouragement and support that made this book possible.

This book benefited from the financial support that we received from the National Natural Science Foundation of China (NSFC No. 41501153) and the Ministry of Education of China (grant No. 10JJD770003).
Contents

1 Introduction
   Yannan Ding

Part I  Nation and City

2 Shanghai Parks in the Second Half of the Nineteenth Century: Architectural and Cultural Exchanges Between the East and the West
   Hsiu-Ling Kuo

3 A City of Workers, a City for Workers? Remaking Beijing Urban Space in the Early PRC
   Fabio Lanza

4 Changchun Across 1949: Rebuilding a Colonial Capital City Under Socialism in the Early 1950s
   Yishi Liu
### Contents

#### Part II  Mediating History and Modernity
