Preface

This volume contains the proceedings of NOLISP 2009, an ISCA Tutorial and Workshop on Non-Linear Speech Processing held at the University of Vic (Catalonia, Spain) during June 25-27, 2009.

NOLISP 2009 was preceded by three editions of this biannual event held 2003 in Le Croisic (France), 2005 in Barcelona, and 2007 in Paris. The main idea of NOLISP workshops is to present and discuss new ideas, techniques and results related to alternative approaches in speech processing that may depart from the mainstream. In order to work at the front-end of the subject area, the following domains of interest have been defined for NOLISP 2009:

1. Non-linear approximation and estimation
2. Non-linear oscillators and predictors
3. Higher-order statistics
4. Independent component analysis
5. Nearest neighbors
6. Neural networks
7. Decision trees
8. Non-parametric models
9. Dynamics for non-linear systems
10. Fractal methods
11. Chaos modeling
12. Non-linear differential equations

The initiative to organize NOLISP 2009 at the University of Vic (UVic) came from the UVic Research Group on Signal Processing and was supported by the Hardware-Software Research Group.

We would like to acknowledge the financial support obtained from the Ministry of Science and Innovation of Spain (MICINN), University of Vic, ISCA, and EURASIP.

All contributions to this volume are original. They were subject to a double-blind refereeing procedure before their acceptance for the workshop and were revised after being presented at NOLISP 2009.

September 2009

Jordi Solé-Casals
Vladimir Zaiats
Organization

NOLISP 2009 was organized by the Department of Digital Technologies, University of Vic, in cooperation with ISCA and EURASIP.

Scientific Committee

Co-chairs: Jordi Solé-Casals (University of Vic, Spain) 
Vladimir Zaiats (University of Vic, Spain)

Members: Frédéric Bimbot (IRISA, Rennes, France)
Mohamed Chetouani (UPMC, Paris, France)
Gérard Chollet (ENST, Paris, France)
Virgínia Espinosa-Duró (EUPMt, Barcelona, Spain)
Anna Esposito (Segonda Università degli Studi di Napoli, Italy)
Marcos Faúndez-Zanuy (EUPMt, Barcelona, Spain)
Christian Jutten (Grenoble-IT, France)
Eric Keller (University of Lausanne, Switzerland)
Gernot Kubin (TU Graz, Austria)
Stephen Laughlin (University of Edinburgh, UK)
Enric Monte-Moreno (UPC, Barcelona, Spain)
Carlos G. Puntonet (University of Granada, Spain)
Jean Rouat (University of Sherbrooke, Canada)
Isabel Trancoso (INESC, Lisbon, Portugal)
Carlos M. Travieso (University of Las Palmas, Spain)

Local Committee

Co-chairs: Jordi Solé-Casals (University of Vic, Spain)
Vladimir Zaiats (University of Vic, Spain)

Members: Montserrat Corbera-Subirana (University of Vic, Spain)
Marcos Faúndez-Zanuy (EUPMt, Barcelona, Spain)
Pere Martí-Puig (University of Vic, Spain)
Ramon Reig-Bolaño (University of Vic, Spain)
Moisès Serra-Serra (University of Vic, Spain)
Referees

Mohamed Chetouani      Pere Martí-Puig      Jordi Solé-Casals
Gérard Cholet           Enric Monte-Moreno    Isabel Trancoso
Virgínia Espinosa-Duró   Ramon Reig-Bolaño    Carlos M. Travieso
Anna Esposito           Carlos G. Puntonet    Vladimir Zaiats
Marcos Faúndez-Zanuy    Jean Rouat

Sponsoring Institutions

Ministerio de Ciencia e Innovación (MICINN), Madrid, Spain
University of Vic, Catalonia, Spain
International Speech Communication Association (ISCA)
European Association for Signal Processing (EURASIP)
# Table of Contents

## Keynote Talks

Multimodal Speech Separation .......................................................... 1  
*Bertrand Rivet and Jonathon Chambers*

Audio Source Separation Using Hierarchical Phase-Invariant Models .... 12  
*Emmanuel Vincent*

Visual Cortex Performs a Sort of Non-linear ICA ......................... 17  
*Jesús Malo and Valero Laparra*

## Contributed Talks

High Quality Emotional HMM-Based Synthesis in Spanish ............ 26  
*Xavi Gonzalvo, Paul Taylor, Carlos Monzo, Ignasi Iriondo, and Joan Claudi Socoro*

Glottal Source Estimation Using an Automatic Chirp Decomposition ... 35  
*Thomas Drugman, Baris Bozkurt, and Thierry Dutoit*

Automatic Classification of Regular vs. Irregular Phonation Types .... 43  
*Tamás Böhm, Zoltán Both, and Géza Németh*

The Hartley Phase Spectrum as an Assistive Feature for Classification ................................................................. 51  
*Ioannis Paraskevas and Maria Rangoussi*

Speech Enhancement for Automatic Speech Recognition Using Complex Gaussian Mixture Priors for Noise and Speech ................. 60  
*Ramón F. Astudillo, Eugen Hoffmann, Philipp Mandelartz, and Reinhold Orglmeier*

Improving Keyword Spotting with a Tandem BLSTM-DBN Architecture ................................................................. 68  
*Martin Wöllmer, Florian Eyben, Alex Graves, Björn Schuller, and Gerhard Rigoll*

Score Function for Voice Activity Detection ............................... 76  
*Jordi Solé-Casals, Pere Martí-Puig, Ramon Reig-Bolaño, and Vladimir Zaiats*

Digital Watermarking: New Speech and Image Applications ......... 84  
*Marcos Faundez-Zanuy*
