The series “Advances in Intelligent Systems and Computing” contains publications on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Virtually all disciplines such as engineering, natural sciences, computer and information science, ICT, economics, business, e-commerce, environment, healthcare, life science are covered. The list of topics spans all the areas of modern intelligent systems and computing such as: computational intelligence, soft computing including neural networks, fuzzy systems, evolutionary computing and the fusion of these paradigms, social intelligence, ambient intelligence, computational neuroscience, artificial life, virtual worlds and society, cognitive science and systems, Perception and Vision, DNA and immune based systems, self-organizing and adaptive systems, e-Learning and teaching, human-centered and human-centric computing, recommender systems, intelligent control, robotics and mechatronics including human-machine teaming, knowledge-based paradigms, learning paradigms, machine ethics, intelligent data analysis, knowledge management, intelligent agents, intelligent decision making and support, intelligent network security, trust management, interactive entertainment, Web intelligence and multimedia.

The publications within “Advances in Intelligent Systems and Computing” are primarily proceedings of important conferences, symposia and congresses. They cover significant recent developments in the field, both of a foundational and applicable character. An important characteristic feature of the series is the short publication time and world-wide distribution. This permits a rapid and broad dissemination of research results.

Cybernetics and Algorithms in Intelligent Systems

Proceedings of 7th Computer Science On-line Conference 2018, Volume 3
This book constitutes the refereed proceedings of the modern trends, and approaches of artificial intelligence research and its application to intelligent systems are presented in this book. Paper discusses hybridization of algorithms, new trends in neural networks, optimization algorithms, and real-life issues related to artificial method application.

This book constitutes the refereed proceedings of the Artificial Intelligence and Algorithms in Intelligent Systems of the 7th Computer Science On-line Conference 2018 (CSOC 2018), held online in April 2018.

CSOC 2018 has received (all sections) 265 submissions, 141 of them were accepted for publication. More than 60% of accepted submissions were received from Europe, 30% from Asia, 5% from Africa, and 5% from America. Researches from 30 countries participated in CSOC 2018 conference.

CSOC 2018 conference intends to provide an international forum for the discussion of the latest high-quality research results in all areas related to computer science. The addressed topics are the theoretical aspects and applications of computer science, artificial intelligence, cybernetics, automation control theory, and software engineering.

Computer Science On-line Conference is held online, and modern communication technology, which is broadly used, improves the traditional concept of scientific conferences. It brings equal opportunity to participate in all researchers around the world.

I believe that you will find the following proceedings interesting and useful for your own research work.

March 2018  
Radek Silhavy  
Editor
Organization

Program Committee

Program Committee Chairs

Petr Silhavy | Tomas Bata University in Zlin, Faculty of Applied Informatics
Radek Silhavy | Tomas Bata University in Zlin, Faculty of Applied Informatics
Zdenka Prokopova | Tomas Bata University in Zlin, Faculty of Applied Informatics
Roman Senkerik | Tomas Bata University in Zlin, Faculty of Applied Informatics
Roman Prokop | Tomas Bata University in Zlin, Faculty of Applied Informatics
Viacheslav Zelentsov | Doctor of Engineering Sciences, Chief Researcher of St. Petersburg Institute for Informatics and Automation of Russian Academy of Sciences (SPIIRAS)

Program Committee Members

Boguslaw Cyganek | Department of Computer Science, University of Science and Technology, Krakow, Poland
Krzysztof Okarma | Faculty of Electrical Engineering, West Pomeranian University of Technology, Szczecin, Poland
Monika Bakosova | Institute of Information Engineering, Automation and Mathematics, Slovak University of Technology, Bratislava, Slovak Republic
Pavel Vaclavek  
Faculty of Electrical Engineering and Communication,  
Brno University of Technology, Brno,  
Czech Republic

Miroslaw Ochodek  
Faculty of Computing, Poznan University of Technology, Poznan, Poland

Olga Brovkina  
Global Change Research Centre Academy of Science of the Czech Republic, Brno, Czech Republic and Mendel University of Brno, Czech Republic

Elarbi Badidi  
College of Information Technology, United Arab Emirates University, Al Ain, United Arab Emirates

Luis Alberto Morales Rosales  
Head of the Master Program in Computer Science, Superior Technological Institute of Misanlta, Mexico

Mariana Lobato Baes  
Superior Technological of Libres, Mexico

Abdessattar Chaâri  
Laboratory of Sciences and Techniques of Automatic control and Computer engineering, University of Sfax, Tunisian Republic

Gopal Sakarkar  
Shri. Ramdeobaba College of Engineering and Management, Republic of India

V. V. Krishna Maddinala  
GD Rungta College of Engineering & Technology, Republic of India

Anand N. Kho bragade  
Maharashtra Remote Sensing Applications Centre, Republic of India

Abdallah Handoura  
Computer and Communication Laboratory, Telecom Bretagne, France

Technical Program Committee Members

Ivo Bukovsky  
Roman Senkerik

Maciej Majewski  
Petr Silhavy

Miroslaw Ochodek  
Radek Silhavy

Bronislav Chramcov  
Jiri Vojtesek

Eric Afful Dazie  
Eva Volna

Michal Bliznak  
Janez Brest

Donald Davendra  
Ales Zamuda

Radim Farana  
Roman Prokop

Martin Kotyrba  
Boguslaw Cyganek

Erik Kral  
Krzysztof Okarma

David Malanik  
Monika Bakosova

Michal Pluhacek  
Pavel Vaclavek

Zdenka Prokopova  
Olga Brovkina

Martin Sysel  
Elarbi Badidi
Organizing Committee Chair

Radek Silhavy  
Tomas Bata University in Zlin, Faculty of Applied Informatics
