Preface

The biennial PAKM Conference Series offers a communication platform and meeting ground for practitioners and researchers involved in developing and deploying advanced business solutions for the management of knowledge in organizations. PAKM is a forum for people to share their views, exchange ideas, develop new insights, and envision completely new kinds of knowledge management solutions.

PAKM 2006, the Sixth International Conference on Practical Aspects of Knowledge Management, was held again in Vienna. It was a milestone for two reasons: First, it marked an anniversary – 10 years of PAKM conferences. The first conference was held in Basel, Switzerland, in 1996, followed by the conferences in 1998 and 2000, in Basel as well. After that PAKM moved to Vienna where it was held in 2002, 2004, and 2006.

Secondly, from now on PAKM will be “on tour”: It will be organized by different people and be hosted at different places all over the world. The PAKM Steering Committee will be responsible for selecting the conference chairs and the conference locations. The Steering Committee will also be responsible for the direction the PAKM conferences will take and will ensure their continuing high quality.

For this year’s conference we received 123 submissions from 30 countries. Based on the reviews by the members of the Program Committee and the additional reviewers, 29 papers were selected. They cover a great variety of approaches to knowledge management, which tackle the topic from many different angles. It is this very diversity that makes PAKM unique, while at the same time focussing on the one issue of managing knowledge within organizations.

Many people were involved in setting up PAKM 2006. We would like to express our warm thanks to everybody who contributed to making it a success. First of all, this includes all the authors who submitted a paper to the review process, the members of the Program Committee and the additional reviewers who made such an effort to select the best papers and to ensure a high-quality program. Our thanks also go to Xiulian Benesch, who was responsible for all the organizational work and the University of Vienna for providing an excellent environment for the conference.

November 2006

Ulrich Reimer
Dimitris Karagiannis
Organization

Program Chairs

Ulrich Reimer, University of Applied Sciences, St. Gallen, Switzerland
Dimitris Karagiannis, University of Vienna, Austria

Program Committee

Irma Becerra-Fernandez, Florida International University, USA
Xavier Boucher, Ecole des Mines de St. Etienne, France
John Davies, British Telecom, UK
Kemal A. Delic, Hewlett-Packard, France
Juan Manuel Dodero, University Carlos III Madrid, Spain
Johann Eder, University of Vienna, Austria
Joaquim Filipe, Escola Superior de Tecnologia Setubal, Portugal
Thomas Fischer, DITF Denkendorf, Germany
Naoki Fukuta, Shizuoka University, Japan
Aldo Gangemi, ISTC, Italy
Ulrich Geske, Fraunhofer Gesellschaft FIRST, Germany
Enrico Giunchiglia, Universita di Genova, Italy
Norbert Gronau, University of Potsdam, Germany
Knut Hinkelmann, University of Applied Sciences Nordwestschweiz, Switzerland
Hans Hinterhuber, University of Innsbruck, Austria
Achim Hoffmann, University of New South Wales, Australia
Byeong Ho Kang, University of Tasmania, Australia
Noriaki Izumi, AIST, Japan
Manfred Jeusfeld, University of Tilburg, Netherlands
IIju Kiringa, University of Ottawa, Canada
Niklaus Klaentschi, EMPA, Switzerland
Edith Maier, University of Applied Sciences St. Gallen, Switzerland
Vladimir Marik, Czech Technical University, Czech Republic
Frank Maurer, University of Calgary, Canada
Hermann Maurer, Technical University of Graz, Austria
Heinrich Mayr, University of Klagenfurt, Austria
Michele Missikoff, Italian National Research Council, Italy
Katharina Morik, University of Dortmund, Germany
Nicos Mylonopoulos, ALBA, Greece
Alun Preece, University of Aberdeen, UK
Peter Reimann, University of Sydney, Australia
Debbie Richards, Macquarie University, Australia
Bodo Rieger, University of Osnabrueck, Germany
VIII Organization

Marcin Sikorski, Gdansk University of Technology, Poland
Marcus Spies, Munich University, Germany
Steffen Staab, University of Koblenz-Landau, Germany
Rudi Studer, University of Karlsruhe, Germany
Ulrich Thiel, Fraunhofer Gesellschaft, Germany
A Min Tjoa, Technical University of Vienna, Austria
Klaus Tochtermann, I-Know Center Graz, Austria
Robert Trappl, Medical University of Vienna, Austria
Eric Tsui, Hong Kong Polytechnic University, China
Roland Wagner, Johannes Kepler University Linz, Austria
Fritjof Weber, EADS, Germany
Mary-Anne Williams, University of Technology Sidney, Australia
Takahira Yamaguchi, Keio University, Japan

Additional Reviewers

Anupriya Ankolekar
Richard Arndt
G. Barchiesi
Martine Collard
Olivier Corby
Klaas Dellschaft
Timm Euler
Daniela Feldkamp
Thomas Franz
Olaf Goerlitz
Arvind Gudi
Hans-Jörg Happel
Benjamin Johnston
Ingo Mierswa
Antonio De Nicola
Simon Nikles
Valentina Presutti
Jose Rocha
Carsten Saathoff
Federica Schiappelli
Sergej Sizov
Max Völkel
Johanna Voelker
Valentin Zacharias
# Table of Contents

  Amin Anjomshoaa, Tho Manh Nguyen, Ferial Shayeganfar,  
  A Min Tjoa

Activation of Knowledge in an Integrated Business Process Support/Knowledge Management System .............................. 13  
  Ilia Bider, Lena Johansson, Erik Perjons, Alexey Striy

Innovation Management in a Multi-national Corporation’s Subsidiary of Ireland’s Evolving Knowledge Economy ................... 25  
  Gabriel J. Costello, Brian Donnellan, Michael L. Ginn,  
  Colm Rochford, Eoin Whelan, Susanna Xu

Ontology-Based Business Knowledge for Simulating Threats to Corporate Assets ......................................................... 37  
  Andreas Ekelhart, Stefan Fenz, Markus D. Klemen, A Min Tjoa,  
  Edgar R. Weippl

Knowledge Work Productivity: Where to Start ......................... 49  
  Sebastian Eschenbach, Doris Riedl, Bettina Schauer

Taba Workstation: Supporting Technical Solution Through Knowledge Management of Design Rationale .......................... 61  
  Sávio Figueiredo, Gleison Santos, Mariano Montoni,  
  Ana Regina Rocha, Andréa Barreto, Ahilton Barreto,  
  Analia Ferreira

Extraction and Analysis of Knowledge Worker Activities on Intranet 73  
  Peter Géczy, Noriaki Izumi, Shotaro Akaho, Kôiti Hasida

Knowledge Sharing to Support Collaborative Engineering at PLM Environment .......................................................... 86  
  David Guerra-Zubiaga, Laurent Donato, Ricardo Ramírez,  
  Manuel Contero

Knowledge Management Systems and Organizational Change Management: The Case of Siemens ShareNet .................. 97  
  Hauke Heier, Susanne Strahringer
