Trust, Privacy and Security in Digital Business

6th International Conference, TrustBus 2009
Linz, Austria, September 3-4, 2009
Proceedings
Preface

The advances in the information and communication technologies (ICT) have raised new opportunities for the implementation of novel applications and the provision of high-quality services over global networks. The aim is to utilize this ‘information society era’ for improving the quality of life for all citizens, disseminating knowledge, strengthening social cohesion, generating earnings and finally ensuring that organizations and public bodies remain competitive in the global electronic marketplace. Unfortunately, such a rapid technological evolution cannot be problem free. Concerns are raised regarding the ‘lack of trust’ in electronic procedures and the extent to which ‘information security’ and ‘user privacy’ can be ensured.

TrustBus 2009 brought together academic researchers and industry developers, who discussed the state of the art in technology for establishing trust, privacy and security in digital business. We thank the attendees for coming to Linz to participate and debate the new emerging advances in this area.

The conference program included one keynote presentation, one panel session and six technical papers sessions. The keynote speech entitled “Of Frogs and Herds: Behavioral Economics, Malleable Privacy Valuations, and Context-Dependent Willingness to Divulge Personal Information,” was delivered by Alessandro Acquisti from Carnegie Mellon University (USA). The panel session addressed the area of “Security and Privacy Economics,” while the reviewed paper sessions covered a broad range of topics, from access control models to security and risk management, and from privacy and identity management to reputation and security measurements. The conference attracted many high-quality submissions, each of which was assigned to four referees for review and the final acceptance rate was 35%.

We would like to express our thanks to the various people who assisted us in organizing the event and formulating the program. We are very grateful to the Program Committee members and the external reviewers, for their timely and rigorous reviews of the papers. Thanks are also due to the DEXA Organizing Committee for supporting our event, and in particular to Gabriela Wagner for her help with the administrative aspects.

Finally we would like to thank all of the authors that submitted papers for the event, and contributed to an interesting set of conference proceedings.

September 2009

Organization

Program Committee

General Chair

Günther Pernul
University of Regensburg, Germany

Program Committee Co-chairs

Simone Fischer-Hübner
University of Karlstad, Sweden
Costas Lambrinoudakis
University of the Aegean, Greece

International Program Committee Members

Acquisti, Alessandro
Carnegie Mellon University (USA)

Atluri, Vijay
Rutgers University (USA)

Breaux, Travis
North Carolina State University (USA)

Casassa Mont, Marco
HP Labs Bristol (UK)

Chadwick, David
University of Kent (UK)

Clarke, Nathan
University of Plymouth (UK)

Clayton, Richard
University of Cambridge (UK)

Cuppens, Frederic
ENST Bretagne (France)

Damiani, Ernesto
Università degli Studi di Milano (Italy)

De Capitani di Vimercati, Sabrina
University of Milan (Italy)

De Meer, Hermann
University of Passau (Germany)

Diaz, Claudia
K.U. Leuven ESAT/COSIC (Belgium)

Eloff, Jan
University of Pretoria (South Africa)

Fernandez-Gago, Carmen
University of Malaga (Spain)

Fernandez, Eduardo B.
Florida Atlantic University (USA)

Foresti, Sara
University of Milan (Italy)

Furnell, Steven
University of Plymouth (UK)

Fuss, Juergen
University of Applied Science in Hagenberg (Austria)

Geneiatakis, Dimitris
University of the Aegean (Greece)

Gonzalez-Nieto, Juan M.
Queensland University of Technology (Australia)
Gritzalis, Dimitris  
Athens University of Economics and Business  
(Greece) 

Gritzalis, Stefanos  
University of the Aegean (Greece) 

Hansen, Marit  
Independent Center for Privacy Protection  
(Germany) 

Jøsang, Audun  
Oslo University (Norway) 

Kalloniatis, Christos  
University of the Aegean (Greece) 

Karyda, Maria  
University of the Aegean (Greece) 

Katsikas, Sokratis  
University of Piraeus (Greece) 

Kesdogan, Dogan  
University of Siegen (Germany) 

Kokolakis, Spyros  
University of the Aegean (Greece) 

Lioy, Antonio  
Politecnico di Torino (Italy) 

Lopez, Javier  
University of Malaga (Spain) 

Mana Gomez, Antonio  
University of Malaga (Spain) 

Markowitch, Olivier  
Universite Libre de Bruxelles (Belgium) 

Martinelli, Fabio  
CNR (Italy) 

Matyas, Vashek  
Masaryk University (Czech Republic) 

Mitchell, Chris  
Royal Holloway, University of London (UK) 

Mouratidis, Haris  
University of East London (UK) 

Mueller, Peter  
IBM Zurich Research Lab. (Switzerland) 

Mylopoulos, John  
University of Toronto (Canada) 

Okamoto, Eiji  
University of Tsukuba (Japan) 

Olivier, Martin S.  
University of Pretoria (South Africa) 

Oppliger, Rolf  
eSecurity Technologies (Switzerland) 

Papadaki, Maria  
University of Plymouth (UK) 

Patel, Ahmed  
Kingston University (UK) - University Kebangsaan (Malaysia) 

Pfitzmann, Andreas  
Dresden University of Technology (Germany) 

Piattini, Mario  
University Castilla-La Mancha (Spain) 

Pohl, Hartmut  
FH Bonn-Rhein-Sieg (Germany) 

Posch, Karl  
University of Technology Graz (Austria) 

Possega, Joachim  
University of Passau (Germany) 

Priebe, Torsten  
Capgemini (Austria) 

Quirchmayr, Gerald  
University of Vienna (Austria) 

Rannenberg, Kai  
Goethe University Frankfurt (Germany) 

Rudolph, Carsten

# Table of Contents

## User Profiling and Privacy in Digital Business

User Profiling and Re-identification: Case of University-Wide Network Analysis .......................... 1  
* Marek Kumpošt and Vašek Matyáš

Search Engines: Gateway to a New “Panopticon”? .................. 11  
* Eleni Kosta, Christos Kalloniatis, Lilian Mitrou, and Evangelia Kavakli

## Privacy Enhancing Technologies and Identity Management

Supporting Local Aliases as Usable Presentation of Secure Pseudonyms ........................................ 22  
* Elke Franz and Katja Liesebach

A Privacy-Preserving Platform for User-Centric Quantitative Benchmarking .................................. 32  
* Dominik Herrmann, Florian Scheuer, Philipp Feustel, Thomas Nowey, and Hannes Federrath

An Anonymous Credit Card System ............................ 42  
* Elli Androulaki and Steven Bellovin

## Security and Privacy in Real Life Applications

A Cluster-Based Framework for the Security of Medical Sensor Environments .................................. 52  
* Eleni Klaoudatou, Elisavet Konstantinou, Georgios Kambourakis, and Stefanos Gritzalis

* Alessandro Armando, Enrico Giunchiglia, and Serena Elisa Ponta

A Formalization of HIPAA for a Medical Messaging System .............. 73  
* Peifung E. Lam, John C. Mitchell, and Sharada Sundaram

## Reputation and Security Measurements

Adaptive Dispatching of Incidences Based on Reputation for SCADA Systems .......................... 86  
* Cristina Alcaraz, Isaac Agudo, Carmen Fernandez-Gago, Rodrigo Roman, Gerardo Fernandez, and Javier Lopez
