Hybrid Artificial Intelligent Systems

7th International Conference, HAIS 2012
Salamanca, Spain, March 28-30, 2012
Proceedings, Part I
Preface

This volume of Lecture Notes in Artificial Intelligence (LNAI) includes accepted papers presented at the 7th HAIS held in the beautiful and historic city of Salamanca, Spain, in March 2012.

The International Conference on Hybrid Artificial Intelligence Systems (HAIS 2012) has become a unique, established and broad interdisciplinary forum for researchers and practitioners who are involved in developing and applying symbolic and sub-symbolic techniques aimed at the construction of highly robust and reliable problem-solving techniques to present the most relevant achievements in this field.

Hybridization of intelligent techniques, coming from different computational intelligence areas, has become popular because of the growing awareness that such combinations frequently perform better than the individual techniques such as neurocomputing, fuzzy systems, rough sets, evolutionary algorithms, agents and multiagent Systems, among others.

Practical experience has indicated that hybrid intelligence techniques might be helpful to solve some of the challenging real-world problems. In a hybrid intelligence system, a synergistic combination of multiple techniques is used to build an efficient solution to deal with a particular problem. This is, thus, the setting of HAIS conference series, and its increasing success is proof of the vitality of this exciting field.

HAIS 2012 received 293 technical submissions. After a rigorous peer-review process, the International Program Committee selected 118 papers, which are published in these conference proceedings. In this edition a special emphasis was put on the organization of special sessions and workshops. Eight special sessions and one workshop, containing 67 papers in total, were organized on the following topics:

Special Sessions:
- Systems, Man, and Cybernetics by HAIS
- Methods of Classifier Fusion
- HAIS for Computer Security
- Data Mining: Data Preparation and Analysis
- Hybrid Artificial Intelligence Systems in Management of Production Systems
- Hybrid Artificial Intelligent Systems for Ordinal Regression
- Hybrid Metaheuristics for Combinatorial Optimization and Modelling Complex Systems
- Hybrid Computational Intelligence and Lattice Computing for Image and Signal Processing

Workshops:
- Nonstationary Models of Pattern Recognition and Classifier Combinations
The selection of papers was extremely rigorous in order to maintain the high quality of the conference, and we would like to thank the Program Committee for their hard work in the reviewing process. This process is very important to the creation of a conference of high standard and the HAIS conference would not exist without their help.

The large number of submissions is certainly not only testimony to the vitality and attractiveness of the field but an indicator of the interest in the HAIS conferences themselves.

HAIS 2012 enjoyed outstanding keynote speeches by distinguished guest speakers: Tom Heskes, Radboud Universiteit Nijmegen (The Netherlands) and Xindong Wu, University of Vermont (USA).

HAIS 2012 teamed up with the Neurocomputing (Elsevier) and the Applied Soft Computing (Elsevier) journals for special issues and fast-track publication including selected papers from the conference.

Particular thanks also go to the conference main sponsors, IEEE-Sección Española, IEEE Systems, Man and Cybernetics -Capítulo Español, AEPIA, World Federation of Soft Computing, MIR Labs, IT4Innovation Centre of Excellence, The International Federation for Computational Logic, Ministerio de Economía y Competitividad, Junta de Castilla y León, Ayuntamiento de Salamanca, University of Salamanca, who jointly contributed in an active and constructive manner to the success of this initiative. We also want to extend our warm gratitude to all the Special Session and Workshop Chairs for their continuing support of the HAIS series of conferences.

We would like to thank Alfred Hofmann and Anna Kramer from Springer for their help and collaboration during this demanding publication project.

March 2012

Emilio Corchado

Michał Woźniak
Manuel Graña
Sung-Bae Cho
Organization

Honorary Chairs

Alfonso Fernández Mañueco  Mayor of Salamanca
Antonio Bahamonde  President of the Spanish Association for Artificial Intelligence (AEPIA)
Pilar Molina  Chair IEEE Spanish Section
Hojjat Adeli  The Ohio State University, USA
Manuel Castro  Past Chair IEEE Spanish Section

General Chair

Emilio Corchado  University of Salamanca, Spain

International Advisory Committee

Ajith Abraham  Machine Intelligence Research Labs, Europe
Antonio Bahamonde  President of the Spanish Association for Artificial Intelligence, AEPIA
Andre de Carvalho  University of São Paulo, Brazil
Sung-Bae Cho  Yonsei University, Korea
Juan M. Corchado  University of Salamanca, Spain
José R. Dorrorsoro  Autonomous University of Madrid, Spain
Michael Gabbay  King’s College London, UK
Ali A. Ghorbani  UNB, Canada
Mark A. Girolami  University of Glasgow, UK
Manuel Graña  University of the Basque Country, Spain
Petro Gopych  Universal Power Systems USA-Ukraine LLC, Ukraine
Jon G. Hall  The Open University, UK
Francisco Herrera  University of Granada, Spain
César Hervás-Martínez  University of Córdoba, Spain
Tom Heskes  Radboud University Nijmegen, The Netherlands
Dusan Husek  Academy of Sciences of the Czech Republic, Czech Republic
Lakhmi Jain  University of South Australia, Australia
Samuel Kaski  Helsinki University of Technology, Finland
Daniel A. Keim  University of Konstanz, Germany
Isidro Laso  D.G. Information Society and Media, European Commission
Marios Polycarpou  
University of Cyprus, Cyprus

Witold Pedrycz  
University of Alberta, Canada

Václav Snášel  
VSB-Technical University of Ostrava, Czech Republic

Xin Yao  
University of Birmingham, UK

Hujun Yin  
University of Manchester, UK

Michał Woźniak  
Wroclaw University of Technology, Poland

Aditya Ghose  
University of Wollongong, Australia

Ashraf Saad  
Armstrong Atlantic State University, USA

Bernadettsa Kwintiana  
Universität Stuttgart, Germany

Fanny Klett  
German Workforce Advanced Distributed Learning Partnership Laboratory, Germany

Ivan Zelinka  
VSB-Technical University of Ostrava, Czech Republic

Industrial Advisory Committee

Rajkumar Roy  
The EPSRC Centre for Innovative Manufacturing in Through-life Engineering Services, UK

Amy Neustein  
Linguistic Technology Systems, USA

Jaydip Sen

# Table of Contents – Part I

## Special Sessions

### Agents and Multi Agents Systems

An Agent Model for Incremental Rough Set-Based Rule Induction in Customer Relationship Management .......................................................... 1  
*Yu-Neng Fan and Ching-Chin Chern*

Case-Based Argumentation Infrastructure for Agent Societies ........ 13  
*Jaume Jordán, Stella Heras, and Vicente Julián*

The Application of Multi-Agent System in Monitoring and Control of Nonlinear Bioprocesses .............................................................. 25  
*Piotr Skupin and Mieczyslaw Metzger*

Agent Capability Taxonomy for Dynamic Environments ................. 37  
*Jorge Agüero, Miguel Rebollo, Carlos Carrascosa, and Vicente Julián*

Modeling Internet as a User-Adapted Speech Service ..................... 49  
*David Griol, Javier Carbó, and José Manuel Molina*

## HAIS Applications

Unsupervised Classification of Audio Signals by Self-Organizing Maps and Bayesian Labeling ................................................................. 61  
*Ricardo Cruz, Andrés Ortiz, Ana M. Barbancho, and Isabel Barbancho*

Robust Speaker Identification Using Ensembles of Kernel Principal Component Analysis ............................................................... 71  
*IL-Ho Yang, Min-Seok Kim, Byung-Min So, Myung-Jae Kim, and Ha-Jin Yu*

Application of Genetic Algorithms to Optimize a Truncated Mean k-Nearest Neighbours Regressor for Hotel Reservation Forecasting ...... 79  
*Andrés Sanz-García, Julio Fernández-Ceniceros, Fernando Antoñanzas-Torres, and F. Javier Martínez-de-Pisón-Ascacibar*

A Social Network-Based Approach to Expert Recommendation System .......................................................... 91  
*Elnaz Davoodi, Mohsen Afsharchi, and Keivan Kianmehr*
